Make sure you're in the right place at the right time to make the right call. Based on National Federation of State High School Associations (NFHS) rules, Officiating Softball covers officiating procedures and responsibilities, plate and field umpire mechanics for both fast-pitch and slow-pitch softball, and rules application. You'll learn what's expected of you as an umpire, pre- and postgame duties, and equipment and safety regulations. The book contains three chapters detailing basic umpiring positions and descriptions; plate umpire mechanics; field umpire mechanics; and one-, two-, and three-umpire systems. Also included are real-life cases that demonstrate correct rulings, point out common umpiring errors and how to avoid them, and challenge you to make the right call in game situations. Officiating Softball is not a rules book--it's

a practical resource on applying the rules and umpiring mechanics developed and approved by the NFHS. Officiating Softball was written by the American Sport Education Program (ASEP) in cooperation with the NFHS. It serves as the text for the NFHS Officiating Softball Methods Online Course, offered through the NFHS Officials Education Program.

Legacy of the Blues: a Century of Athletics at the W

Bulletin

Mississippi University for Women was a pioneer in the Southeast Region as well as the State of Mississippi in encouraging, promoting, and sponsoring intercollegiate athletics for women. The programs were always of the highest quality and conducted with integrity. The students and coaches involved were dedicated and committed to their respective sport. Loss of the Physical Education Assembly Building, destroyed by a tornado in 2002, and the subsequent decision (2003) by the university to cease participation in intercollegiate athletics prompted the writing of this book. Physical resources and historical records had been destroyed. Concern that the knowledge of this program would be lost along with its significance to the university alumnae, and women's sport history, challenged five retired Health and Kinesiology faculty members to write this book. They knew that their collective knowledge and experiences were invaluable in recording a century of athletic competition at the W. These women promoted the educational model of sport believing that the opportunity to participate in sports brings both value and pleasure to the quality of life.
