Readings in Biblical Hebrew

In its examination of parenthesis in Biblical Hebrew, this book presents a linguistic description of Biblical Hebrew parenthetical units through integration of several research disciplines and scholarly approaches: linguistics, discourse studies, text linguistics, textual philology, comparative Semitics, Bible translations, and literature.

Parenthesis in Biblical Hebrew

In *Biblical Hebrew Grammar Visualized*, Andersen and Forbes approach the grammar of Biblical Hebrew from the perspective of corpus linguistics. Their pictorial representations of the clauses making up the biblical texts show the grammatical functions (subject, object, and so on) and semantic roles (surrogate, time interval, and so on) of clausal constituents, as well as the grammatical relations that bind the constituents into coherent structures. --from publisher description.

Learning to Read Biblical Hebrew

Internationally recognized Hebrew linguist Robert Holmstedt offers students a cutting-edge analysis of Biblical Hebrew syntax. Holmstedt has spent two decades researching the linguistic structure of Biblical Hebrew and is actively engaged in scholarly discussions about Hebrew language and instruction. This addition to the *Learn Biblical Hebrew* series addresses all major issues of Biblical Hebrew syntax and is

informed by the latest insights. It is suitable as a supplement to any Hebrew course.

Beginning Biblical Hebrew

After spending countless hours studying Hebrew vocabulary, paradigms, and grammar, students may wonder how they can begin to reap the rewards of their hard work. H. H. Hardy II presents 30 grammatical concepts and their exegetical payoff to demonstrate the importance of learning Hebrew for interpreting the Old Testament. In the process, students will realize the practical value of what they have learned. This book is perfect for students looking to apply their Hebrew and for past students who wish to review the essentials of Hebrew grammar.

Davidson's Introductory Hebrew Grammar

This volume introduces the Old Testament and traces the legacy of monotheism first found in the pages of Israel's Scriptures.

Invitation to Biblical Hebrew

This new and fully revised edition of the A Biblical Hebrew Reference Grammar serves as a user-friendly and up-to-date source of information on the morphology, syntax, semantics and pragmatics of Biblical Hebrew verbs, nouns and other word classes (prepositions, conjunctions, adverbs, modal words, negatives, focus particles, discourse markers, interrogatives and interjections). It also contains one of the most elaborate treatments of Biblical Hebrew word order yet published in a grammar. Compiled by authors with extensive experience in the teaching of Hebrew, the text is rendered both easily accessible and a fascinating examination of the language, building upon the initial publication by incorporating up-to-date developments in the study of the Hebrew Bible. This grammar will be of service both to students who have completed an introductory or intermediate course in Biblical Hebrew, and also to more advanced scholars seeking to take advantage of traditional and recent descriptions of the language that go beyond the basic morphology of Biblical Hebrew.

Basics of Hebrew Discourse

This full-color, intermediate textbook by two leading experts in Biblical Hebrew continues the innovative pedagogy found in their Beginning Biblical Hebrew. The book features integrated examples and lessons, pedagogical advancements that enhance student outcomes, and full-color illustrated readings from the Elijah narrative. The material has been field tested by the authors, who not only teach Hebrew but are actively engaged in scholarly discussions about Hebrew language and instruction. Additional resources for professors and students are available through Textbook eSources. Beginning Biblical Hebrew and Intermediate Biblical Hebrew are also available together as a two-volume set.

Linguistics and Biblical Hebrew

The essays in this volume arose out of the Society of Biblical Literature section on linguistics and Biblical Hebrew and have been selected to provide a summary and statement of the state of the question with regard to a number of areas of investigation. The sixteen articles are organized into sections on phonology, morphology, syntax, semantics, discourse analysis, historical/comparative linguistics, and graphemics.

