Garden Planner

Everyone who loves their garden needs to make notes about plans and projects, about plants and growing tips. This beautifully illustrated journal is the answer to a garden-lover's dreams: a personal organizer, divided into six tabbed sections, where you can gather information about plants and record all the developments in your garden month by month and year by year. There is a section devoted to planning your garden, with squared paper so you can sketch out your planting schemes, followed by sections on flowers, trees and shrubs, vegetables, herbs, and fruits where you can build up lists of plants to introduce into your garden. The Useful Addresses section offers plenty of space for adding contact details of favorite nurseries and suppliers."

A Gardener's Journal

The best groomed and most productive garden is easy when you know what to prune when and how your plants work. Pruning for Flowers and Fruit covers plants in cool-temperate to subtropical climates and is suitable for the home gardener, avid enthusiast as well as the nursery trade and horticultural students. It includes annuals, ornamentals, vegetables, roses, perennials and hydrangeas, and fruiting plants that can be pruned to fit in your back garden. The author shows how to choose the best plant at the nursery, prune weather damaged plants, renovate ornamental or fruiting trees and shrubs, and maintain your scateurs like a professional. Create different landscape features such as pleached avenues, design elements like hedges and the more fanciful topiary. Show off your plant's juvenile foliage or beautiful bark, or sustainably harvest wood for carpentry or craft by following the steps on how to coppice or pollard plants. Never get your wisteria in a twist again and learn to prune with confidence following techniques that range from the most basic through to those for the most advanced espaliers.

My Gardening Journal

A Year in the Garden is for note takers, list makers, and gardeners! Combining the popular style and structure of bullet journals with guided, creative prompts, it will help you slow down, track your time and your garden's process, and celebrate plants.

Gardening Log Book

Through writing exercises, inspirational quotes, and simple tutorials, this guided journal for gardeners helps users transform terms like "living in the moment," "meditation," and "mindfulness" from mere buzzwords into helpful everyday practices that will help them de-stress, reconnect, and handle whatever challenges the day brings. Meditations for Gardeners provides the user with a series of simple journaling prompts designed to nurture a positive, calming framework to approach the day. Each of the writing prompts provided is grounded in nature and the garden, offering the user space to examine one's garden and one's self and to ponder some of the basic tenets of mindfulness. The journal can be completed at whatever pace the user prefers to work at (daily, weekly, etc) and features inspirational quotes sprinkled throughout, as well as introductory material on the practice of mindfulness and a list of resources for further reading.

The Allotment Gardener's Log Book: A Garden Notebook to Keep Track of Vegetables and Plants for Allotment Gardening. Track Your Allotment Gardening Mo

For Rebecca Bushnell, English gardening books tell a fascinating tale of the human love for plants and our will to make them do as we wish. These books powerfully evoke the desires of gardeners: they show us gardeners who, like poets, imagine not just what is but what should be. In particular, the earliest English garden books, such as Thomas Hill's *The Gardener's Labyrinth* or Hugh Platt's *Floraes Paradise*, mix magical practices with mundane recipes even when the authors insist that they rely completely on their own experience in these matters. Like early modern "books of secrets," early gardening manuals often promise the reader power to alter the essential properties of plants: to make the gillyflower double, to change the lily's hue, or to grow a cherry without a stone. *Green Desire* describes the innovative design of the old manuals, examining how writers and printers marketed them as fiction as well as practical advice for aspiring gardeners. Along with this attention to the delights of reading, it analyzes the strange dignity and pleasure of garden labor and the division of men's and women's roles in creating garden art. The book ends by recounting the heated debate over how much people could do to create marvels in their own gardens. For writers and readers alike, these green desires inspired dreams of power and self-improvement, fantasies of beauty achieved without work, and hopes for order in an unpredictable world—not so different from the dreams of gardeners today.

