Chuck Klosterman IV

After-dinner speaker Barrie Lawrence has been making people laugh - really laugh - for years. Now it's your turn to hear his unbelievably funny, sometimes poignant stories from dental school, surgery and life. How did a pet frog lead to a successful career of seven dental surgeries and a bookshop? And of course, he was a student during those years known as the 'Swinging Sixties!' But something else happened at the London Hospital - something that was even more important than training as a dentist! You'll laugh, you'll cry, and most important of all, you will be inspired.

You don’t leap out of bed knowing you are amazing and about to have an incredible day. All of us have a lot of demands, pressures, to-dos and responsibilities. We find ourselves rushing around, working hard to please others. Often we find ourselves at the back of our own bus, having made everyone else happy but our own damn self. Then you go and beat yourself up about it. Let’s stop that, shall we? In *Badass Affirmations*, positive living and affirmation queen Becca Anderson reminds you that you are pretty darn great. She will help you heal scars from bad childhoods and relationships and stop the self-defeating scripts that loop through your unconscious brain. Even nice moms and dads perpetrate parenting errors that leave marks on our souls. But, we can overcome with the right mix of badass affirmations. Every day and in every way, you can learn the art of self-affirmation. Read *Badass Affirmations* and: Learn the habit of affirming yourself daily Experience a life filled with love, joy, fulfillment and satisfaction Take control of your destiny Strengthen your self-esteem “This book is something you can use as a sort of coffee table book or something you can carry with you every day and no matter how you use it, there can be benefits for you and your daily life.” —Nerdy Girl Express

What If?

A fascinating multi-disciplinary analysis of why curiosity makes the world go round. 'A lovely, erudite exploration of what it is that makes us human' – Independent on Sunday 'I have no special talents. I am only passionately curious' Albert Einstein. Everyone is born curious. But only some retain the habits of exploring, learning and discovering as they grow older. Which side of the 'curiosity divide' are you on? In *Curious* Ian Leslie makes a passionate case for the cultivation of our desire to know. Curious people tend to be smarter, more creative and more successful. But at the very moment when the rewards of curiosity have never been higher, it is misunderstood and undervalued, and increasingly practised only by a cognitive elite. Drawing on fascinating research from psychology, sociology and business, *Curious*

looks at what feeds curiosity and what starves it, and uncovers surprising answers. Curiosity isn't a quality you can rely on to last a lifetime, but a mental muscle that atrophies without regular exercise. It's not a gift, but a habit that parents, schools, workplaces and individuals need to nurture if it is to thrive. Filled with inspiring stories, case studies and practical advice, Curious will change the way you think about your own mental life, and that of those around you.

The Curious Case of Benjamin Button (Story That Inspired The Movie Starring Brad Pitt)

Discover this wise, blackly funny, radically imaginative novel that has sold over 10 million copies worldwide 'A superb achievement. He is a wise and bleakly funny writer with rare gifts of empathy' Ian McEwan, Sunday Times bestselling author of *Atonement* It was 7 minutes after midnight. The dog was lying on the grass in the middle of the lawn in front of Mrs Shears' house. Its eyes were closed. It looked as if it was running on its side, the way dogs run when they think they are chasing a cat in a dream. But the dog was not running or asleep. The dog was dead. This is Christopher's story. There are also no lies in this story because Christopher can't tell lies. Christopher does not like strangers or the colours yellow or brown or being touched. On the other hand, he knows all the countries in the world and their capital cities and every prime number up to 7507. When Christopher decides to find out who killed the neighbour's dog, his mystery story becomes more complicated than he could have ever predicted. ****ONE OF THE GUARDIAN'S 100 BEST BOOKS OF THE 21st CENTURY****

The year is 1915 and Pin, the fifteen year-old daughter of an amusement park fortune teller, disguises herself as a boy to run with the teenage boys who thrive in the dregs of Chicago's street scene. Unbeknownst to the well-heeled city-dwellers and visitors who come to enjoy its attractions, Riverview Park is also host to a brutal serial killer, a perfumed pedophile who uses the secrecy of a dark amusement park ride to conduct his crimes. When Pin sees a man enter the Hell Gate ride with a young girl, and leave without her, she knows that something deadly is afoot. The crime will lead her to the iconic outsider artist Henry Darger, a brilliant but seemingly mad man obsessed with his illustrated novel about a group of young girls who triumph over adult oppressors. Together, the two navigate the seedy underbelly of a changing city to uncover a murderer few even know to look for.

Story-Based Inquiry: A Manual for Investigative Journalists

A Wrinkle in Time is the winner of the 1963 Newbery Medal. It was a dark and stormy night—Meg Murry, her small brother Charles Wallace, and her mother had come down to the kitchen for a midnight snack when they were upset by the arrival of a most disturbing stranger. "Wild nights are my glory," the unearthly stranger told them. "I just got caught in a downdraft and blown off course. Let me sit down for a moment, and then I'll be on my way. Speaking of ways, by the way, there is such a thing as a tesseract."