Biblical Hebrew Grammar Visualized

Lambdin's Introduction to Biblical Hebrew has established itself as a standard textbook in colleges and universities as well as being frequently used by those who wish to teach themselves Biblical Hebrew. The lack of a key to the many exercises in the book has been widely regretted, but this lack is made good with the present publication. Having used Lambdin as a teaching aid for more than ten years, however, Williamson has become aware of some areas in which students still find difficulty. He has therefore supplemented his Key with many further comments and explanations drawn from his teaching experience with the aim of helping readers to a better understanding of both grammar and syntax.

Williams Hebrew Syntax (3rd Edition)

Students can flourish in their study of biblical Hebrew if they are trained from the outset to read and explain biblical texts effectively. In this introductory textbook, Professor William Fullilove teaches language basics alongside exegetical skills typically reserved for more advanced courses. His unique methodology allows students to gain rapid insight into the value of their Hebrew study. Includes grammar, reading, and exegetical exercises.

Beginning Biblical Hebrew

Inspires and instructs students and pastors to use the Hebrew Bible appropriately in their preaching and teaching. Includes sample sermons and lessons.

The Routledge Introductory Course in Biblical Hebrew

NEW 2018 EDITION! This introductory textbook covers the basics of Hebrew grammar, then it leads the student through readings from the Old Testament. The readings review, apply, and supplement earlier material, and insure that the student can enjoy the Hebrew Bible once the course is finished. Written with the learning needs of the student in mind, grammatical rules are kept to a minimum, with more comprehensive lists in the appendices. Features not found in other beginning Hebrew grammars include: 1. A section on verbless clauses; 2. Complete declensions of the prepositions with pronominal suffixes; 3. English translations of verb conjugations; 4. Successive verb conjugations are

compared in parallel columns; 5. Description of verb syntax that utilizes recent advances; 6. Appendices describing the Verb Stems, Syntax, Parsing, etc. Also available are a Workbook (ISBN 978-1-935931-76-8) and an Answer Key (ISBN 978-1-935931-75-1).

Biblical Hebrew Syntax (Learning Biblical Hebrew)

This work is intended to serve as a user-friendly and up-to-date source of information on the morphology, syntax, semantics and pragmatics of Biblical Hebrew verbs, nouns and other word classes (prepositions, conjunctions, adverbs, modal words, negatives, focus particles, discourse markers, interrogatives and interjections). It also contains one of the most elaborate treatments of Biblical Hebrew word order yet published in a grammar. This reference grammar will be of service to students who have completed an introductory or intermediate course in Biblical Hebrew, and also to more advanced scholars seeking to take advantage of traditional and recent descriptions of the language that go beyond the basic morphology of Biblical Hebrew.

Biblical Hebrew

This innovative textbook by two leading experts in Biblical Hebrew combines the best of traditional grammars, new insights into Hebrew linguistics, and a creative pedagogical approach. The material has been field tested and refined for more than a decade by the authors, who are actively engaged in Biblical Hebrew discussions and research. The book includes fifty brief grammar lessons with accompanying workbook-style exercises, appendixes providing more detailed explanations, and a full-color reader--bound at the back of the book for right-to-left reading--that incorporates comics, line drawings, and numerous exercises, all in Hebrew. This work offers a realistic approach to beginning Hebrew, helping students comprehend texts without overloading them with too much information, and it can be adapted to either one-semester or full-year courses. An accompanying website through Baker Academic's Textbook eSources offers helpful resources for students and professors. Resources for students include flash cards and audio files. Resources for professors include sample quizzes, sample exams, sample lesson plans, vocabulary cards, and a full-color printed instructor's manual.

Intermediate Biblical Hebrew Grammar

Internationally recognized Hebrew linguist Robert Holmstedt offers students a cutting-edge analysis of Biblical Hebrew syntax. Holmstedt has spent two decades researching the linguistic structure of Biblical Hebrew and is actively engaged in scholarly discussions about Hebrew language and instruction. This addition to the Learn Biblical Hebrew series addresses all major issues of Biblical Hebrew syntax and is informed by the latest insights. It is suitable as a supplement to any Hebrew course.

