## Canadiana

Developed by the University of Cambridge School Classics Project, this bestselling Latin program provides an enjoyable and carefully paced introduction to the Latin language, complemented by background information on Roman culture and civilization. Following in the footsteps of two fugitives from the destruction of Pompeii, Unit 2 captures the drama of the daily lives of the inhabitants of two very different provinces at opposite ends of the Roman empire, Britain and Egypt.

## North American Cambridge Latin Course Unit 3 Teacher's Manual

This textbook is endorsed by OCR and supports the specifications for AS and A-Level Classical Civilisation (first teaching September 2017). It covers all three options for Component 11: World of the Hero (Homer's Iliad, Homer's Odyssey and Virgil's Aeneid). Why does the Trojan War continue to fascinate us? What makes Odysseus a hero? What links can be drawn between the Aeneid and today's global politics? This book guides AS and A-Level students to a greater understanding of the epics of Homer and Virgil, setting the poems in their cultural context and drawing on the scholarship of leading academics to explore the poetry, characters and underlying philosophies. The colour illustrations, from the Cyclops on a Greek pot to a photograph of protesting Yazidi women, reflect the universal impact and continuing relevance of these classical epics. The ideal preparation for the final examinations, all content is presented by an expert and experienced teacher in a clear and accessible narrative. Ancient literary sources are described and analysed. Helpful student features include study questions, quotations from contemporary scholars, further reading, and boxes focusing in on key people, events and terms. Practice questions and exam guidance prepare students for assessment. A Companion Website is available at [www.bloomsbury.com/class-civ-as-a-level](http://www.bloomsbury.com/class-civ-as-a-level).

## Cambridge Latin Course - Machine Scored Stage Tests

Since its first publication in 1970, the Cambridge Latin Course has sold more than four million copies worldwide. Developed by the University of Cambridge School Classics Project, this bestselling Latin program provides an enjoyable and carefully paced introduction to the Latin language, complemented by background information on Roman culture and civilization. The four Units progress from simple stories written specially for the Course to adaptations of Roman authors and original literature. The texts are accompanied by explanations of key language points and supported by grammar practice exercises. The story begins in the town of Pompeii shortly before the eruption of Vesuvius in AD 79 and follows the fortunes of the household of Lucius Caecilius Iucundus. Further titles in the Course take the reader to the Roman provinces of Britain and Egypt, and to imperial Rome itself.

Machaut's Messe de Notre Dame stands as an enduring monument of medieval musical art. As such it is one of the most widely studied and performed works of music written before 1600. The Mass itself, however, is surrounded by uncertainty; its date of composition is unknown, its purpose is unclear, and its construction yields much ambiguity. Daniel Leech-Wilkinson has now prepared a much-needed modern performing edition of this work, published by OUP's music department. This companion volume defines his editorial methods in the context of the minefield of controversies surrounding the principles of editing music of this period, and indeed of the many different interpretations of the compositional structure and function of the music. Relating the Mass to other works of the period, he provides the student and performer with an invaluable guide to its intricacies, while his approach will be welcomed by scholars as both controversial and stimulating.

Let's imagine a man called Tom Barnes, aka BA5799, who's leading British troops in the war zone. And two boys growing up together, riding a prized bicycle and flying kites, before finding themselves estranged once foreign soldiers appear in their countryside; and the man who trains one to fight against the other's father and these infidels. Then include the family and friends who radiate out from these lives, people on all sides of this conflict with most everyone caught in the middle. But then imagine not how they see themselves but as all the objects surrounding them do -- their shoes, a helmet, a trove of dollars, a drone, that bike, weaponry, a bag of fertilizer, a medal, beer glass, a snowflake, dogtags, or a horrific explosion that ties them all together and the various medical impliments that are subsequently employed. The result is a novel that amplifies what Tim O'Brien accomplished in his legendary *The Things They Carried*, and reveals a man of enormous character in Captain Barnes as well as all the people who were part of this same heart-stopping journey.

### British Books in Print

"Convincing Ground" pulses with love of country. In this powerful, lyrical and passionate new work Bruce Pascoe asks us to fully acknowledge our past and the way those actions continue to influence our nation today, both physically and intellectually. The book resonates with ongoing debates about identity, dispossession, memory and community. Pascoe draws on the past through a critical examination of major historical works and witness accounts and finds uncanny parallels between the techniques and language used there to today's national political stage. He has written the book for all Australians, as an antidote to the great Australian inability to deal respectfully with the nation's constructed Indigenous past. For Pascoe, the Australian character was not forged at Gallipoli, Eureka and the back of Bourke, but in the furnace of Murdering Flat, Convincing Ground and Werribee. He knows we can't reverse the past, but believes we can bring in our soul from the fog of delusion. Pascoe proposes a way forward, beyond shady intellectual argument and immature nationalism, with our strengths enhanced and our weaknesses acknowledged and addressed.

The unknown history of deportation and of the fear that shapes immigrants' lives Constant headlines about deportations, detention camps, and border walls drive urgent debates about immigration and what it means to be an American in the twenty-first century. The Deportation Machine traces the long and troubling history of the US government's systematic efforts to terrorize and expel immigrants over the past 140 years. This provocative, eye-opening book provides needed historical perspective on one of the most pressing social and political issues of our time. In a sweeping and engaging narrative, Adam Goodman examines how federal, state, and local officials have targeted various groups for expulsion, from Chinese and Europeans at the turn of the twentieth century to Central Americans and Muslims today. He reveals how authorities have singled out Mexicans, nine out of ten of all deportees, and removed most of them not by orders of immigration judges but through coercive administrative procedures and calculated fear campaigns. Goodman uncovers the machine's three primary mechanisms—formal deportations, "voluntary" departures, and self-deportations—and examines how public officials have used them to purge immigrants from the country and exert control over those who remain. Exposing the pervasive roots of anti-immigrant sentiment in the United States, The Deportation Machine introduces the politicians, bureaucrats, businesspeople, and ordinary citizens who have pushed for and profited from expulsion. This revelatory book chronicles the devastating human costs of deportation and the innovative strategies people have adopted to fight against the machine and redefine belonging in ways that transcend citizenship.
