Handbook of the Sociology of Emotions Volume II presents all new chapters in the ever developing area of the sociology of emotions. The volume is divided into two sections: Theoretical Perspectives and Social Arenas of Emotions. It reviews major sociological theories on emotions, which include evolutionary theory, identity theory, affect control theory, social exchange theory, ritual theory, and cultural theory among others. Social arenas where emotions are examined include, but are not limited to, the economy and the workplace, the family, mental health, crime, sports, technology, social movements and the field of science. All the chapters review the major theories and research in the area and each chapter ends with some discussion of directions for future research. The Sociology of Emotions is a fast growing and vital field in the broad discipline of Sociology. This volume II follows the Handbook of the Sociology of Emotions which was first published in 2006. In 2008, this first handbook received the "Outstanding Recent Contribution" in the Emotions Section of the American Sociological

Association. With contributions from leading scholars from different areas in the discipline, such as neurosociology, culture, economics, mental health, gender, social movements, discussing state-of-art theory and research on emotions in sociology this volume will generate wider appeal to the sociological community.

Game Sense is an exciting and innovative approach to coaching and physical education that places the game at the heart of the session. It encourages the player to develop skills in a realistic context, to become more tactically aware, to make better decisions and to have more fun. Game Sense is a comprehensive, research-informed introduction to the Game Sense approach that defines and explores key concepts and essential pedagogical theory, and that offers an extensive series of practical examples and plans for using Game Sense in real teaching and coaching situations. The first section of the book helps the reader to understand how learning occurs and how this informs player-centred pedagogy. It also explains the relationship between Game Sense and other approaches to Teaching Games for Understanding. The second section of the book demonstrates how the theory can be applied in practice, providing a detailed, step-by-step guide to using Game Sense in eleven sports,

This in-depth treatment of the organization and operation of the All-American Girls Professional Baseball League draws on primary documents from league owner Arthur Meyerhoff and others for a unique perspective inside the AAGPBL. The study begins with a brief history of women's softball, an important precursor to, and talent pool for, women's professional baseball. Next the book investigates league administration and organization as well as publicity and promotion. Later chapters cover team administrative structures, managers, chaperones, player backgrounds, and league policies. Finally, discussion focuses on the activities of the AAGPBL Players' Association from 1980 onward. Informed by many years of research and insights from former players, this exhaustive history contains 149 photographs.