A Basic Introduction to Biblical Hebrew, with CD

Free Reading Introduction To Biblical Hebrew Syntax

Meeting the need for a textbook for classroom use after first year Hebrew grammar, Waltke and O'Connor integrate the results of modern linguistic study of Hebrew and years of experience teaching the subject in this book. In addition to functioning as a teaching grammar, this work will also be widely used for reference and self-guided instruction in Hebrew beyond the first formal year. Extensive discussion and explanation of grammatical points help to sort out points blurred in introductory books. More than 3,500 Biblical Hebrew examples illustrate the points of grammar under discussion. Four indexes (Scripture, Authorities cited, Hebrew words, and Topics) provide ready access to the vast array of information found in the 40 chapters. Destined to become a classic work, this long-awaited book fills a major gap among modern publications on Biblical Hebrew.

Exegetical Gems from Biblical Hebrew

This introduces and abridges the syntactical features of the original language of the Hebrew Bible or Old Testament. Scholars have made significant progress in recent decades in understanding Biblical Hebrew syntax. Yet intermediate readers seldom have access to this progress due to the technical jargon and sometimes-obscure locations of the scholarly publications. This Guide is an intermediate-level reference grammar for Biblical Hebrew. As such, it assumes an understanding of elementary phonology and morphology, and defines and illustrates the fundamental syntactical features of Biblical Hebrew that most intermediate-level readers struggle to master. The volume divides Biblical Hebrew syntax, and to a lesser extent morphology, into four parts. The first three cover the individual words (nouns, verbs, and particles) with the goal of helping the reader move from morphological and syntactical observations to meaning and significance. The fourth section moves beyond phase-level phenomena and considers the larger relationships of clauses and sentences.

Introduction to Biblical Hebrew

This textbook will teach students who have completed an introductory course in Hebrew how to read and interpret biblical texts from the Old Testament/Hebrew Bible. It can be used in intermediate-level university or seminary classes or by students working alone. The book presents texts drawn from the complete range of biblical literature, exposing the student to all the major styles of Hebrew found in the Bible. It also provides extensive explanations of the chosen texts, focusing on structure, genre, literary devices, and accents. There are assignments for classroom use, and space is available for student responses. The book includes topics for further thought and suggestions for further reading on specific issues.

A Cumulative Index to the Grammar and Syntax of Biblical Hebrew

Biblical Hebrew: A Compact Guide, by Miles Van Pelt, is a handy, at-a-glance reference with summaries of Hebrew grammar, paradigms, a lexicon, and more. Great for consulting during translation and exegesis work.

Biblical Hebrew Reference Grammar

In *Ancient Hebrew Periodization and the Language of the Book of Jeremiah*, Aaron Hornkohl attempts to date this biblical work, both as a whole and according to the constituent layers of which it is apparently composed, on the basis of diachronic linguistic typology.

The Syntax of Volitives in Biblical Hebrew and Amarna Canaanite Prose

A tested approach to learning biblical Hebrew in an ideal package for the first-year Hebrew student. This clear, accurate, and pedagogically sound textbook emphasizes the basics: Hebrew phonology (sounds) and morphology (forms). This grammar does not use jargon or technical language, but uses terms easily understood and remembered so biblical Hebrew can be used with regularity and authority.

Learning Biblical Hebrew

The best of both deductive and inductive approaches introducing students to the basics of Biblical Hebrew.

