As technology becomes an ever-more prevalent part of everyday life, and population-based physical activity programs seek new ways to increase life-long engagement with physical activity, these two ideas have become increasingly linked. This Special Issue attempts to offer a thorough and critical examination of emerging technologies in physical activity and health promotion, considering technological interventions in different contexts (communities, clinics, schools, homes, etc.) among various populations, exploring the challenges of integrating technology into physical activity promotion, and offering solutions for its implementation. This Special Issue aims to take a broadly positive stance toward interactive technology initiatives and, while discussing some negative implications of an increased use of technology, offers practical recommendations for promoting physical activity through various emerging technologies, including, but not limited to: Active video games (exergaming); social media; mobile device apps; health wearables; mobile games, augmented reality games, global positioning and geographic information systems; and virtual reality. Offering a

logical and clear critique of emerging technologies in physical activity and health promotion, this Special Issue will provide useful suggestions and practical implications for researchers, practitioners, and educators in the fields of public health, kinesiology, physical activity and health, and healthcare.

Shots rang out in Savannah's grandest mansion in the misty, early morning hours of May 2, 1981. Was it murder or self-defense? For nearly a decade, the shooting and its aftermath reverberated throughout this hauntingly beautiful city of moss-hung oaks and shaded squares. John Berendt's sharply observed, suspenseful, and witty narrative reads like a thoroughly engrossing novel, and yet it is a work of nonfiction. Berendt skillfully interweaves a hugely entertaining first-person account of life in this isolated remnant of the Old South with the unpredictable twists and turns of a landmark murder case. It is a spellbinding story peopled by a gallery of remarkable characters: the well-bred society ladies of the Married Woman's Card Club; the turbulent young redneck gigolo; the hapless recluse who owns a bottle of poison so powerful it could kill every man, woman, and child in Savannah; the aging and profane Southern belle who is the "soul of pampered self-absorption"; the

uproariously funny black drag queen; the acerbic and arrogant antiques dealer; the sweet-talking, piano-playing con artist; young blacks dancing the minuet at the black debutante ball; and Minerva, the voodoo priestess who works her magic in the graveyard at midnight. These and other Savannahians act as a Greek chorus, with Berendt revealing the alliances, hostilities, and intrigues that thrive in a town where everyone knows everyone else. *Midnight in the Garden of Good and Evil* is a sublime and seductive reading experience. Brilliantly conceived and masterfully written, this enormously engaging portrait of a most beguiling Southern city has become a modern classic.

## **Super Pumped**

Backed by billions in venture capital dollars and led by Travis Kalanick, a brash and ambitious founder, Uber promised to revolutionize the way we move people and goods through the world. But in June 2017, Uber's hard-charging CEO was ousted in a boardroom coup that capped a brutal year for the transportation giant. What followed would become a corporate cautionary tale about the perils of startup culture and a vivid example of how blind worship of startup founders can go wildly wrong. Based on hundreds of interviews with current and former Uber

If you are a baseball fan, then coaching youth baseball is one the most enjoyable and rewarding activities you'll experience. But what if you've never coached before? Or you haven't played the game in a while and have forgot some key points to the sport? No worries! Coaching Baseball for Dummies guides you through the rules of the game, explaining all the essential skills and the best ways to teach them to your players. Covering different age groups and great practice routines, this guide is all you need to have a fun-filled season. You'll discover how to:

- Fulfill the role of being a coach and parent
- Develop a coaching philosophy
- Understand how your league works
- Evaluate your team
- Teach your players fundamentals
- Understand all kinds of children
- Create your practice plan
- Prepare for game day
- Overcome challenges and problems

This plain-English guide also shows you how to run all kinds of drills, from hitting and pitching to fielding and base running. And when your team is tense or low on morale, it shows you how to relax your players and keep them focused on the game.

There are also suggestions for making your season, and theirs, a memorable one. Coaching Baseball for Dummies shows you how much fun it can be to train kids to be athletes, have good sportsmanship, and work together as a team.

## **Molly and the Giant**

A thorough survey of the origins and development of the major distinct American commercial entertainments that emerged between over the course of the 19th century and into the 20th, including P.T. Barnum's American Museum, freak show, and circus, as well as blackface minstrelry, Buffalo Bill's Wild West Show, and vaudeville.

## **Bushville Wins!**

Exactly one hundred years before the Brooklyn Dodgers won the 1955 World Series, the Brooklyn Excelsiors were playing on the same grounds where the Dodgers would begin their long history. Brooklyn and its teams played a prominent role in the early history of the game and reigned as champions of baseball's first organized league through most of the 1860s. The early years of organized baseball (1855-1884) in Brooklyn when it was the center of the baseball universe is the focus of this book. In addition to discussing the early clubs and players, this work examines

the transformation of baseball from a recreational pursuit of gentlemen's clubs to a professional spectator sport. It also reveals much about the social norms, gender and race relations, and the role of the media in the early game and covers the many firsts that are attributed to early Brooklyn teams, such as having the first paid player, tragic hero and curveball pitcher, and being the first team to take road trips, play in enclosed ball parks and charge admission. Notably, they were heralded by the most famed sports journalist of the nineteenth century.

