## **The Amazing Power of Animals**

Winner of the Pulitzer Prize "A masterwork . . . the novel astonishes with its inventiveness . . . it is nothing less than a grand comic fugue."—The New York Times Book Review A Confederacy of Dunces is an American comic masterpiece. John Kennedy Toole's hero, one Ignatius J. Reilly, is "huge, obese, fractious, fastidious, a latter-day Gargantua, a Don Quixote of the French Quarter. His story bursts with wholly original characters, denizens of New Orleans' lower depths, incredibly true-to-life dialogue, and the zaniest series of high and low comic adventures" (Henry Kisor, Chicago Sun-Times).

## **The Amazing Afterlife of Animals**

Perhaps only the animals can tell us what it is to be human. The souls of ten animals caught up in human conflicts over the last century tell their astonishing stories of life and death. In a trench on the Western Front a cat recalls her owner Colette's theatrical antics in Paris. In Nazi Germany a dog seeks enlightenment. A Russian tortoise once owned by the Tolstoys drifts in space during the Cold War. In the siege of Sarajevo a bear starving to death tells a fairytale. And a dolphin sent to Iraq by the US Navy writes a letter to Sylvia Plath. Exquisitely written, playful and poignant, *Only the Animals* is a remarkable literary achievement by this bright young writer. An animal's-eye view of humans at our brutal, violent worst and our creative, imaginative best, it asks us to find our way back to empathy not only for animals, but for other people, and to believe again in the redemptive power of reading and writing fiction.

"Whether you realize it or not, your journey toward your final destination began the day you're born. And the beginning of your discovery of what lies beyond the grave starts right now." —Ron Jones

## All Animals Go to Heaven

We live more intimately with nonhuman animals than ever before in history. The change in the way we cohabitate with animals can be seen in the way we treat them when they die. There is an almost infinite variety of ways to help us cope with the loss of our nonhuman friends—from burial, cremation, and taxidermy; to wearing or displaying the remains (ashes, fur, or other parts) of our deceased animals in jewelry, tattoos, or other artwork; to counselors who specialize in helping people mourn pets; to classes for veterinarians; to tips to help the surviving animals who are grieving their animal friends; to pet psychics and memorial websites. But the reality is that these practices, and related beliefs about animal souls or animal afterlife, generally only extend, with very few exceptions, to certain kinds of animals—pets. Most animals, in most cultures, are not mourned, and the question of an animal afterlife is not contemplated at all. Mourning Animals investigates how we mourn animal deaths, which animals are grievable, and what the implications are for all animals.

### There Are No Sad Dogs In Heaven

Since the 1990s the Japanese pet industry has grown to a trillion-yen business and estimates place the number of pets above the number of children under the age of fifteen. There are between 6,000 to 8,000 businesses in the Japanese pet funeral industry, including more than 900 pet cemeteries. Of these about 120 are operated by Buddhist temples, and Buddhist mortuary rites for pets have become an institutionalized practice. In *Bones of Contention*, Barbara Ambros investigates what religious and intellectual traditions constructed animals as subjects of religious rituals and how pets have been included or excluded in the necral landscapes of contemporary Japan. Pet mortuary rites are emblems of the ongoing changes in contemporary Japanese religions. The increase in single and nuclear-family households, marriage delays for both males and females, the falling birthrate and graying of society, the occult boom of the 1980s, the pet boom of the 1990s, the anti-religious backlash in the wake of the 1995 Aum Shinriky? incident—all of these and more have contributed to Japan's contested history of pet mortuary rites. Ambros uses this history to shed light on important questions such as: Who (or what) counts as a family member? What kinds of practices should the state recognize as religious and thus protect financially and legally? Is it frivolous or selfish to keep, pamper, or love an animal? Should humans and pets be buried together? How do people

reconcile the deeply personal grief that follows the loss of a pet and how do they imagine the afterlife of pets? And ultimately, what is the status of animals in Japan? Bones of Contention is a book about how Japanese people feel and think about pets and other kinds of animals and, in turn, what pets and their people have to tell us about life and death in Japan today.