From Exegesis to Exposition

During the past century, numerous books and articles have appeared on the verbal system of Semitic languages. Thanks to the discovery of Ugaritic texts, Akkadian tablets, Canaanite letters found at Tell el-Amarna in Egypt, Hebrew and Aramaic inscriptions, and the Dead Sea Scrolls, our understanding of the phonology, morphology, and syntax of the Semitic languages has increased substantially. Dallaire focuses primarily on prose texts in Biblical Hebrew and Amarna Canaanite in which the verbal system (morphemes, syntax) expresses nuances of wishes, desires, requests, and commands. According to her, volitional concepts are found in every language and are expressed through verbal morphemes, syntagmas, intonation, syntax, and other linguistic means. *The Syntax of Volitives in Biblical Hebrew and Amarna Canaanite Prose* attempts to answer the following questions: Do volitives function in a similar way in Biblical Hebrew and Amarna Canaanite? Where and why is there overlap in morphology and syntax between these two languages? What morphological and syntactical differences exist between the volitional expressions of the languages? In attempting to answer these questions, the author bears in mind the fact that, within each of these two languages, scribes from different areas used specific dialectal and scribal traditions (for example, northern versus southern, peripheral versus central).

Ancient Hebrew Periodization and the Language of the Book of Jeremiah

Written to facilitate study in Kelley's widely-used *Biblical Hebrew: An Introductory Grammar*, this handbook provides a complete answer key to the exercises in the grammar as well as practical helps, footnotes, word lists, test suggestions, and other supplementary material--all

written to free up valuable class time and to aid individuals studying Hebrew on their own.

A Biblical Hebrew Reference Grammar

Although the morphology and lexicon of Hebrew are reasonably well understood, its syntax has long been a neglected area of study. Syntax, the relationship of words to one another, forms, together with morphology, the material of grammar. Its relative importance varies according to the language considered. This is particularly true of word order, for when an inflected language loses its case endings, word order assumes many of the functions of the former cases. This outline by Professor Williams re-emphasizes the significance of word order in Hebrew. Developed over fifteen years in a formal course on Hebrew syntax at the University of Toronto, it treats the syntax of the noun, the verb, particles and clauses, with a selection of illustrative examples. Its contents are based on classical Hebrew prose, but some account is also taken of the deviations in later prose and poetry. In this new edition English translations have been provided for all Hebrew phrases and sentences, and the bibliography has been expanded.

Introducing Biblical Hebrew

Features of Basics of Biblical Hebrew Grammar, Second Edition text: * Combines the best of inductive and deductive approaches * Uses actual examples from the Hebrew Old Testament rather than 'made-up' illustrations * Emphasizes the structural pattern of the Hebrew language rather than rote memorization, resulting in a simple, enjoyable, and effective learning process * Colored text highlights particles added to nouns and verbs, allowing easy recognition of new forms * Chapters Two (Hebrew Vowels), Nine (Pronominal Suffixes), Seventeen (Waw Consecutive), Eighteen (Imperative, Cohortative, and Jussive), and Twenty-Three (Issues of Sentence Syntax) are revised and expanded * Section of appendices and study aids is clearly marked for fast reference * Larger font and text size make reading easier * Updated author website with additional Hebrew language resources and product information (www.basicsofbiblicalhebrew.com) Features of updated CD-ROM: * Full answer key to the accompanying workbook (compatible with Windows and Macintosh) * Scripture indexes to both the grammar and the workbook * FlashWorks™, a fun and effective vocabulary-drilling program from Teknia Language Tools * Links to additional resources accessible with internet connection

Annotated Key to Lambdin's Introduction to Biblical Hebrew

Intermediate Biblical Hebrew bridges the learner from the first year of Hebrew into thoughtful reading and deeper study of the biblical text.

Intermediate Biblical Hebrew

This volume can guide anyone to read the Old Testament in its original language by teaching the basics of Hebrew grammar, vocabulary, and

syntax. The step-by-step approach offers thorough illustrations by means of biblical examples, and all the basic elements of the Hebrew grammar are logically presented. This study communicates in a clear language and moves at a reasonable pace for students to learn through a deductive approach.

An Introduction to Biblical Hebrew Syntax

A complete revision and modernisation of this classic introduction to Hebrew.