The fully revised and updated version of this classic text examines the link between three key obsessions of the 21st century: the media, sport and popular culture. Gathering new material from around the 2007 Rugby World Cup, the Beijing Olympics and the rise of new sports stars such as boxing's Amir Khan and cycling's Victoria Pendleton, the authors explore a wide range of sports, as well as issues including nationalism, gender, race, political economy and the changing patterns of media sport consumption. For those interested in media and sport the second edition combines new and original material

with an overview of the developing field of media sport, and examines the way in which the media has increasingly come to dominate how sport is played, organized and thought about in society. It traces the historical evolution of the relationship between sport and the media and examines the complex business relationships that have grown up around television, sponsors and sport. Covers the following topics: the history of media in sport; television, sport and sponsorship; why sport matters to television; sports stars; sports journalism; fans and the audience; sport in the digital media economy.

MaddoxThe reason I rarely go home is three simple words: I'm a liar. When the pressure to marry my childhood sweetheart became too much, I told her I was gay and then fled to New York like my ass was on fire. Now, five years later and after a drunken encounter, I find myself invited to her wedding. And I have to bring my boyfriend--the boyfriend who

doesn't exist because I'm straight. At least, I think I am. Meeting the guy I'm bribing to be my boyfriend for the weekend makes me question everything about myself. Damon When my sister asks me to pretend to be some straight guy's boyfriend, my automatic response is to say no. It's because of guys like him people don't believe me when I tell them I'm gay. But Maddox has something I need. After an injury that cost me my baseball career, I'm trying to leave my playing days behind and focus on being the best sports agent I can be. Forty-eight hours with my sister's best friend in exchange for a meeting with a possible client. I can do this. I just wish he wasn't so hot. Or that he didn't kiss like he means it. Wait why is the straight guy kissing me? \*Fake Out is a full-length MM novel with a HEA/HFN and no cliffhanger.\*

How to design a world in which we rely less on stuff, and more on people. We're filling up the world with technology and devices, but we've lost sight of an important question: What is this stuff for? What value does it add to our lives? So asks author John Thackara in his new book, *In the Bubble: Designing for a Complex World*. These are tough questions for the pushers of technology to answer. Our economic system is centered on technology, so it would be no small matter if "tech" ceased to be an end-in-itself in our daily lives. Technology is not going to go away, but the time to discuss the end it will serve is before we deploy it, not after. We need to ask what purpose will be served by the broadband communications, smart materials, wearable computing, and connected

appliances that we're unleashing upon the world. We need to ask what impact all this stuff will have on our daily lives. Who will look after it, and how? In the Bubble is about a world based less on stuff and more on people. Thackara describes a transformation that is taking place now—not in a remote science fiction future; it's not about, as he puts it, "the schlock of the new" but about radical innovation already emerging in daily life. We are regaining respect for what people can do that technology can't. In the Bubble describes services designed to help people carry out daily activities in new ways. Many of these services involve technology—ranging from body implants to wide-bodied jets. But objects and systems play a supporting role in a people-centered world. The design focus is on services, not things. And new principles—above all, lightness—inform the way these services are designed and used. At the heart of In the Bubble is a belief, informed by a wealth of real-world examples, that ethics and responsibility can inform design decisions without impeding social and technical innovation.

For every woman who has posted 800 pictures of her baby on Instagram. One day that little plus sign appears on the stick, and you

realize your life is about to change forever—you're going to be a mom! Whether you're still in the days of 2am feedings and loads of dirty diapers, or you've made it to that bittersweet moment of their college graduation, this book will make you laugh out loud with its insightful and funny observations about motherhood. From the days when you read every parenting book ever written—while your husband plays golf—to the hours you spent polishing up your adult child's resume, parenting is a roller coaster. Harry H. Harrison Jr. makes it just a little easier with his trademark humor and truisms as you learn that your job as a mom is the most important one you'll ever have.

It's a calendar, a planner, and so much more. Combining organizational finesse with zesty Boynton illustrations, "Mom's Family Desk Planner" goes everywhere and anywhere Mom does. And now this planner runs a full 16 months, beginning boldly when school starts in September 2008, and ending gracefully on New Year's Eve 2009. On the lefthand side of each spread is an emissary from the Boynton menagerie to brighten your week (a cat, a rhino, a penguin, the obligatory cow). On the righthand side, there's a week-at-a-glance grid with two generously-sized write-in columns, one for Mom's schedule, one for the

family's comings and goings. Section 2 of the desk planner features space for important phone numbers from doctors to school contacts to restaurants. Then there are tear-out grocery and to-do lists, and some extra pages for scribbling down important and/or inconsequential things. And stickers! Put them on special dates, or perhaps use them to lavishly decorate your tax return. After all, Moms need to have fun too."