A tesseract (in case the reader doesn't know) is a wrinkle in time. To tell more would rob the reader of the enjoyment of Miss L'Engle's unusual book. *A Wrinkle in Time*, winner of the Newbery Medal in 1963, is the story of the adventures in space and time of Meg, Charles Wallace, and Calvin O'Keefe (athlete, student, and one of the most popular boys in high school). They are in search of Meg's father, a scientist who disappeared while engaged in secret work for the government on the tesseract problem.

A Curious Mind

"We Are the Luckiest is a masterpiece. It's the truest, most generous, honest, and helpful sobriety memoir I've read. It's going to save lives." – Glennon Doyle, #1 New York Times bestselling author of *Love Warrior: A Memoir* What could possibly be "lucky" about addiction? Absolutely nothing, thought Laura McKowen when drinking brought her to her knees. As she puts it, she "kicked and screamed . . . wishing for something – anything – else" to be her issue. The people who got to drink normally, she thought, were so damn lucky. But in the midst of early sobriety, when no longer able to anesthetize her pain and anxiety, she realized that she was actually the lucky one. Lucky to feel her feelings, live honestly, really be with her daughter, change her legacy. She recognized that "those of us who answer the invitation to wake up, whatever our invitation, are really the luckiest of all." Here, in straight-talking chapters filled with personal stories, McKowen addresses issues such as facing facts, the question of AA, and other people's drinking. Without sugarcoating the struggles of sobriety, she relentlessly emphasizes the many blessings of an honest life, one without secrets and debilitating shame.

"What Do You Care What Other People Think?": Further Adventures of a Curious Character

WARNING: This is not the actual book *Looking for Alaska* by John Green. Do not buy this reading Sidekick if you are looking for a full copy of this great book. Use this expert sidekick to dissect these themes

in Looking for Alaska, while enjoying a detailed analysis of each chapter of the book. If that wasn't enough, we close with potential questions and responses to help you get the conversation started with co-workers, friends, or fellow book club members. This newly discovered gem from the past (2005) has become a must-read, thanks in no small part to the success of Green's 2012 masterpiece: *The Fault in Our Stars*. As many Green fans have already discovered, our sidekick is the ultimate go-to source for understanding the complexities of John Green's tales of teen angst and tragedy. *Looking for Alaska* tells the story of Miles Halter, a 16-year-old with a nondescript life who is seeking a "Great Perhaps." In his quest, he finds himself at the Culver Creek Boarding School, where his past life of boredom and safety takes a back seat to adventure and sexual experimentation. His trek to the other side of the tracks takes him only a few steps, as he meets Alaska Young just down the hall at school. She is sexy, funny, and everything else that makes teenage boys drool. She is also a self-destructive sort, headed toward the "After" portion of *Looking for Alaska*, where everything comes crashing down. As our sidekick details, the themes of life and death weave their way through the novel, drawing the characters closer together while preparing them for something that will rip them apart.

The History and Adventures of the Renowned Don Quixote, 3

A disarming novel that asks a simple question: Can gentle people change the world? In this charming and truly unique debut, popular Irish musician Ronan Hession tells the story of two single, thirty-something men who still live with their parents and who are . . . nice. They take care of their parents and play board games together. They like to read. They take satisfaction from their work. They are resolutely kind. And they realize that none of this is considered . . . normal. Leonard and Hungry Paul is the story of two friends struggling to protect their understanding of what's meaningful in life. It is about the uncelebrated people of this world – the gentle, the meek, the humble. And as they struggle to persevere, the book asks a surprisingly enthralling question: Is it really them against the world, or are they on to something?

The Curious Incident of the Dog in the Night-time

"Experiments demonstrate that people are more distracted when they overhear a phone conversation--where they can know only one side of the dialogue--than when they overhear two people talking and know both sides. Why does half a conversation make us more curious than a whole conversation? Livio interviewed scientists in several fields to explore the nature of curiosity, [examining] the lives of two of history's most curious geniuses, Leonardo da Vinci and Richard Feynman, [and talking] to people with boundless curiosity"--Amazon.com.

The Book of Strange and Curious Legal Oddities

"Comic and Exuberant . . . A fine and tender tale for anyone who has tried to let go of the past and envision the future while falling in love." -Rhonda Riley, author of *The Enchanted Life of Adam Hope* What if you could know your romantic future? What if an envisionist could enter the name of your prospective mate into a computer that would show you a film of your future life together? In *The Future for Curious People*, a young librarian named Evelyn becomes obsessed with this new technology: she can't stop visiting Dr. Chin's office because she needs to know that she'll meet someone and be happy one day. Godfrey, another client, ends up at the envisionist's office only because his fiancée insisted they know their fate before taking the plunge. But when Godfrey meets Evelyn in the waiting room, true love may be right in front of them, but they are too preoccupied--and too burdened by their pasts--to recognize it. This smart, fresh love story, with its quirky twists and turns, ponders life's big questions--about happiness, fate, and our very existence--as it follows Evelyn and Godfrey's quest for the elusive answers. "A love story about love stories . . . The pages burst with laugh-out-loud scenes and crisply original set-ups. I loved it!" -Lydia Netzer, author of *Shine Shine Shine* "Somewhere between Jorge Luis Borge's 'The Garden of Forking Paths' and *The Eternal Sunshine of the Spotless Mind* you will find

