Passwords are not the problem. The management of passwords is the real security nightmare. User authentication is the most ignored risk to enterprise cybersecurity. When end users are allowed to generate, know, remember, type and manage their own passwords, IT has inadvertently surrendered the job title Network Security Manager to employees - the weakest link in the cybersecurity chain. Dovell Bonnett reveals the truth about the elephant in the room that no one wants to mention: Expensive backend security is worthless when the virtual front door has a lousy lock! Dovell proves that making passwords secure is not only possible, passwords can actually become an effective, cost efficient and user friendly feature of robust cybersecurity. After examining how encryption keys are secured, this book introduces a new strategy called Password Authentication Infrastructure (PAI) that rivals digital certificates.

Passwords are not going away. What needs to be fixed is how passwords are managed.

This welcome new edition builds on the strengths of its predecessor in its thematic coherence, clarity of exposition and analytical depth. It is carefully structured to cover all the main substantive topics studied at an introductory level within a framework that engages with exciting contemporary debates about modernity, globalization, and social identity. Key features of the new edition include: a completely new chapter on the media; extended coverage of social divisions to include disability, youth, old age, class, gender and race; and clearer treatment of social theory, incorporating discussion of work by such contemporary theorists as Habermas, Giddens, and Beck.

The story of how a girl born into slavery became an early leader in the civil rights movement and the most famous black female journalist in nineteenth-century America. Born into slavery in 1862, Ida Bell Wells was freed as a result of the Emancipation Proclamation in 1865. Yet she could see just how unjust the world she was living in was. This drove her to become a journalist and activist. Throughout her life, she fought against prejudice and for equality for African Americans. Ida B. Wells would go on to co-own a newspaper, write several books, help cofound the National Association for the Advancement of Colored People (NAACP), and fight for women's right to vote.
