The Jefferson Bible, or The Life and Morals of Jesus of Nazareth as it is formally titled, was a book constructed by Thomas Jefferson in the latter years of his life by cutting and pasting numerous sections from various Bibles as extractions of the doctrine of Jesus. Jefferson's composition excluded sections of the New Testament containing supernatural aspects as well as perceived misinterpretations he believed had been added by the Four Evangelists. In 1895, the Smithsonian Institution under the leadership of librarian Cyrus Adler purchased the original Jefferson Bible from Jefferson's great-granddaughter Carolina Randolph for \$400. A conservation effort commencing in 2009, in partnership with the museum's Political History department, allowed for a public unveiling in an exhibit open from November 11, 2011, through May 28, 2012, at the National Museum of American History.

Untamed Yourself is about bringing women home to themselves in a grounded, practical and inspirational way centered around the belief that, "Everything you've ever needed has always been inside of you." It's about getting out of your head and into your body, creating better boundaries and using discernment. I write about not only relating to yourself in a more loving, peaceful and powerful way, but learning to communicate with others from a place of compassion with an open heart for more positive outcomes, greater intimacy, and deeper connection. Finally, the book also teaches you how to balance, integrate and harness the often unknown or misunderstood gifts in both your masculine and feminine energies. After being a personal trainer for years and teaching women how to work out, I realized the importance in my own life and that of clients of working in. That inspired me to create Wild Soul Movement in 2013. From there through my blog, a Facebook group with 3500+ members, YouTube

videos, free online challenges, paid programs, courses, coaching, and a podcast, I became intimately familiar with the struggles of 21st century women. Some of those struggles include: - lack of trust, a need to control everything, and exerting an exhausting amount of force, effort and energy to make things happen all the time. - body images issues ranging from never feeling comfortable in your skin to intense eating disorders and chronic self-loathing. - terrible boundaries, incessant people pleasing, putting yourself last and the stress, resentment, low energy and even illness that comes with it. - highly unsatisfactory relationships in all categories, romantic, family, professional, and friendships. - shame, low-self-esteem and harboring secrets, or emotions you don't feel safe to share with anyone-for fear of being judged, abandoned or labeled as "crazy," "bitchy," "high maintenance" or "needy." We live in an odd time. Western women, especially, have every right and capability of western men and that's confusing. We've been cultured and conditioned to behave, basically, like lovelier versions of men-which often leaves us burned out, resentful, stressed to the max, and sometimes, in identity crises, totally disconnected from our bodies, our souls, and the truth of of who we really are. Untame Yourself is the guidebook I wish I'd had several years ago when I began the process of awakening to who I really am and developing a personal relationship with my own femininity. I've filled its pages with practices, tools, advice and stories to help you have an easier, more graceful experience than I did. I also aim to save you the time of figuring much of it out as you go as I did, too.

If you're reading this, you may be a highly sensitive empath, who is able to pick up - and even absorb - other peoples' energies. However, many empathic people are 'overwhelmed empaths' (meaning that their high empathy has gone into a state of overdrive.) Here are some signs you are an overwhelmed empath: You feel other peoples' emotions vividly and profoundly, and have trouble shaking off the energies afterwards, even after the other person has moved on You often have a hard time working out whether you're feeling your own energies and emotions, or someone else's You have become a hermit and withdrawn socially in order to avoid other people's energies You cannot visit crowded places such as shopping centres, stadiums, train stations, or nightclubs because the energies are so overwhelming You feel physical aches and pains, or manifest physical signs of nervousness or sickness, around certain people When it comes to movies, TV and books, you do not like watching or reading anything that features sad or difficult experiences for the characters You often find yourself playing the role of counsellor and caretaker in your relationships and friendships, but you find it a draining role to take on You often wish that other people would follow your advice and get their lives back on track Your relationships are a source of obligation and stress, either because you self-sacrifice, have a hard time saying 'no' to people, or take it upon yourself to help others with their problems You feel like your empath gifts are a curse,