A Guide to Biblical Hebrew Syntax

The Routledge Introductory Course in Biblical Hebrew provides a comprehensive introduction to Biblical Hebrew language and texts. Combining a fresh and innovative approach with an in-depth treatment of the language, it presents the essentials of biblical grammar and vocabulary in an engaging and systematic way. Unlike other Biblical Hebrew courses, it is structured around a series of vibrant and memorable stories, with each story reinforced by grammar explanations, supportive exercises, and a concluding genuine biblical text. This coherent focus encourages students to engage with the text actively and facilitate their mastery of the language to the full. Features include: Forty units covering all the topics expected in a first-year Biblical Hebrew course, including the Hebrew writing system, pointing rules, nouns and adjectives, parsing, mastery of strong and weak verb paradigms and full attention to syntax Clear and detailed grammar explanations supported by plentiful examples An extensive assortment of varied and stimulating exercises designed to reinforce new grammar and develop students' ability to use Biblical Hebrew actively Incorporation of a wide range of genuine biblical texts to familiarise students with the main biblical narrative cycles and to equip them with the ability to read authentic material from the earliest stages of learning A free companion website (www.routledge.com/cw/kahn) offering a wealth of additional instructor and student resources, including many extra exercises and biblical texts, flashcards to test knowledge, a vocabulary guide listing words by part of speech, a full answer key, translations of all the stories and biblical texts, a sample syllabus, coursework assignments covering the entire contents of the course and audio recordings of the stories and biblical texts Coherent chapter organisation to consolidate and reinforce learning consistently at each step of the course Grammar summary, two-way glossary and subject index presented at the back of the book for easy access A user-friendly text design with original illustrations and clear presentation of the Hebrew script Written by an experienced instructor and extensively trialled at UCL, The Routledge Introductory Course in Biblical Hebrew will be an essential resource for all students beginning to learn Biblical Hebrew.

Is Biblical Hebrew a Language?

Beginning with Genesis and moving verse by verse through the entire Hebrew Bible, Putnam indexes the citations found in each major reference grammar to provide a wonderful time-saving tool for exegetes. Works indexed: Bauer & Leander, *Historische Grammatik der hebräischen Sprache des Alten Testaments*; Beer, ed. by Meyer, *Hebräische Grammatik*; Bergsträsser, *Hebräische Grammatik*;

Brockelmann, Hebräische Syntax; Davidson, Hebrew Syntax; Gibson, Davidson's Introductory Hebrew Grammar: Syntax; Kautzsch, ed. Cowley, Gesenius' Hebrew Grammar; Jenni, Lehrbuch der hebräischen Sprache des Alten Testaments; Joüon, translated and edited by Muraoka, Grammar of Biblical Hebrew; Richter, Grundlagen einer althebräischen Grammatik; Rosenthal, Grammar of Biblical Aramaic; Schneider, Grammatik des biblischen Hebräisch: Lehrbuch; Waltke & O'Connor, Introduction to Biblical Hebrew Syntax; Williams, Hebrew Syntax: An Outline.

Intermediate Biblical Hebrew

The Basics of Hebrew Discourse: A Guide to Working with Hebrew Prose and Poetry by Miles V. Van Pelt, Matthew H. Patton, and Frederic Clarke Putnam is a syntax resource for intermediate Hebrew students that introduces them to the principles and exegetical benefits of discourse analysis when applied to biblical Hebrew prose and poetry.

Themes in Arabic and Hebrew Syntax

Achieving the right balance of amount of information, style of presentation, and depth of instruction in first-year grammars is no easy task. But Mark Futato has produced a grammar that, after years of testing in a number of institutions, will please many, with its concise, clear, and well-thought-out presentation of Biblical Hebrew. Because the teaching of biblical languages is in decline in many seminaries and universities, Futato takes pains to measure the amount of information presented in each chapter in a way that makes the quantity digestible, without sacrificing information that is important to retain. The book includes exercises that are drawn largely from the Hebrew Bible itself. Fourth printing, 2012.

