The US Suicide Prevention Action Network (SPAN) concluded that, "The single greatest obstacle to the effective prevention of suicide is the lack of evaluation research." This substantive and authoritative volume shows for the first time how to use evidence-based approaches in suicide prevention-as well as where evidence is lacking and how we might obtain it. Leading researchers and practitioners describe what really works, the evidence for and against particular approaches, both in general terms (such as by means of hotlines, restriction of means, psychopharmacology) and for specific disorders (such as schizophrenia, personality disorder), and make recommendations about where we go from here.

The Anthropological Study of Play

"Inspired by the untold story of Sgt. Joe Hooper, Vietnam's most decorated soldier and a home-front casualty, Home Front chronicles how - in the midst of his war - George Bush has cut benefits of both veterans and front line troops. It reveals how the Pentagon has ordered soldiers to take experimental medicines that sometimes prove fatal, how defense contractors sometimes knowingly deliver faulty weapons to troops, and how the true casualty measure of war is the body count - the medical failures, psychological toll and the uninvestigated suicides - that occurs on the home front. Only 148 soldiers were killed in the 1991 Gulf War, but 11,000 have died since. New figures show that one third of the 696,000 Gulf I troops have sought war-related medical treatment. A similar pattern is emerging today in Gulf II." "Home Front reports the widespread effects of the government's weapons, medicines and bureaucracies of mass destruction: the use of vaccines that have led to mysterious deaths among both troops and civilians, and the likley emergence of Gulf War II illness, a cocktail of ailments similar to Gulf War I illness - the modern day version of Vietnam's Agent Orange. It details the health and medical issues facing American military personnel and veterans, and investigates the military/bureaucratic politicking behind them. It includes comprehensive documentation from the CDC, VA, and Pentagon to explain the illnesses, syndromes and symptoms, and provides insight into veterans' battles over medical services, intractable policy, and VA hospital conditions. Public and classified military experiments are detailed along with the "friendly fire" effects of anthrax vaccine and depleted uranium."--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. Lethal Intent

This book explores why individuals succumb to suicidal behaviour. It examines and updates current statistics that provide clues to the circumstances surrounding suicidal behaviour; questions the misconceptions associated with such behaviour; offers prevention and management solutions; and suggests further research needs.

Suicide in Perspective

Pennsylvania State Reports Containing Cases Decided by the Supreme Court of Pennsylvania

If they expected silence, they hired the wrong woman. Caroline Bragg 's life has never been better. She and Brandon Lancaster are taking their relationship to the next level, and she has a new dream job as legal counsel for Praecursoria—a research lab that is making waves with its cutting-edge genetic therapies. The company 's leukemia treatments even promise to save desperately sick kids—kids like eleven-year-old Bethany, a critically ill foster child at Brandon 's foster home. When Caroline 's enthusiastic boss wants to enroll Bethany in experimental trials prematurely, Caroline objects, putting her at odds with her colleagues. They claim the only goal at Praecursoria is to save lives. But does someone have another agenda? Brandon faces his own crisis. As laws governing foster homes shift, he 's on the brink of losing the group home he 's worked so hard to build. When Caroline learns he 's a Praecursoria investor, it becomes legally impossible to confide in him. Will the secrets she keeps become a wedge that separates them forever? And can she save Bethany from the very treatments designed to heal her? This latest romantic legal thriller by bestseller Cara Putman shines a light on the shadowy world of scientific secrets and corporate vendettas—and the ethical dilemmas that plague the place where science and commerce meet. “ Intriguing characters. Romantic tension. Edge-of-your-seat suspense. And a fast-paced ending that will leave you exhausted (in a good way!). ” —Robert Whitlow, award-winning author of Promised Land

Drone pilot Jamie MacKay parts ways with the US Air Force to come home to Cedar Valley and take ownership of a bakery. His aunt passed away, leaving him Desserts du Jour. Now he must decide whether to keep the business or sell it. Thing is, he 's been in the Air Force for so long he 's not sure what he should do next in his life. Then he sees a sexy blonde.... The Omega Team sends Lily Vaughn on assignments around the world, helping people in need as well as executing off-the-books work for the government. She 's faced down mob leaders, murders, and drug lords, never flinching once. Her latest assignment takes her to Cedar Valley, California, and into the most dangerous mission of her life—one no amount of training or experience could 've prepared her for. She must not only protect Jamie MacKay but her heart from his tantalizing kisses. When a terrorist steps on US soil, The Omega Team is called into action. Lives hang in the balance as Jamie and Lily uncover secrets, unravel misinformation, and try to stop a deadly agenda. And, with nothing what it

seems, it will take them both to survive a terrorist ' s lethal intent.