and you wish you could be less sensitive. If you resonated with the above statements, the usual advice for empaths that you will find in many books and online articles (such as boundaries, lifestyle adjustments, and shielding visualisations) are NOT effective for you as an overwhelmed empath. They avoid the root causes of the problem - a bit like putting a sticking plaster on an infected wound. Anna is a professional intuitive with a decade of experience working with empathic clients. And in this book, she gives NEW insights to explain the following: The reasons you became an empath in the first place (hint: it usually happens in childhood) and how this is the key to bringing your empath gifts back into balance - and staying there Why our amazing empath gifts are a key part of our soul's purpose - and how we can integrate them into our lives in a healthy way What is the 'emotional projection' trap and how it affects you as an empath The fascinating link between overwhelming empathy and your past lives Effective & fast techniques for cleansing your auric field of 5 different types of energy debris that most empaths pick up on a regular basis. Powerful methods for healers, intuitives, counsellors and bodyworkers to keep their aura and work spaces clear of client energies A quiz to find out which empath gifts you have (out of 8 different types) Overwhelmed empaths: this book will show you how to come back into balance with your amazing empath gifts and integrate them into your life, so that you can be more centered, happy and healthy. AND if you wish, share them with a world where they are sorely needed!

Rise Sister Rise is for the women who agreed at soul level to be here at this stage in history to lead this global shift that the mystics of all of the ages have predicted: the return of the mother and the rise of the feminine. It is essentially a call to arms for women to rise up, tell their truth, and lead. Most women have spent much of their working lives "making it" in a man ' s world, leaning on patriarchal methods of survival in order to succeed, dulling down their intuition, and ignoring the fierce power of their feminine. They have ignored the cycles of the feminine in order to survive in a patriarchal linear system – but now the world has changed. Rise Sister Rise is a transmission that calls the innate feminine wisdom to rise. It is about healing the insecurities, the fears, and the inherited patterns that stop women trusting the Shakti (power) and wisdom (intuition) that effortlessly flows through them. It's about recognizing all of

the ways we have been keeping ourselves contained and restrained in effort to fit into a certain archetype of woman. It ' s about co-creating a whole new archetype of woman — a woman who does not keep herself small in order to make others feel more comfortable. A woman who knows like she knows like she knows that she is not her body weight, her sexual partners, or her career. A woman who deeply respects the wise woman in her life and cultivates her own wisdom every single day. Full of tools, calls to action, contemplative questions, rituals, and confrontational exercises, this book teaches women that it is safe to let Shakti rise, safe to trust their intuition, and safe to take leaps of faith — because in healing ourselves we are healing the world.

Presents the unifying world-concept long sought by scientists, mystics, and sages: an Integral Theory of Everything • Explains how modern science has rediscovered the Akashic Field of perennial philosophy

- New edition updates ongoing scientific studies, presents new research inspired by the first edition, and includes new case studies and a section on animal telepathy

Mystics and sages have long maintained that there exists an interconnecting cosmic field at the roots of reality that conserves and conveys information, a field known as the Akashic record. Recent discoveries in vacuum physics show that this Akashic Field is real and has its equivalent in science’s zero-point field that underlies space itself. This field consists of a subtle sea of fluctuating energies from which all things arise: atoms and galaxies, stars and planets, living beings, and even consciousness. This zero-point Akashic Field is the constant and

enduring memory of the universe. It holds the record of all that has happened on Earth and in the cosmos and relates it to all that is yet to happen. In *Science and the Akashic Field*, philosopher and scientist Ervin Laszlo conveys the essential element of this information field in language that is accessible and clear. From the world of science he confirms our deepest intuitions of the oneness of creation in the Integral Theory of Everything. We discover that, as philosopher William James stated, “ We are like islands in the sea, separate on the surface but connected in the deep. ”

Everybody has a dream—their predestined life ' s purpose. You do not choose a life purpose because your parents want you to be a pilot, your boss wants you to be a counselor, your friends want you to be in their group. You do not seek your life ' s purpose because the society you find yourself in wants you to be something that society dictates. Living through other people ' s life ' s purpose is one sure way to kill your life ' s purpose. You cannot be living another person ' s destiny and expect to live a fulfilled life. There is no quandary here. You just must see the urgency of the need to find your life ' s calling. If you don't, you will end up comfortably living in discomfort and envying others as you find yourself full of jealousy for what you perceive as other people ' s “ bigger achievements. ” You are outside looking in. Feeling a want for what others have achieved and hating what you have achieved is a sign that you love another person ' s life better than yours. You think you could have done better. Ask self, what is it that you hate about your life, and find solutions to the questions. Do not let another person ' s standards be the answer to how you evaluate your life. You must find your calling. It is in the Akashic Record. Let a professional read your Akasha to find your calling.