Sober Curious

The New York Times best-selling sequel to "Surely You're Joking, Mr. Feynman!" One of the greatest physicists of the twentieth century, Richard Feynman possessed an unquenchable thirst for adventure and an unparalleled ability to tell the stories of his life. "What Do You Care What Other People Think?" is Feynman's last literary legacy, prepared with his friend and fellow drummer, Ralph Leighton. Among its many tales—some funny, others intensely moving—we meet Feynman's first wife, Arlene, who taught him of love's irreducible mystery as she lay dying in a hospital bed while he worked nearby on the atomic bomb at Los Alamos. We are also given a fascinating narrative of the investigation of the space shuttle Challenger's explosion in 1986, and we relive the moment when Feynman revealed the disaster's cause by an elegant experiment: dropping a ring of rubber into a glass of cold water and pulling it out, misshapen.

Curious George (Read-aloud)

This story was inspired by a remark of Mark Twain's to the effect that it was a pity that the best part of life came at the beginning and the worst part at the end. By trying the experiment upon only one man in a perfectly normal world I have scarcely given his idea a fair trial. Several weeks after completing it, I discovered an almost identical plot in Samuel Butler's "Note-books." The story was published in "Collier's" last summer and provoked this startling letter from an anonymous admirer in Cincinnati: "Sir-- I have read the story Benjamin Button in Colliers and I wish to say that as a short story writer you would make a good lunatic I have seen many peices of cheese in my life but of all the peices of cheese I have ever seen you are the biggest peice. I hate to waste a peice of stationary on you but I will."

Badass Affirmations

From the duo behind the massively successful and award-winning podcast Stuff You Should Know comes an unexpected look at things you thought you knew. Josh Clark and Chuck Bryant started the podcast Stuff You Should Know back in 2008 because they were curious—curious about the world around them, curious about what they might have missed in their formal educations, and curious to dig deeper on stuff they thought they understood. As it turns out, they aren't the only curious ones. They've since amassed a rabid fan base, making Stuff You Should Know one of the most popular podcasts in the world. Armed with their inquisitive natures and a passion for sharing, they uncover the weird, fascinating, delightful, or unexpected elements of a wide variety of topics. The pair have now taken their near-boundless "whys" and "hows" from your earbuds to the pages of a book for the first time—featuring a completely new array of subjects that they've long wondered about and wanted to explore. Each chapter is further embellished with snappy visual material to allow for rabbit-hole tangents and digressions—including charts, illustrations, sidebars, and footnotes. Follow along as the two dig into the underlying stories of everything from the origin of Murphy beds, to the history of facial hair, to the psychology of being lost. Have you ever wondered about the world around you, and wished to see the magic in everyday things? Come get curious with Stuff You Should Know. With Josh and Chuck as your guide, there's something interesting about everything (except maybe jackhammers).

Looking for Alaska

When a young girl ventures through a hidden door, she finds another life with shocking similarities to her own. Coraline has moved to a new house with her parents and she is fascinated by the fact that their 'house' is in fact only half a house! Divided into flats years before, there is a brick wall behind a door where once there was a corridor. One day it is a corridor again and the intrepid Coraline wanders down it. And so a nightmare-ish mystery begins that takes Coraline into the arms of counterfeit parents and a life that isn't quite right. Can Coraline get out? Can she find her real parents? Will life ever be the same again?

Stuff You Should Know

Berets, Baguettes, and Beyond

Based on the popular research project Whores of Yore and written with her distinctive humour and wit, A Curious History of Sex draws upon Dr. Kate Lister's extensive knowledge of sex history. From medieval impotence tests to twentieth-century testicle thefts, from the erotic frescoes of Pompeii, to modern-day sex doll brothels, Lister unashamedly roots around in the pants of history, debunking myths, challenging stereotypes, and generally getting her hands dirty. This fascinating book is peppered with surprising and informative historical slang, and illustrated with eye-opening, toe-curling, and meticulously sourced images from the past. You will laugh, you will wince, and you will wonder just how much has actually changed.

Big Ideas for Curious Minds

'Out of curiosity comes everything' - Steve Jobs From Apple to Tata Tea, many leading brands have their roots in curiosity. The desire to know more often leads to new ideas and new perspectives; for a marketer, curiosity shapes the way one looks at products and their branding in innovative ways. In his new book, Harish Bhat brings his expertise on branding, communication and consumer insights to bear on a rapidly developing consumer-facing arena, exploring more than fifty products, places, people, books and publicity campaigns that excite him as a marketer. From brand marketing using aliens and flying saucers to going big with a delicious local product (banana chips or coconut water), from the interesting concept behind multicoloured socks to the metamorphosis of the Diwali shopper, Bhat touches on fascinating areas that marketers are targeting today. Immensely topical, this is a pleasurable read that will be of great interest to general readers, as well as students and professionals who work in the exciting area of marketing.
