This is the first anthology to take a theoretical look at violence against women. Each essay shows how philosophy provides a powerful tool for examining a difficult and deep-rooted social problem. Stanley G. French, Wanda Teays, and Laura M. Purdy, all philosophers, present a familiar phenomenon in a new and striking fashion. The editors employ a two-tiered approach to this vital issue. Contributors consider both interpersonal violence, such as rape and battering; and also systemic violence, such as sexual harassment, pornography, prostitution, and violence in a medical context. The editors have further broadened the discussion to include such cross-cultural issues as rape in war, dowry deaths, female genital mutilation, and international policies on violence against women. Against this wide range of topics, which integrate personal perspectives with the philosophical, the contributors offer powerful analyses of the causes and effects of violence against women, as well as potential policies for effecting change.

New York Times Bestselling Author Chuck Klosterman's First Novel Somewhere in North Dakota, there is a town called Owl that isn't there. Disco is over, but punk never happened. They don't have cable. They don't really have pop culture, unless you count grain prices and alcoholism. People work hard and then they die. They hate the government and impregnate teenage girls. But that's not nearly as awful as it sounds; in fact, sometimes it's perfect. Mitch Hrlicka lives in Owl. He plays high school football and worries about his weirdness, or lack thereof. Julia Rabia just moved to Owl. She gets free booze and falls in love with a self-loathing bison farmer who listens to Goats Head Soup. Horace Jones has resided in Owl for seventy-three years. He consumes a lot of coffee, thinks about his dead wife, and

understands the truth. They all know each other completely, except that they've never met. Like a colder, Reagan-era version of *The Last Picture Show* fused with *Friday Night Lights*, Chuck Klosterman's *Downtown Owl* is the unpretentious, darkly comedic story of how it feels to exist in a community where rural mythology and violent reality are pretty much the same thing. Loaded with detail and unified by a (very real) blizzard, it's technically about certain people in a certain place at a certain time but it's really about a problem. And the problem is this: What does it mean to be a normal person? And there is no answer. But in *Downtown Owl*, what matters more is how you ask the question.

Over the course of the late-twentieth century Basil Bernstein pioneered an original approach to educational phenomena, taking seriously questions regarding the transmission, distribution and transformation of knowledge as no other before had done. Arguing tirelessly for change, more than any other British sociologist it is Bernstein who presents to us education as a social right and not as a privilege. It is this objective today that makes his work so important. Knowledge, Pedagogy and Society

seeks to clarify the broad brushstrokes of his theories, developed over the span of more than forty years, by collecting together scholars from every corner of the globe; specialists in education, sociology and epistemology to test and examine Bernstein ' s work against the backdrop of their own research. From teaching content and the social, cognitive and linguistic aspects of education, to changes in the political climate in the early twenty-first century, this collection represents an open dialogue with Bernstein ' s work using a forward-looking and dynamic approach. Originally published in French with the explicit aim of locating Basil Bernstein ' s theories alongside those of Pierre Bourdieu, one of the most important European sociologists, the French editors draw together a collection that offers a diverse background and perspective on Bernstein ' s work and thought. Revised to include a new preface, a new introduction and revisited papers, the English edition will be a relevant resource for anyone interested in Bernstein, his reception and importance, as well as individuals working in the sociology of education, theory of education and education policy.
