The ETS Test Collection Catalog: Achievement tests and measurement devices

This updated edition provides a firm foundation of basic measurement concepts in an interactive and user-friendly text. The authors present the techniques critical to helping students determine how to measure, collect and analyse valid and objective information.

The Effects of Level of Aspiration and Team Competition as Motivational Techniques Upon Children's Performances on Selected Sports Skill Tests

Softball Guide, with Official Rules and Standards

Practical Measurement in Physical Education and Sport

Drugs and the Coach

NAGWS Guide

Tests in Print

Resources in Education

Includes section: Moderaor-topics.

Measurement and Evaluation in Physical Education, Fitness, and Sports

Bridging the gap between theory and practice, this book articulates how to use measurement techniques to assess, evaluate, and develop more effective programs within various areas of physical education.

Measurement and Evaluation in Human Performance

Measurement and Evaluation in Contemporary Physical Education

Archery for boys and girls

Softball for Boys

Practical Measurements for Evaluation in Physical Education

Skills Test Manual: Volleyball for Boys and Girls

Previous edition: Measurement for evaluation in physical education and exercise science / Ted A. Baumgartner. 8th ed. 2007.

The Mental Measurements Yearbook

Journal of Health, Physical Education, Recreation

The Construction of an Indoor Batting Skills Test for Junior High School Girls

Skills Test Manual: Softball for Girls

NEA Journal

Topics on Measurement and Evaluation in Physical Education

A cumulative list of works represented by Library of Congress printed cards.

Softball Guide

The major source of information on the availability of standardized tests. -- Wilson Library Bulletin Covers commercially available standardized tests and hard-to-locate research instruments.

Measurement for Evaluation in Physical Education and Exercise Science

Bibliographie Du Sport

Up-to-date measurement and assessment skills are necessary in preparing to become a physical education, exercise, or sport professional. This edition maintains the integrity of previous editions by continuing its practical approach to content, featuring complete and ready-to-use assessment tools and scoring information. It focuses on measurement and assessment in all three educational domains--physical, cognitive and affective. Helpful pedagogical devices include "What Do YOU Think?" controversy boxes, self-test questions with answers, keyword lists, chapter summaries, "Computer-assisted Searches" sections and "Doing Projects" boxes for further learning. New to this edition are nine "special applications" chapters, written by renowned experts in their fields, who explain how measurement and assessment skills are applied in their areas of specialization. These chapters are unique since NO other textbook in the field offers anything similar.

Physical Activities for the Handicapped

Pennsylvania Journal of Health, Physical Education, Recreation

Teaching Physical Education in Secondary Schools

Education Abstracts