"Afterlife IS life. Period." --Bishop, American Bulldog-- Is it possible for an animal to be one's soulmate? "It is not only possible. It simply IS!" --Hamilton, Shar Pei-- Leta's gifts and teachings have shown me that the pain we experience in life through extreme loss can be just the beginning of an even greater awakening that replaces our pain with peace and a higher understanding. --K. Ivens-- I contacted Leta soon after my fur baby Sandy Girl's passing, and she assisted in helping with her transition. Our communications with Sandy assured me that she was healthy, happy and always with me. Thanks for your many talents Leta. --C. Johnson-- "It is, really and truly, 'Heavenly' to be in this state, have one's eyes opened again, see life for what it is, not be worrying about managing a body. It is so beautiful!" --Conan, German Shepherd-- After almost 20 years of animal communication work and spiritual exploration, the author found herself suddenly and inexplicably inundated with requests to communicate with animals who were either in the throes of death and dying or who had already passed over. This sea change in Leta's practice became the framework for helping clients devastated by the loss of a special animal better understand life after death and find peace and solace. the afterlife, and animal reincarnation • Paper with French flaps Looking for companionship after a near-fatal car crash, Elena Mannes, an award-winning television journalist and producer, decided to get her first dog. But what she found with her dog Brio shook the foundations of her physical and spiritual worlds, sending her on a quest to discover the nature of his spiritual origins and to contemplate and seek out the possibility of interspecies communication--even after death. Soon after bringing her puppy home, Mannes realized that the master-companion relationship would not be possible with Brio, who quickly showed that he had a mind--and a spirit--of his own. A healer Mannes visited immediately focused on Brio, exclaiming that he was an old soul. Mannes's growing curiosity about the intelligence, emotions, and consciousness of Brio and other dogs led her to contact an animal psychic in California who described, with amazing accuracy, Brio's favorite walks and the author's apartment from the dog's point of view. Motivated by her experience, Mannes produced a filmed segment with Diane Sawyer featuring the same psychic, who described Sawyer's country house and her dog's favorite spots in the yard. Mannes's skeptical journalist background compelled her to investigate further. She delved into the world of animal communicators, psychics, and scientists studying animal intelligence, including Rupert Sheldrake, to find answers to her multiplying questions: Do animals have thoughts and feelings? Consciousness? Souls? Is interspecies communication possible? Can animals reincarnate? Spanning the entire life and afterlife of Brio, including his last days and his messages to the author after he passed on, this book also explores Mannes' investigations into the spiritual life of animals, offering a new understanding of the unbreakable bond between humans and animals. Mannes invites readers to move beyond the owner-pet relationship and shows us how to see animals as thinking,

Plato's Animals examines the crucial role played by animal images, metaphors, allusions, and analogies in Plato's Dialogues. These fourteen lively essays demonstrate that the gadflies, snakes, stingrays, swans, dogs, horses, and other animals that populate Plato's work are not just rhetorical embellishments. Animals are central to Plato's understanding of the hierarchy between animals, humans, and gods and are crucial to his ideas about education, sexuality, politics, aesthetics, the afterlife, the nature of the soul, and philosophy itself. The volume includes a comprehensive annotated index to Plato's bestiary in both Greek and English.

In the quiet halls of the natural history museum, there are some creatures still alive with stories, whose personalities refuse to be relegated to the dusty corners of an exhibit. The fame of these beasts during their lifetimes has given them an iconic status in death. More than just museum specimens, these animals have attained a second life as historical and cultural records. This collection of essays—from a broad array of contributors, including anthropologists, curators, fine artists, geographers, historians, and journalists—comprises short "biographies" of a number of famous taxidermized animals. Each essay traces the life, death, and museum "afterlife" of a specific creature, illuminating the overlooked role of the dead beast in the modern human-animal encounter through practices as disparate as hunting and zookeeping. The contributors offer fresh examinations of the

many levels at which humans engage with other animals, especially those that function as both natural and cultural phenomena, including Queen Charlotte's pet zebra, Maharajah the elephant, and Balto the sled dog, among others. Readers curious about the enduring fascination with animals who have attained these strange afterlives will be drawn to the individual narratives within each essay, while learning more about the scientific, cultural, and museological contexts of each subject. Are you a dog owner who is in the process of losing your best friend to illness? Or have you lost your beloved friend and you are struggling to get over them? Pet bereavement is tough. Not everyone sympathises with you. Jeannie Wycherley chose to write this book after the loss of her beloved boy, Herbie, because she was hurt by the repetition of the phrase, "he was just a dog." She realised that her grief transcended that tired notion - one tritely rolled out by people who think they're being helpful and supportive, failing to realise the guilt and shame many pet owners already experience when they are locked deep in mourning. 'Losing my Best Friend: thoughtful support for those affected by dog bereavement or pet loss' offers practical advice about what to do when your dog passes away, including tips on helping your children or other pets cope with the loss, designing your own ceremony to celebrate your dog's life, and creating memorials. In these pages Jeannie Wycherley has created a loving tribute to Herbie, and delivers support with a light and loving touch that validates what you're going through.
