On a pleasant September evening in 1950, Joe Spivak invited his son to take a walk in the park. "Let's consider this a fresh start, Spencer," he said. "After all, it's a new high school, a new school year, and well a good time for a fresh . a new beginning." There was a pregnant pause. Then Joe continued: "You can't keep doing what you've been doing, Spencer. You have to realize that." His father waited for Spencer to respond. Spencer didn't. "You have a power, Spencer. You might even say it's a superpower. In fact, it is a superpower. That's the point, isn't it? You can hurt people with your superpower. You have hurt someone with your superpower. And it's not good to hurt anyone. You do agree with that, don't you?" "He started it, not me." His father sighed. "It doesn't matter who started it. You have to get that. It just doesn't matter. There are consequences to what you do. We have had to move because of what you did. Do you understand that?" "Yeah." "And do you understand why we have had to move?" "Yeah." "Tell me. Tell me what you understand. Tell me why you think we have had to move." "I would get into a lot more trouble if we didn't move." "Good. Good answer. What kind of trouble?" Spencer shrugged his shoulders. "Could you go to jail?" "Maybe. I guess so." "Could it be worse than jail?" "What's worse than jail?" "You ask the right question, Spencer. What's worse than jail? What's worse is that we live in a society that is nowhere near as free as this society claims to be. Someone like you, who possesses a superpower like yours, offers the ruling class a potential weapon that can help them not only

consolidate their power over all of us, but maybe even expand that power across the world. You follow?" "Not really." "Not really? How about this? What if the ruling class decided to conduct scientific experiments to get a better understanding of your powers? What if they put you in a cage? What if they stripped you naked and probed your body and started carving you up, dissecting you to see what you are made of? What then? Then would you follow what I'm saying?" That was the day Spencer Philip Thomas Spivak decided to keep his superpower a secret. In November of 2010, at the age of 77, Spencer Spivak feels agitated and apprehensive. He seeks counseling and therapy from psychologist Dr. Jack Spinoza. But can he trust Jack? First, Spencer seeks assurances of confidentiality. Then he takes Jack to a remote location and spits into the river several times. Each excretion explodes on impact, eliciting a tsunami of fears of terrorism in the community and a rapid response from national security organizations, public and private. In the midst of this furor, Jack helps Spencer resolve his issues with his mother, Selma Spivak, who is 102 years old. Meanwhile, Jack's wife Linda, who is president of the Bephum County Probation Officers Union, is attacked by Nick Bickle, an agent from a private national security organization called the National Freedom Group (NFG, for short). Observing this event with a peculiar impartiality is Bickle's fellow agent, Wanda Lawanda. When the confrontation between Nick and Linda ends badly, Wanda declares herself a mole and offers to help Linda. Linda strip-searches her first; then she reluctantly accepts Wanda's help. Wanda immediately calls upon the Fury sisters, identical triplets of diverse ethnic origin, for assistance. Meanwhile, another of Dr. Spinoza's patients, Howard Bassam, gets blamed for everything because his name sounds Arabic. Then things get complicated.

And Now I See--

For more than five hundred years, the Bible has been referred to as the Word of God. Yet, even before the Bible was written, there was a Living Word-spoken through prophets and through Jesus of Nazareth - that ultimately echoes through the centuries. Pastor Toivonen relies on his nearly thirty years of preaching as well as studying and interpreting the Bible to inspire others to contemplate how God speaks in the contemporary world and whether God prefers flesh and blood to ink and paper. While sharing his careful examination of how the Bible came to be the Word of God through a very human process and why the Word of God is intended to be living and breathing as opposed to a book, Toivonen offers intriguing insights and commentary that encourages spiritual seekers to embark on a personal journey to answer their own questions about the Bible, its authority, and its trustworthiness. "Reading Jesus" offers encouragement to anyone ready to consider a deeper and more meaningful relationship with Jesus of Nazareth and apply the Word of God to truly live God's way-today.

Sequels of great books, like great films, usually don't make it. They promise much but let you down. Zvi and the Next Generation is a wondrous exception. Hundreds of thousands of readers have read Zvi. Now Zvi and the Next Generation picks up where the first volume left off. It speaks of the 20th-century miracle land of Israel and the three sons and one daughter of Zvi, a miracle man in that land. Both man and land proclaim the glory of God.