INTRO TO HEBREW

A unique grammar for intermediate or advanced students of Hebrew This grammar is intended for students of Hebrew who wish to learn more about the history of the Hebrew language, specifically its phonology and morphology. Reymond focuses on aspects of Hebrew that will encourage a student to better remember the words and their inflection as well as those that will reinforce general principles of the language. Specific examples for memorization are outlined at the end of each chapter. The book also serves as a resource for students wishing to remind themselves of the relative frequency of certain phenomena. The book provides students with a full picture of the language's morphology. Features: Tables of nouns and adjectives illustrating the absolute and construct, singular and plural forms, as well as all the forms with suffixes Tables include forms not found in the Masoretic Text Additional tables that set similar verbal inflections side by side

Biblical Hebrew Syntax

Defines the syntactical features of the Hebrew Bible, providing examples from the Bible.

A Handbook to Biblical Hebrew

A Guide to Biblical Hebrew Syntax

What's the best way to learn a new language? By approaching it not as a series of facts to memorize but as something alive, with a personality you can get to know and tendencies you can sometimes predict. Designed for long-term retention, Learning Biblical Hebrew focuses on helping students understand how the Hebrew language works and providing a solid grounding in Hebrew through extensive reading in the biblical text. Introduces advanced concepts in a form accessible to beginning students. Focuses on historic patterns and changes that minimize memorization. Focuses on how the language works for long-term retention. Encourages mastery of paradigms from a handful of representative forms. Includes extensive translation from the third week of class. Prepares students for translation of unedited biblical texts by the end of first semester. Emphasizes reading comprehension rather than decoding. Promotes a strong oral component to enhance language competence. Written for first-year and second-year Hebrew students, grammar is laid out to present comprehensive concepts to first-year students and then to aid in review and deeper understanding for second-year students. Though written for Hebrew competency, Learning Biblical Hebrew is also well-suited for students with different learning styles and objectives.

Basics of Biblical Hebrew Grammar

The aim of this enterprise is to assemble together in one volume works on various syntactic aspects of Arabic and Hebrew, in the hope that it will spur further comparative work within the Semitic family at the level of richness achieved in other language families such as Germanic and Romance. Although a substantial amount of work on the syntax of Arabic and Hebrew already exists in various forms, volumes of the type we have attempted are still practically non-existent. Moreover, apart from some notable exceptions, existing studies rarely take a systematic within-family comparative stance towards the phenomena they discuss, although cross-references between studies on Arabic and Hebrew are not uncommon. Obviously, we would ideally have preferred the volume to include papers on numerous other Semitic languages, including the languages of the Ethio Semitic branch as well as numerous spoken varieties of Arabic that have yet to be explored. Unfortunately, this was not possible due to circumstances beyond our control. We very much hope that the existence of this volume will make more inclusive volumes on the syntax of the Semitic languages only a matter of time.

Exegetical Fallacies

Introduction to the Old Testament

Linguistics expert and long-time educator Hackett offers a robust introduction to biblical Hebrew grammar and the Masoretic text. All exercises from Hebrew to English are taken from the Old Testament: those in earlier lessons with slight modification suitable to the experience of the student; those exercises found in the later lessons are taken from the Masoretic text of the Old Testament without modification, but with footnotes to explain unusual or advanced formations. Classroom tested and suitable for self-study as well, this quick-moving one-semester course (30 lessons) features clear, readable explanations, exercises, and examples that provide students with an effective foundation in original language usage. This text-book is also suitable for an entire first-year's study of Biblical Hebrew conducted at a slower pace. Course work includes an overview of the history of the Hebrew Bible; deductive lessons on recognition, drawing, and pronunciation of consonants and vowels; memorization and recitation of the alphabet; and proper spelling of words; as well inductive experience in translating biblical passages. Excellent textbook for students who wish to progress beyond using simple reference works and ideal for those who wish to read the Hebrew Bible deeply, widely, and accurately, as well as for any who wish to pursue advanced studies in the Hebrew Scriptures.