For the gardener who wants to enjoy the benefits of gardening, without the frustrations. **FOR THE COST OF ONE SIMPLE GARDEN TOOL, you can OWN THE MOST VALUABLE GARDEN TOOL OF ALL;** one that will save you hundreds and perhaps thousands of dollars in mistakes. Even more valuable than your favorite garden trowel or spade is a written record of what works in your garden. **WHILE GARDENING BOOKS AND THE INTERNET ARE FULL OF GREAT ADVICE, THEY CAN'T REPLACE PERSONAL EXPERIENCE.** Your garden is in your micro-climate, with your soil. Perennials in one part of the country aren't perennials in another. There are simply too many plants and too many variables for anyone to remember from year to year what worked where and what didn't and why. You need to remember **WHAT WORKS FOR YOU-IN YOUR GARDEN.** Every gardener faces repeat attacks of pests or disease and needs to remember which treatment worked and which did more harm than good. Every gardener has weeded out emerging perennials, forgetting what they planted where. Every gardener needs a memory! **THE GARDEN JOURNAL, PLANNER & LOG BOOK** is a book of garden forms with the flexibility needed to personalize your style of record keeping. With this one book you can track your purchases from store to harvest to propagation, and never waste money and labor again. What really makes the difference between a great and a mediocre garden is how well the gardener keeps track of all the information needed to enhance success and avoid repeated failures. **GARDENING IS AN ART, BUT IT'S ALSO A SCIENCE.** **THE GARDEN JOURNAL , PLANNER & LOG BOOK** is designed to make record-keeping simple and easy. Every form is designed to include all the pertinent information needed, while minimizing the amount of time required to record that information. Just on the individual plant pages alone, there are over fifty possible check boxes for each plant. Use as many or as few as you desire, and record as much or as little as you wish in the spaces for other information. * Fill out log pages for annuals, biennials and perennials, with the location of each plant * Keep track of the lifecycle of all your flowers, herbs, vines, etc. on log pages. * Fill in the times to prune, trim and tidy which plants by season, depending on your area. * Make a plan for up to four years on the planning pages. * Draw out garden plots for twenty beds on graph paper with notes on the pages opposite. * Keep records of hardscaping, weather, formulas, pests and diseases, cultivation and propagation, bloom and harvest times, flowers, bulbs, fruit, vegetables, herbs, vines, shrubs and trees. *

Keep a diary for all the things you simply must write out using sentences or drawings, because as much as gardening is a science, it is an art above all. YOUR GARDEN WILL LOOK LIKE ART; but you will know that THE GARDEN JOURNAL, PLANNER & LOG BOOK is the science behind your success. Author's note: The book binding is hinged on the 11" top edge, to open like a calendar. Due to the fact that the printing company does not have in place protocols to handle an 11" landscape spine layout, the result is an incorrectly rotated image on the sales page.

A Year in the Garden

A new edition of the bestselling guide to making the most of your allotment, with seasonal advice, essential to-do lists, and more than 60 fruit and vegetable crop planners. The Gardener and the Carpenter

This waterproof log book is the perfect place for recording your work in the garden. Use this journal throughout the seasons, from building catalog wish lists early in the year, to noting the first signs of spring, to recording what vegetable crops you planted and their yield, to organizing yourself for bulb planting in fall, to, finally, putting the garden to bed for the winter. A five year grid at the beginning of each month offers space to note annual garden cycles over time, and journal entry pages are lined for notes or gridded for diagramming plantings. Whether you tend a window box, a cutting garden, or many raised vegetable beds, this is the perfect write-in companion to your gardening. This weatherproof five-year log book includes the following features-
- Sturdy waterproof cover to protect pages from rain and muddy soil
- Lined pages and gridded paper for plotting beds
- Five years of 12-month bloom and harvest grids for recording what you planted and when
- Authoritative appendices on composting, pruning, pest and disease control, and container gardening
- Useful reminders by season on fertilizing, mulching, and transplanting
- Space for listing your favorite sources and suppliers.

Gardener's Log Book

If an entire nation could seek its freedom, why not a girl? As the Revolutionary War begins, thirteen-year-old Isabel wages her own fight for freedom. Promised freedom upon the death of their owner, she and her sister, Ruth, in a cruel twist of fate become the property of a malicious New York City couple, the Locktons, who have no sympathy for the American Revolution and even less for Ruth and Isabel. When Isabel meets Curzon, a slave with ties to the Patriots, he encourages her to spy on her owners, who know details of British plans for invasion. She is reluctant at first, but when the unthinkable happens to Ruth, Isabel realizes her loyalty is available to the bidder who can provide her with freedom. From acclaimed author Laurie Halse Anderson comes this compelling, impeccably researched novel that shows the lengths we can go to cast off our chains, both physical and spiritual.
