When life lets us down, there's only one reason: it's all in our heads! We are what we affirm, positive and negative. Quantum Affirmations offers an integrative approach to manifesting the love, happiness, prosperity, and success you want in your life. Renowned psychic and bestselling author Monte Farber teaches readers how to visualize and create the future they desire with simple and fun techniques to tunnel through any and all obstacles. Quantum Affirmations is the revolutionary new method for harnessing your mind's power based on quantum physics. Farber has researched intriguing scientific principles and their complementary metaphysical laws that support that affirmations work. In Quantum Affirmations, he applied those principles to formulate a simple 5-step process that anyone can use to create the future they want. Farber includes in-depth interviews with people he has guided step-

bystep through the process, and shows readers how to create their own Quantum Affirmations. When the world seems to be falling apart and things are getting out of control, this book offers an easy-to-use tool to take matters into your own hands.

****ATTENTION! MAJOR UPDATE!** I've added more information to this book, including symbols and colors in the Tarot cards and five sample layouts along with interpretations. I initially wanted to keep the book very basic and to not get real complicated. However, I realize there are some readers that want to become more immersed in the Tarot cards, so I felt I would provide more in depth details. Now you will find chapters on colors in the Tarot and symbols in Tarot cards. I personally don't use them in my readings but maybe many of you will want to! I also listened to the readers who were kind enough to write reviews, and it seemed as though some were disappointed because there were no "examples" of layouts in the book. So I took some pictures of five layouts and explained them the best I could. Unfortunately, they are printed in black and white since color would have tripled the cost of the book. Sorry Please remember I'm not a professional photographer, so they might look amateurish. That's because they are! -----
Original Description: Are you confused, frustrated and/or fed up with so many tarot card books that have long explanations and meanings and then reversed meanings as you are attempting to learn how to read your tarot cards? So was I way back in 1975 when I first delved into the world of tarot cards. Then in 1983 I went to a reader and was fascinated by her interpretations of the cards. They were different from all the meanings I had seen in other books. I attended her exclusive invitation-only class and learned HER way! I decided to take those lessons and gather them together. The result is this little book that is power packed with informationno fluff, no illustrations, and no long-winded explanations. It's a unique blend of esoteric tarot meanings combined with astrology and numerology. I've included a few "lessons" on astrology in the event you aren't familiar with the zodiac. The included numerology explanation is fairly simple. Katie
