Our health care is staggeringly expensive, yet one in six Americans has no health insurance. We have some of the most skilled physicians in the world, yet one hundred thousand patients die each year from medical errors. In this gripping, eye-opening book, award-winning journalist Shannon Brownlee takes readers inside the hospital to dismantle some of our most venerated myths about American medicine. Brownlee dissects what she calls "the medical-industrial complex" and lays bare the backward economic incentives embedded in our system, revealing a stunning portrait of the care we now receive. Nevertheless, *Overtreated* ultimately conveys a message of hope by reframing the debate over health care reform. It offers a way to control costs and cover the uninsured, while simultaneously improving the quality of American medicine. Shannon Brownlee's humane, intelligent, and penetrating analysis empowers readers to avoid the perils of overtreatment, as well as pointing the way to better health care for everyone.

In the movie Bull Durham, frustrated manager Joe Riggins stresses to his team, "This is a simple game. You throw the ball. You hit the ball. You catch the ball." This simplification works well for biomechanists too, as sports can be broken down into specific physical tasks like throwing, hitting, catching, and running. There have been significant advances in understanding some actions, but not others. In the first ten years of the journal Sports Biomechanics, only 18 of 236 articles were about hitting a ball. This scarcity is startling considering that according to USA Today (May 20, 2005), three of the five hardest things to do in sports involve hitting a ball (#1: baseball batting, #4: golf tee shot, and #5: tennis serve return). This book provides the latest biomechanical research in the under-studied field of hitting a ball. The biomechanics of baseball, cricket, hockey, hurling, softball, table tennis, and tennis are all examined. The chapters are written in a style that will both satisfy the high standards of biomechanists and provide information for instructors and athletes to improve performance. This book is based on a special issue of Sports Biomechanics.

Making My Pitch tells the story of Ila Jane Borders, who despite formidable obstacles became a Little League prodigy, MVP of her otherwise all-male middle school and high school teams, the first woman awarded a college baseball scholarship, and the first to pitch and win a complete men's collegiate

Read Book 7 Journal A Softball Jersey Number 7 Seven Notebook For Writing And Notes Great Personalized Gift For All Players Coaches And Fans Yellow Red Black Ball Print

game. After Mike Veeck signed Borders in May 1997 to pitch for his St. Paul Saints of the independent Northern League, she accomplished what no woman had done since the Negro Leagues era: play men's professional baseball. Borders played four professional seasons and in 1998 became the first woman in the modern era to win a professional ball game. Borders had to find ways to fit in with her teammates, reassure their wives and girlfriends, work with the media, and fend off groupies. But these weren't the toughest challenges. She had a troubled family life, a difficult adolescence as she struggled with her sexual orientation, and an emotionally fraught college experience as a closeted gay athlete at a Christian university. *Making My Pitch* shows what it's like to be the only woman on the team bus, in the clubhouse, and on the field. Raw, open, and funny at times, her story encompasses the loneliness of a groundbreaking pioneer who experienced grave personal loss. Borders ultimately relates how she achieved self-acceptance and created a life as a firefighter and paramedic and as a coach and goodwill ambassador for the game of baseball.
