This book details the construction of a range of simple miniature steam engines and boilers. The projects, each of which can be completed with only a basic workshop, range from a single-acting oscillator to more sophisticated twin-cylinder double-acting engines and a variety of boilers. A final project brings together engine and boiler for a simple steam railway locomotive. These projects are a perfect introduction to model engineering and an enjoyable exercise for the more experienced engineer or

those who wish to pass on their hobby to a younger generation. Stan Bray is an experienced craftsman in engineering and metalworking; among his previous books is *Metalworking: Tools and Techniques*.

Toy Train Collecting and Operating

It is a blessing that our original Anzacs, one hundred years ago, were avid diary writers and thankfully our Sydney was one of them. He jotted down an entry every day in his main diary which he started on 1st January 1915 at Mena Camp, Egypt, and maintained to the day he was mortally wounded by a Turkish shell on 13th May 1915. Sydney's pocket diary, issued when he started training at Enoggera Army Camp, is full of assorted entries; from names and addresses (mainly of young ladies), to notes on lectures and various remedies for a range of ailments. It also contains drawings of the sphinx and camels, pay days, various other payments, troop ships numbers and personal comments. By opening the pages of these two diaries and breathing life back into the written words we have resurrected a detailed snapshot of the nine months of Sydney's last great `adventure`. Where ever possible names and places mentioned have been researched for supporting details to enable you, the reader, to better travel with `our Sydney`. This portrait of a Digger, sustained by several seldom-seen photos, include copies of originals sent home to his family. It all comes together as quite a moving story of a brave young man and it has been a pleasure to tell Sydney's story, one of a dearly beloved son, brother, nephew and uncle.

Greenberg's Guide Lionel Trains

A SUNDAY TIMES, THE TIMES, SPECTATOR, NEW STATESMAN, TLS BOOK OF THE YEAR The British in this book lived in India from shortly after the reign of Elizabeth I until well into the reign of Elizabeth II. Who were they? What drove these men and women to risk their lives on long voyages down the Atlantic and across the Indian Ocean or later via the Suez Canal? And when they got to India, what did they do and how did they live? This book explores the lives of the many different sorts of Briton who went to India: viceroys and officials, soldiers and missionaries, planters and foresters, merchants, engineers, teachers and doctors. It evokes the three and a half centuries of their ambitions and experiences, together with the lives of their families, recording the diversity of their work and their leisure, and the complexity of their relationships with the peoples of India. It also describes the lives of many who did not fit in with the usual image of the Raj: the tramps and rascals, the men who 'went native', the women who scorned the role of the traditional memsahib. David Gilmour has spent decades researching in archives, studying the papers of many people who have never been written about before, to create a magnificent tapestry of British life in India. It is exceptional work of scholarly recovery portrays individuals

with understanding and humour, and makes an original and engaging contribution to a long and important period of British and Indian history.

Collecting Toy Trains

A bargain buy when first introduced as Chicago Flyer, American Flyer trains rose to premier toy train status in the last half of the 20th century, and maintain the second spot today! Lionel Trains Pocket Price Guide 1901-1921 (Greenbergs Guide)

Detective Sam Tyler is racing to save his girlfriend and colleague from a serial killer when a car crash puts him into a coma. When he wakes up he is no longer in 2006 – he is now assigned to the team run by the loudmouthed and un-politically correct DCI Gene Hunt in 1973. This was the opening premise that hooked 7 million viewers and had them glued to their screens every week as the mystery surrounding Sam deepened and his dilemma grew ever more intense. Will he ever get home again, and how? Why is he in 1973, and can he hang on to his sanity and cope with life in a very different world than the one he is used to? Is it all coma-induced, in his head, or is it real? Produced with the full backing of series production company Kudos – the makers of *Spooks* and *Hustle* – the official *Life on Mars* companion is packed with interviews with cast and crew and insights into the making of the series, from what first inspired it to the meticulously researched 1970s background and design. The whole is a package which brilliantly recreates the look and feel of the show – right down to the hidden 1973 *Life On Mars* Annual cover underneath the outside dust jacket – and which anyone who fell in love with *Life On Mars* on screen will want to own.
