“A League of Their Own for the softball set” (Lily Koppel, bestselling author of *The Astronaut Wives Club*), *Fastpitch* is hidden history at its most intriguing—the tale of the forgotten beginnings of one of the most popular and widely played sports today. Softball is played by tens of millions in various age groups all around the world, but the origins of this beloved sport (and the charismatic athletes who helped it achieve prominence in the mid-twentieth century) have been shrouded in mystery...until now. *Fastpitch* brings to vivid life the eclectic mix of characters that make up softball’s vibrant 129-year history. From its humble beginnings in 1887, when it was invented in a Chicago boat club and played with a broomstick, to the rise in the 1940s and 1950s of professional-caliber, company-sponsored teams that toured the country in style, softball’s history is as varied as it is fascinating. Though it’s thought of today as a female sport, fastpitch softball’s early history is full of male stars, such as the vaudeville-esque Eddie Feigner, whose signature move was striking out batters while blindfolded. But because

softball was one of the only team sports that also allowed women to play competitively, it took on added importance for female athletes. Women like Bertha Ragan Tickey, who set strikeout records and taught Lana Turner to pitch, and her teammate Joan Joyce, who struck out baseball star Ted Williams, made a name—and a life—for themselves in an era when female athletes had almost no prospects. Softball allowed them to flourish, and they in turn inspired a whole new generation of athletes. Featuring eight pages of captivating, vintage photos and compelling, well-researched historical commentary, this “fun and entertaining read” (Billie Jean King) chronicles softball’s unique history as well as its uncertain future (as evidenced by its controversial elimination from the 2012 Olympics, and the mounting efforts to have it reinstated). A celebration of this distinctively American game and the role it plays in our culture today, Westly has written “a must-read for anyone who loves the sport” (Jonathan Fader, author of *Life as Sport*).

Every day around the world, heritage interpreters fearlessly work to connect people with places. Normally, their programs go off without a hitch, and become the stuff of legend. However, as in life, things don't always go as planned. The Interpreter's Big Book of Disasters is a guide to teach you what others learned the hard way. These are the disaster stories that are shared around a campfire, passed down from grizzled veteran interpreters to fresh young recruits. They were never written down in training manuals until now. The book is entirely the result of voluntary contributions from interpreters across Canada and beyond. The stories, illustrations, design and editing were all done by interpreters, free of charge, for the benefit of the interpretive community. It is the outcome of a whole community of interpreters coming together. You will laugh, cheer, and maybe even cry, but most of all you will learn how to save yourself from repeating the same mistakes.

Fast-Pitch A lost chapter in the history of America's favorite pastime is finally recovered and retold in brilliant and play-by-play detail in Pete Gallo's book, "Fast-Pitch Fifties." Readers are warmly invited to revisit New Rochelle during the 1950s and discover the Twilight League and windmill baseball at its height as some 20 teams battled for championship titles and local bragging rights. Fast-Pitch recalls a period when local sports was king and a championship series in towns like New Rochelle would draw crowds that were measured in the tens of thousands. Based on interviews and historical accounts, the

author brings to life local legends of windmill at its height, such as pitcher Rush Riley who threw a softball at major league speeds and was known for his Olympian endurance, playing up to ten games per week. While many of the names are less familiar, windmill stars who managed national acclaim are also recalled such as Hicksville, Long Island native Roy Stevenson, an early pioneer of windmill pitch who helped inspire a generation of players in the New York metropolitan area. Aimed at sports fans, the book is also the story of an era - one full of memorable characters like 'Popeye' Claps an affable stationery store owner and baseball coach who managed to get Roy Rogers and his troupe to visit New Rochelle for an ad hoc block party for local kids. Then there was Bruce Flowers a professional boxer who helped lead New Rochelle's most-winning windmill team for the decade, the New Rochelle Royals. You will read about Bill Marino, a veteran who lost his arm in World War II, but remarkably managed to recapture personal glory by becoming one of the league's most feared pitchers. The author also finds that windmill's most prominent feature lead to its decline in community sports. It was a game where sheer pitching strength ruled the day, making balancing league play difficult, which helped give rise to its successor, modern "slow-pitch" softball. Though, fast-pitch persists in popularity, particularly among women's college leagues, Gallo brings us back to an era when communities across America were first discovering the game. The book recalls how the social fabric of the 1950s, with its unbridled post-war optimism and corresponding economic boom, provided for a golden era in community sports - from stickball play to fast-pitch. Gallo reminds us of how this amateur recreational league evolved to resemble a full-fledged minor B-ball league, housed in a single city - the Queen City of the Sound.
