Auditioning

Since the death of his wife seven years ago, documentary maker Aoyama has not dated anyone else. Now even his teenage son, Shige, thinks that he should remarry and his best friend Yoshikawa comes up with a plan: to hold fake film auditions from which, he can choose a new bride. Of the thousands who apply, it is a beautiful ballerina, Yamasaki Asami, who captivates Aoyama. Infatuated by her fragile nature and nervous smile, he ignores his increasing sense of unease, putting aside his doubts about his new love, until it may be too late. In *Audition*, Ryu Murakami delivers his most subtly disturbing novel yet, confirming him as Japan's master of the psycho-thriller.

Audition

Provides a guide to auditioning for film and theatrical roles with confidence, including tips on preparing for a role, finding the right monologues and songs to

showcase talent, and dealing with creative criticism.

Audition Success

A collection of fifty audition speeches for men selected from the finest plays of the last twenty years. The selections come from mainstream contemporary classics and important emerging work. Many of the playwrights represented here have received critical acclaim on both sides of the Atlantic. Included are Jim Cartwright's *Road*, Caryl Churchill's *Serious Money*, David Edgar's *Maydays*, Martin McDonagh's *the Beauty Queen of Leenane*, Ron Hutchinson's *Rat in the Skull*, Ntozake Shange's *Spell #7*, and Timberlake Wertenbaker's *Our Country's Good*, as well as work by Max Frisch, Edward Bond, Terry Johnson, Alan Ayckbourn, and others. The speeches cover a wide range of mood and character, from comedy to tragedy, from youth to old age, offering the actor a rich choice of new material. Each piece is accompanied by a synopsis setting the extract firmly in its context. The volume is introduced by the editor with a note of advice drawn from interviews with experienced directors. Book jacket.

Audition, Somatic Perception, and the Chemical Senses

Audition Success presents a groundbreaking method that has already made Don

Greene one of the country's leading audition trainers. Combining specially designed self-tests and real-life examples from the careers of two performers, Audition Success will help performers understand what prevents them from nailing an audition and give them the tools to reach their goals.

The Role of Audition in the Development and Maintenance of Avian Vocal Behavior

Using real life examples, this book will help performers understand what prevents them from nailing an audition and give them the tools to reach their goals. Greene's techniques teach you how to monitor and control fear and put your nervous energy to work. From preparing for the audition circuit to techniques for great auditions.

Imaginary Audition

A Practical Treatise on the Medical, Surgical and Hygienic Treatment of Catarrhal Diseases of the Nose, Throat, and Ears

A wonderful compilation of unique, compelling and engaging monologues

specifically for women. Powerful points of view combine with interesting characters to make these monologues explode with life. This is the 'secret weapon' material that Meisner trained actors and actresses have used for over 80 years to stand out from the crowd.

Audition for a Writer

The Singer's Audition & Career Handbook is a comprehensive guide to the training, audition technique, and professional development essential for launching and sustaining a rewarding career in classical singing. Expanding on author Claudia

Friedlander's online collaboration with mezzo-soprano Joyce DiDonato and the Weill Music Institute at Carnegie Hall, the book brings together insights from nearly seventy prominent performers, educators, and opera industry professionals. Whether you are a young singer preparing for conservatory auditions, a professional opera singer, or an avocational singer seeking to improve your technique and pursue local performance opportunities, this book will help you take inventory of your skills and achieve the next stages of your musical journey.

The 16-bar Theatre Audition

(Vocal Collection). Most large audition calls for musical theatre, both professionally and in larger school situations, specify that those auditioning bring in a "16-bar" excerpt. The professionals in musical theatre often complain that singers don't know how to construct an appropriate 16-bar audition, either in choosing a song or in editing an excerpt. With this new series, that problem is solved forever! Editor Michael Dansicker, a composer/producer/music director, is a seasoned musical theatre veteran, with 100 Broadway credits. He brings his expertise and broad knowledge of the literature to this series. Each excerpt has been given a thoughtful, graceful and effective form. No more illegible scribblings for the poor audition accompanist! An enormous variety of literature is represented, from old standards to movie songs to the latest Broadway and Off-Broadway material. With 100 songs per volume, any singing actor, whatever his or her talents and strong

suits, will have many choices. In the preface, the editor gives valuable pointers on the nature of a good audition and some factors in choosing songs.

How to Audition

"Will generate lively argument as both an interpretation and the instance of a method. . . . A work of first importance."--Edward Snow, author of *A Study of Vermeer* "This is the most searching analysis of the differences between reading and playgoing I have yet encountered, and it constitutes a decisive step forward in what is already an engrossing public debate on the subject."--Jonas Barish, author of *The Antitheatrical Prejudice*

Audition Log Book

Expertly translated and updated from the original French, Audition offers a broad, detailed, and up-to-date treatment of the physiology of hearing. It includes a substantial section on auditory psychophysics as well as brief introductions to physical acoustics, musical acoustics, anatomy, and clinical topics. The book's clear, direct style and its more than 180 well-chosen, informative, and easily understood figures make it accessible not only to upper-level undergraduate and graduate students in the basic and clinical neurosciences but also to students in professional training programs such as otolaryngology or audiology. Audition is divided into three major sections. The first concerns the psychophysics of hearing and covers nonlinear phenomena, perception of complex tones, and musical scales. The second covers the anatomy and physiology of the ear, beginning with data from earlier and more recent studies of auditory-nerve fibers, proceeding to cochlear mechanics, and ending with current findings regarding cochlear transduction. The third deals with the central nervous system, detailing aspects of

the auditory pathway and including a useful section on the relationship between auditory psychophysics and current neurophysiological research. Audition concludes with appendixes on deafness and evoked potentials and a comprehensive bibliography. Pierre Buser is Professor in the Department of Comparative Neurophysiology at the Universite Pierre et Marie Curie in Paris. Michel Imbert is Professor in the Department of Visual Neuroscience, also at the Universite Pierre et Marie Curie. R. H. Kay is Emeritus Fellow of Keble College, Oxford.
