Bridging the River of Hatred portrays the career of George Clifton Edwards, Jr., Detroit's visionary police commissioner whose efforts to bring racial equality, minority recruiting, and community policing to Detroit's police department in the early 1960s met with much controversy within the city's administration. At a crucial time when the Civil Rights movement was gaining momentum and hostility between urban police forces and African Americans was close to eruption, Edwards chose solving racial and urban problems as his mission. Incorporating material from a manuscript that Edwards wrote before his death, supplemented by historical research, Stolberg provides a rare case study of problems in policing, the impoverishment of American cities, and the evolution of race relations during the turbulent 1960s. Edwards' vision and hope for Detroit gives depth to the national view of Detroit as a symbol of urban decline and offers lessons to be applied to current social and urban problems.

In the United States, 20 percent of the adult population is marginally literate. Of these roughly 30 million people, approximately 1.8 million are enrolled in basic skills literacy programs. Webster's New World has created a dictionary that is uniquely designed to help these beginning readers. Webster's New World Basic Dictionary of American English defines 49,000 of the most commonly used words in the American English lexicon. These are the words adult readers are most likely to encounter in newspapers and magazines, on job applications and product instructions, on advertising billboards and their children's school progress reports. The dictionary defines these words in clear, easy-to-understand language, using only words that are themselves defined in the dictionary, but never condescending to the adult reader. Definitions are liberally supplemented with example phrases and sentences that put words in context and help new readers understand meaning and usage. Special notes on synonyms help new readers differentiate between words with similar meanings. And selected illustrations help readers identify and remember words. This quality paperback book is designed for ease of reading and use, as well as for durability. Primarily created for native English speakers, it is also a valuable reference for more advanced readers of English as a second language. From the editors of the prestigious Webster's New World College Dictionary, the Basic Dictionary of American English brings the full scholarship behind that work to this important new offering in the field of literacy.

### The Concise American Heritage Dictionary

Harryette Mullen's fifth poetry collection, *Sleeping with the Dictionary*, is the abecedarian offspring of her collaboration with two of the poet's most seductive writing partners, *Roget's Thesaurus* and *The American Heritage Dictionary*. In her *m é nage à trois* with these faithful companions, the poet is aware that while *Roget* seems obsessed with categories and hierarchies, the *American Heritage*, whatever its faults, was compiled with the assistance of a democratic usage panel that included black poets Langston Hughes and Arna Bontemps, as well as feminist author and editor Gloria Steinem. With its arbitrary yet determinant alphabetical arrangement, its gleeful pursuit of the ludic pleasure of word games (acrostic, anagram, homophone, parody, pun), as well as its reflections on the politics of language and dialect, Mullen's work is serious play. A number of the poems are inspired or influenced by a technique of the international literary avant-garde group Oulipo, a dictionary game called S+7 or N+7. This method of textual transformation--which is used to compose nonsensical travesties reminiscent of Lewis Carroll's "Jabberwocky"--also creates a kind of automatic poetic discourse. Mullen's parodies reconceive the African American's relation to the English language and Anglophone writing, through textual reproduction, recombining the genetic structure of texts from the Shakespearean sonnet and the fairy tale to airline safety instructions and unsolicited mail. The poet admits to being "licked all over by the English tongue," and the title of this book may remind readers that an intimate partner who also gives language lessons is called, euphemistically, a "pillow dictionary."
