Homemade Face Mask and Hand Sanitizer

Do you want to know how to make your own face mask and hand sanitizer at home?Do you want to know the tools, materials, ingredients, and the methods of making effective hand sanitizer and face mask? Then this book is for you! If you have difficulty finding out how to make your own face mask and hand sanitizer at home, and how to maintain yourself hygienic, how to motivate your wellbeing by utilizing sanitizers and face mask, and the advantages of using a homemade face mask and sanitizer in your everyday lives, then this book can teach you how to resolve these hurdles. This book will help you think about the sanitizers and face mask in greater detail. Let us first know what hand sanitizer is. Hand sanitizer is a fluid or gel usually used to kill infectious substances on the hands or could also be a liquid used to kill the number of germs or infections on our hands. There are thousands of diverse forms of hand sanitizer. We have the gels and foams, alcohol-based, all-natural, that smell pleasant like pumpkin spice. And however, the type of sanitizer does not matter - or rather, our concern should be on the active ingredients and its concentrations on our hands after rubbing it. On the other hand, Medical Masks are considered as a type of special individual defensive gear that can be employed in order to stop various respiratory contaminations from spreading. The use of these clinical masks is such

that they cover the nose and mouth of the person using it. If they are properly worn, these masks are known to hinder the quick transmission of the bacteria and viruses linked with respiratory infections. This book covers: Medical Mask Airborne Disease How to Make Different Types of Masks? Analysis and Comparison Between Different Homemade Materials Advantages and Disadvantages of Medical Masks Types Advantages and Disadvantages of Hand Sanitizer Hand Sanitizer Types Homemade Hand Sanitizer Recipes Types of Medical Face Mask Homemade Mask Tips for Effective Use of Face Masks Examples of Face Masks You Can Make at Home Hand Sanitizer How Safe Is Hand Sanitizer? And much more! In order to prevent the transmission and spreading of various infections in the respiratory system of the human bodies, medical masks are an effective tool that can be utilized. These possible microbes live for a short time in our hands, but if we just take them to the mouth, nose, or eyes, we run the risk of catching an infection. With the homemade sanitizer, the risk is significantly reduced. Using soap and water is the best method of cleaning your hands, but they are not easily available in every place. You need to carry a hand sanitizer to protect your health. In order to prevent the transmission and spreading of various infections in the respiratory system of the human bodies, medical masks are an effective tool that can be utilized. So, don't wait, scroll up, click on "Buy Now" and find out more interesting information on how to protect yourself and your family!

DIY Homemade Face Mask Hand Sanitizer and Disinfectant Wipes Guide

Are you finding it difficult getting a hand sanitizer and face mask from the pharmacy, online stores, or supermarkets? Do you need a step by step guide to make your own hand sanitizer and face mask in 10 minutes or less from the comfort of your home? If so, then read on Most pharmacies, online stores, and supermarkets have run out of supplies for commercial hand sanitizers and medical face masks. Although efforts are being made to restock these essential commodities, which could take a while, there is no guarantee, however, that you would be opportune to get hold of these commodities simply because there is an increase in its demand whereas the supply is mostly unable to cater for the demand of the broader population. It is for this reason that homemade hand sanitizers and homemade face masks have gained wider attention from consumers as the preferred alternative as against commercial hand sanitizers and medical face masks. This book is written to help you navigate the murky waters of making your own hand sanitizer and face mask even if you have no clue where to start from. This book is made up of two parts: The 5-Minutes DIY Homemade Hand Sanitizer A Step by Step Guide on How to Use Natural Essential Oils to Make Your Own Hand Sanitizer Gel and Spray Recipes The 10-Minutes DIY Homemade Face Mask: A Step By Step Beginners Guide to Make Your Own Protective, Washable, and Reusable Cloth Face Mask With Illustrations Included In Part I of this book: The 5-Minutes DIY Homemade Hand Sanitizer, you will; Be enlightened on why alcohol-based hand sanitizers should be used over alcohol-free hand sanitizers. Know the type of germs alcohol-based hand sanitizers can destroy and what type it cannot destroy. Understand the real benefits of making your own hand sanitizer. Know why you must not use certain ingredients recommended over the internet to make your own hand sanitizer. Uncover all you need to get started in making your own hand sanitizer, thereby subtracting the noise and inconsistencies all over the internet. Know how to prepare several homemade hand sanitizer recipes in 5 minutes, using the right alcohol proportion and different essential oil ingredients that are both safe for your kids, families, and friends and effective against most bacteria and viruses. In Part II of this book: The 10-Minutes DIY Homemade Face Mask, you will; Be enlightened on the different types of face masks used for protection, the efficacy of each type of masks, as well as when and who should use them. Know how face masks work in protecting you from toxic air particles or droplets of respiratory infections. Understand the real benefits of making your own face mask from home. Know the best fabrics to use if you want to make a reusable homemade face mask. Know why you should not use some of the commonly recommended fabrics for your face mask. Uncover all you need to get started in making your own face mask with the sewing and no-sewing methods, such as the material lists, measurement and cut list for adults and kids, as well as the step by step instructions to follow. and much more To get started, get a copy of this book right away.

Homemade Face Mask and Hand Sanitizer

In the situation of a viral outbreak, everyone depends on medical practitioners to provide a cure or solution. However, we all want to get rid of the virus so bad that we

don't think about the safety of our medical practitioners. If all medical practitioners are infected by the virus, who will help the masses? No one! This position is where face masks and hand sanitizer come in. So, this book will give you every information you need to know about Face mask and hand sanitizer and 15 different ways to make your own anti-viral face mask and hand sanitizer by yourself in less minutes. Homemade Medical Face Mask and Hand Sanitizer

Protect Yourself And Do It Yourself: The Most Straightforward Bundle For Making Your Sanitizer Homemade Kit And Medical Face Mask Need to protect yourself? In search of an antibacterial hand sanitizer or a surgical face mask? Can't find to buy it anywhere? Stop looking! You can make both of them with the help of these guides! And so much more Here are the most thorough, step-by-step illustrated guides for making your own homemade anti-virus hand sanitizer, disinfectant wipes & spray, and N95 reusable mask for virus protection. A lot of great recipes and easy steps (with pictures) awaits you. Why should you use hand sanitizer gel? Because is a convenient way to get rid of germs (viruses and bacteria) from your hands. It is accessible, can be less irritating than most soaps, and some can even improve skin condition. When used properly, they can eliminate 99.9% of the germs on your hands. The same goes for face mask N95; if you have access to them, you should wear them. FDA recommends wearing a mask for protection against some airborne diseases. Face masks can be made in different thicknesses and with different abilities to protect you from contact with liquids and aerosolized particles. Keeping your hands clean and your face protected are just pieces of a larger puzzle. What's the use of sanitizing your hands a few times a day if they get contaminated EVERY TIME you touch doorknobs and light switches? And do you really take a bottle of sanitizer with you whenever you go shopping for groceries? It's true that disinfectant spray for surfaces and sanitizing wipes for killing germs on the go are either out of stock or overpriced. But without these products, you're leaving a massive weakness in your defenses. You're letting germs sneak right into your house and attack you when you're not suspecting anything. It's like building a fortress with a huge hole in the wall and hoping that the enemy doesn't get in. So what about making YOUR SANITIZER HOME KIT & YOUR MASK FOR GERM PROTECTION? This book will

show you the EXACT steps you need to take to make it!