In this volume of 15 articles, contributors from a wide range of disciplines present their analyses of Disney movies and Disney music, which are mainstays of popular culture. The power of the Disney brand has heightened the need for academics to question whether Disney 's films and music function as a tool of the Western elite that shapes the views of those less empowered. Given its global reach, how the Walt Disney Company handles the role of race, gender, and sexuality in social structural inequality merits serious reflection according to a number of the articles in the volume. On the other hand, other authors argue that Disney productions can help individuals cope with difficult situations or embrace progressive thinking. The different approaches to the assessment of Disney films as cultural artifacts also vary according to the theoretical perspectives guiding the interpretation of both overt and latent symbolic meaning in the movies. The authors of the 15 articles encourage readers to engage with the material, showcasing a variety of views about the good, the bad, and the best way forward.

Christian Beginnings

What the hell happened on the way to making the world a better place? We boomers were told our success would be unlimited. We had democracy and capitalism, and God was on our side. We took our religious teachings seriously, and set out to end bigotry, violence, and destitution. Inevitably, we collided with American Caesars, whose power and wealth was sufficient to dominate national and international affairs. Political and religious Caesars appropriated Jesus and used him to justify war, sexism, racism, dictatorships, and poverty. What were the faithful to do? Lots of boomers I know tossed the spiritual baby out with the religious institution's bathwater, and became cynical about civic engagement. It is not time to abandon hope in our goodness, however, and it is not time to surrender our conscience to Caesar. Our experiences as boomers teach us that it is possible to bring the love of God to bear

synonymous with anarchic political comedy. His best known plays in English include *Accidental Death of an Anarchist*, *Can't Pay, Won't Pay* and *Trumpets and Raspberries*. But for over thirty years Fo, often in collaboration with his wife, Franca Rame, has led the field in political satire in Europe: capitalism, imperialism and corruption in the Italian government being the main targets for his ideologically inspired attack. For performance outside Italy, his comedies are frequently adapted to reflect local political conditions. Drawing on all forms of popular theatre, Fo's reputation as a skilled actor, mime, and director equals that of his writing. *Abducting Diana (Il ratto della Francesca)* is also published by Oberon Books. The Pillar Monthly

Pastor and writer Rich Wilkerson Jr. shines a spotlight on every Christian's calling to reach the world, seek the lost, and save sinners with Jesus' scandalous message of the gospel of grace. The Bible calls Jesus a friend of sinners. What does that mean? In *Friend of Sinners*, Rich Wilkerson Jr. shows readers the profound implications of the reality that Jesus calls us friends not because of who we are or what we have done, but because of who he is. While he was on earth, he knew that people needed to belong before they would

want to behave. He understood that the power within him was greater than the darkness around him, so he loved fearlessly. By following his example, we can have the same clear conviction and compassion for the lost that he did. His gospel of scandalous grace cannot be overestimated. When we embrace the truth that we all need Jesus equally and when we trust him to bring transformation in people's hearts, we will walk as Jesus walked, experiencing the glory of God in our own lives and in the lives of those around us.

Confessions of an Economic Hit Man

DIV The creation of the Christian Church is one of the most important stories in the development of the world's history, but also one of the most enigmatic and little understood, shrouded in mystery and misunderstanding. Through a forensic, brilliant reexamination of all the key surviving texts of early Christianity, Geza Vermes illuminates the origins of a faith and traces the evolution of the figure of Jesus from the man he was—a prophet recognizable as the successor to other Jewish holy men of the Old Testament—to what he came to represent: a mysterious, otherworldly being at the heart of a major new religion. As Jesus's teachings spread across the eastern Mediterranean, hammered into place by Paul, John, and their successors, they were transformed in the space of three centuries into a centralized, state-backed creed worlds away from its humble origins. Christian Beginnings tells the captivating story of how a man came to be hailed as the Son consubstantial with God, and of how a revolutionary, anticonformist Jewish subject became the official state religion of the Roman Empire. /div

Caesar Ate My Jesus

The slogan "Paul and the Empire" is much in vogue in New Testament scholarship today. But did Paul truly formulate his gospel in antithesis to the Roman imperial cult and ideology and seek to subvert the Empire? In *Christ and Caesar* Seyoon Kim first examines five epistles of Paul exegetically and shows how the dominant anti-imperial interpretation is actually difficult to sustain. Next he examines the Lukan writings (Luke-Acts) to see how Luke talks about the encounters of Paul and other gospel preachers with Roman imperialism. Kim explores why it is that Luke makes no effort to present Christ's redemption as materialized in terms of political liberation. Finally, Kim compares the exaltation Christologies of Luke, Revelation, Paul, and Hebrews and inquires about the hermeneutical possibility of developing a political Christology in our present-day context.
