In *Varsity Green*, Mark Yost cuts through clichés and common misconceptions to take a hard-eyed look at the current state of college athletics. He takes readers behind the scenes of the conspicuous and high-revenue business of college sports in order to dissect the enormous television revenues, merchandising rights, bowl game payoffs, sneaker contracts, and endorsement deals that often pay state university coaches more than the college president, or even the governor. Money in college sports is nothing new. But readers will be amazed at the alarming depth and breadth of influence, both financial and otherwise, that college sports has within our culture. Readers will learn how academic institutions capitalize on the success of their athletic programs, and what role sports-based revenues play across campus, from the training room to the science lab. Yost pays particular attention to the climate that big-money athletics has created over the past decade, as both the NCAA's March Madness and the Bowl Championship Series have become multi-billion dollar businesses. This analysis goes well beyond campus, showing how the corrupting influences that drive college athletics today have affected every aspect of youth sports, and have seeped into our communities in ways that we would not otherwise suspect. This book is not only for the players, policymakers, and other insiders who are affected by the changing economics of college athletics; it is a must-read for any sports fan who engages with the NCAA and deserves to see the business behind the game.

In the exclusive behind the scenes look, sports fans can unlock the fascinating history of the channel that changed the way people watch and interact with their favorite teams. It began, in 1979, as a mad idea of starting a cable channel to televise local sporting events throughout the

state of Connecticut. Today, ESPN is arguably the most successful network in modern television history, spanning eight channels in the United States and around the world. But the inside story of its rise has never been fully told-until now. Drawing upon over 500 interviews with the greatest names in ESPN's history and an All-Star collection of some of the world's finest athletes, bestselling authors James Miller and Tom Shales take us behind the cameras. Now, in their own words, the men and women who made ESPN great reveal the secrets behind its success-as well as the many scandals, rivalries, off-screen battles and triumphs that have accompanied that ascent. From the unknown producers and business visionaries to the most famous faces on television, it's all here.

Dave Ross (1871-1943) and George Ade (1866-1944) were trustees, distinguished alumni and benefactors of Purdue University. Their friendship began in 1922 and led to their giving land and money for the 1924 construction of Ross-Ade Stadium, now a 70,000 seat athletic landmark on the West Lafayette campus. Their life stories date to 1883 Purdue and involve their separate student experiences and eventual fame. Their lives crossed paths with U.S. First

Lady Eleanor Roosevelt, Henry Ford, Amelia Earhart, and Will Rogers among others. Gifts or ideas from Ross or Ade led to creation of the Purdue Research Foundation, Purdue Airport, Ross Hills Park, and Ross Engineering Camp. They helped Purdue Theater, the Harlequin Club and more. Ade, renowned author and playwright, did butt heads with Purdue administrators at times long ago, but remains a revered figure. Ross's ingenious mechanical inventions of gears still steer millions of motorized vehicles, boats, tractors, even golf carts the world over.

The male market is exploding. Thanks to emerging social and cultural trends, men are becoming consumers to reckon with. In 1990 only 4% of men claimed to regularly use a skin care product. By 2015 the figure will have risen to 50%. Branded Male discusses the evolution of the male consumer and the desire of marketers to tap into the still underdeveloped male market. Crammed with facts and anecdotes, Branded Male analyses how to effectively brand products and services for the male market. Using a typical modern male's weekday as a template and examining all the influences affecting him, the book considers his exposure to brands and the ways marketers can exploit these channels, taking you through popular strategies for marketing to men. In his trademark style, Mark Tungate - the author of Fashion Brands: Branding Style from Armani to Zara - paints a portrait of the male consumer. From razor blades to beer, from aftershave to hotels, he finds out which marketing messages have the most impact on male wallets. Men's bank balances may never be the same again.

The Exclusive System to Learn-Not Just Memorize-Essential Words A powerful vocabulary opens a world of opportunity. Building your word power will help you write more effectively, communicate clearly, score higher on standardized tests like the SAT, ACT, or GRE, and be more confident and persuasive in everything you do. But in order to truly increase your vocabulary, you need a system that works. With most guides, you end up only memorizing the new words for a short time, often not even long enough to use them in tests. Fiske WordPower is different. Using the exclusive Fiske system, you will not just memorize words, but truly learn their meanings and how to use them correctly. This knowledge will stay with you longer and be easier to recall-and it doesn't take any longer than less-effective memorization. How does it work? This book uses a simple three-part system: 1. Patterns: Words aren't arranged randomly or alphabetically, but in similar groups that make words easier to remember over time. 2. Deeper Meanings, More Examples: Full explanations-not just brief definitions-of what the words mean, plus multiple examples of the words in sentences. 3. Quick Quizzes: Frequent short quizzes help you test how much you've learned, while helping your brain internalize their meanings. Fiske WordPower is the most effective system for building a vocabulary that gets you clear and successful results.

Every year, hundreds of thousands of young people pack their bags to study or volunteer abroad. Well-intentioned and curious Westerners--brought up to believe that international travel broadens our horizons--travel to low-income countries to learn about people and cultures different from their own. But while travel abroad can provide much-needed perspective, it can also be deeply unsettling, confusing, and discomfiting. Travelers can find themselves unsure about how to think or speak about the differences in race or culture they find, even though these differences might have fueled their desire to travel in the first place. *Beyond Guilt Trips* helps us to unpack our Western baggage, so that we are better able to understand our uncomfortable feelings about who we are, where we come from, and how much we have. Through engaging personal travel stories and thought-provoking questions about the ethics and politics of our travel, *Beyond Guilt Trips* shows readers ways to grapple with their discomfort and navigate differences through accountability and connection.

This is the life story of the oldest living member of the famous Wertheimer family, beautifully narrated and richly illustrated from the author's vast stock of memorabilia and his unfailing memory. It is a memoir, but at the same time a document of the exodus of German-speaking psychologists to the New World, which left the homeland scientifically shattered. This lovingly-written pictorial archive of 80 years of the history of modern psychology, shaped by the momentous events of WWII, belongs on the shelf of every psychologist, theoretical, experimental, and clinical, as it gives us the story of how the scientific heritage in Europe and America merged to form the broad and strong disciplines now in our hands, told by one of its premier historical representatives.
