Hawaii is without parallel as a crossroads where languages of East and West have met and interacted. The varieties of English (including neo-pidgin) heard in the Islands today attest to this linguistic and cultural encounter. "Da kine talk" is the Island term for the most popular of the colorful dialectal forms--speech that captures the flavor of Hawaii's multiracial community and reflects the successes (and failures) of immigrants from both East and West in learning to communicate in English.

selling Tagalog for Beginners book, Intermediate Tagalog is the first intermediate-level book designed specifically for people who already speak or understand some basic Tagalog and now wish to achieve greater fluency in speaking, reading and writing standard Filipino—the national language of the Philippines. The carefully-constructed lessons in this book point out common grammatical errors that English speakers make when speaking Tagalog, and present "real-life" conversations demonstrating how the language is spoken in Manila today. Extensive cultural notes are provided, along with exercises and activities that introduce the use of the Tagalog language in a wide range of everyday situations. The 20 lessons give you all the basic skills needed to speak Tagalog fluently: paglalarawan (the ability to describe people, places and feelings); pagsasalaysay (the ability to tell a story—whether a news story, a folktale, or an anecdote); paglalahad (how to explain something—for example, a custom or tradition, or how to cook a dish); and pangangatuwiran (reasoning and abstract thinking). Each lesson is carefully structured in six key parts: A "real-life" dialogue providing valuable conversational skills. Avocabulary list to expand your familiarity with common, everyday Tagalog words and expressions. A grammar review section (for example, on the correct uses of affixes in various sentence constructions). Insightful cultural notes presenting aspects of the Philippines that may seem "odd" to outsiders, to explain how Filipino culture shapes the way people speak. A reading passage from a story or newspaper article, with comprehension questions. A writing exercise designed to teach a specific writing skill. Using Intermediate Tagalog, you'll be able to talk about yourself, your family and your daily experiences using grammatically correct sentences and a native-speaker level vocabulary.

English competes with Tagalog and Taglish, a mixture of English and Tagalog, for the affections of Filipinos. To understand the competing ideologies that underlie this switching between languages, this book looks at the language situation from multiple perspectives. Part A reviews the social and political forces that have propelled English through its life cycle in the Philippines from the 1898 arrival of Admiral Dewey to the 1998 election of Joseph Estrada. Part B looks at the social support for English in Metro Manila and the provinces with a focus on English teachers and their personal and public use of English. Part C examines the language of television sport broadcasts, commercials, interviews, sitcoms, and movies, and the language of newspapers from various linguistic, sociolinguistic, and sociocultural perspectives. The results put into perspective the short-lived language revolution that took place at the turn of the twenty-first century.

How the World Changed Social Media is the first book in *Why We Post*, a book series that investigates the findings of anthropologists who each spent 15 months living in communities across the world. This book offers a comparative analysis summarising the results of the research and explores the impact of social media on politics and gender, education and commerce. What is the result of the increased emphasis on visual communication? Are we becoming more individual or more social? Why is public social media so conservative? Why does equality online fail to shift inequality offline? How did memes become the moral police of the internet? Supported by an introduction to the project's academic framework and theoretical terms that help to account for the findings, the book argues that the only way to appreciate and understand something as intimate and ubiquitous as social media is to be immersed in the lives of the people who post. Only then can we discover how people all around the world have

The ultimate rapid language-learning guide! For those who've despaired of ever learning a foreign language, here, finally, is a book that will make the words stick. At thirty years old, Gabriel Wyner speaks six languages fluently. He didn't learn them in school -- who does? -- rather, he learned them in the past few years, working on his own and practicing on the subway, using simple techniques and free online resources. In *Fluent Forever* Wyner reveals what he's discovered. The greatest challenge to learning a foreign language is the challenge of memory; there are just too many words and too many rules. For every new word we learn, we seem to forget two old ones, and as a result, fluency can seem out of reach. *Fluent Forever* tackles this challenge head-on. With empathy for the language-challenged and abundant humor, Wyner deconstructs the learning process, revealing how to build a foreign language in your mind from the ground up. Starting with pronunciation, you'll learn how to rewire your ears and turn foreign sounds into familiar sounds. You'll retrain your tongue to produce those sounds accurately, using tricks from opera singers and actors. Next, you'll begin to tackle

words, and connect sounds and spellings to imagery, rather than translations, which will enable you to think in a foreign language. And with the help of sophisticated spaced-repetition techniques, you'll be able to memorize hundreds of words a month in minutes every day. Soon, you'll gain the ability to learn grammar and more difficult abstract words--without the tedious drills and exercises of language classes and grammar books. This is brain hacking at its most exciting, taking what we know about neuroscience and linguistics and using it to create the most efficient and enjoyable way to learn a foreign language in the spare minutes of your day.

With *Dusk* (originally published in the Philippines as *Po-on*), F. Sionil Jose begins his five-novel Rosales Saga, which the poet and critic Ricaredo Demetillo called "the first great Filipino novels written in English." Set in the 1880s, *Dusk* records the exile of a tenant family from its village and the new life it attempts to make in the small town of Rosales. Here commences the epic tale of a family unwillingly thrown into the turmoil of history. But this is more than a historical novel; it is also the eternal story of man's tortured search for true faith and the larger meaning of existence. Jose has achieved a fiction of extraordinary scope and passion, a book as meaningful to Philippine literature as *One Hundred Years of Solitude* is to Latin American literature. "The foremost Filipino novelist in English, his novels deserve a much wider readership than the Philippines can offer."--Ian Buruma, *New York Review of Books* "Tolstoy himself, not to mention Italo Svevo, would envy the author of this story."--*Chicago Tribune*
