"I offered my feedback, but my manager did not take me seriously." "I heard about the changes via the grape vine." "I have problems communicating with my team." "My employees are not buying into the changes." Sadly, when companies promote people into a management position and do not provide the necessary training, they end up with a host of bosses who have significant problems communicating with their team. From my research, 60% of new managers underperform in their first two years resulting in increased performance gaps, an uninspired workforce and a significantly high rate of employee turnover. Many managers and leaders have a significant problem communicating effectively with their team, and as a result, their

### Not Bosses But Leaders

The definition of great leadership, backed by ground-breaking research *When Execution Isn't Enough* examines the essential leadership skills that go beyond simply executing strategies well. It examines the leadership skills that inspire excellence and drive growth. Great leaders think differently, but their secrets, values, and behaviors can't be bottled—or can they? Is leadership so contextual that it defies standardization? In this book, McKinsey's global head of leadership development draws on ground-breaking McKinsey research to uncover 20 distinct leadership traits. All are important,

but some make all the difference in inspiring organizations to exceptional results and growth—and a select few create the vast chasm between strong and weak organizations in terms of leadership effectiveness. Structured as a business parable, this book employs a rich cast of corporate characters to illustrate the critical behaviors of inspirational leadership and the outcomes that become possible. Attempting to nail down exactly what makes a leader inspirational is like trying to capture lightning in a bottle, but new McKinsey research has identified the behavioral leadership catalysts that inspire greatness. This book describes the behaviors to inspire that can be learned—to turn a good leader into a great leader. Understand the neuroscience of inspiration Tailor your inspirational approach to different leadership scenarios Initiate an inspiration cascade to influence people at scale The picture of leadership has changed over time. Today's great leaders are authentic, enthusiastic decision-makers with engaging visions, who are quick to communicate and take action. Less than half of all CEOs believe that their training investments will pay off, yet everyone agrees that leadership drives performance—where is the disconnect? It's in the belief that simple leadership behaviors equal results, forgetting that exceptional results only come from inspiration. When Execution Isn't Enough shows you how to attain the missing link of great leadership to bring exceptional results of your organization.

## Challenging Coaching

The inspiring, life-changing bestseller by the author of **LEADERS EAT LAST** and **TOGETHER IS BETTER**. In 2009, Simon Sinek started a movement to help people become more inspired at work, and in turn inspire their colleagues and customers. Since then, millions have been touched by the power of his ideas, including more than 28 million who 've watched his TED Talk based on

# Free Reading The Inspirational Leader Inspire Your Team To Believe In The Impossible

START WITH WHY -- the third most popular TED video of all time. Sinek starts with a fundamental question: Why are some people and organizations more innovative, more influential, and more profitable than others? Why do some command greater loyalty from customers and employees alike? Even among the successful, why are so few able to repeat their success over and over? People like Martin Luther King Jr., Steve Jobs, and the Wright Brothers had little in common, but they all started with WHY. They realized that people won't truly buy into a product, service, movement, or idea until they understand the WHY behind it. START WITH WHY shows that the leaders who've had the greatest influence in the world all think, act, and communicate the same way -- and it's the opposite of what everyone else does. Sinek calls this powerful idea The Golden Circle, and it provides a framework upon which organizations can be built, movements can be led, and people can be inspired. And it all starts with WHY.

## How to Be Exceptional: Drive Leadership Success By Magnifying Your Strengths

Managing Your Scarcest Resources Business leaders know that the key to competitive success is smart management of scarce resources. That's why companies allocate their financial capital so carefully. But capital today is cheap and abundant, no longer a source of advantage. The truly scarce resources now are the time, the talent, and the energy of the people in your organization--resources that are too often squandered. There's plenty of advice about how to manage them, but most of it focuses on individual actions. What's really needed are organizational solutions that can unleash a company's full productive power and enable it to outpace competitors. Building off of the popular Harvard Business Review article "Your Scarcest Resource," Michael Mankins and Eric Garton, Bain & Company experts in organizational design and

effectiveness, present new research into how you can liberate people's time, talent, and energy and unleash your organization's productive power. They identify the specific causes of organizational drag--the collection of institutional factors that slow things down, decrease output, and drain people's energy--and then offer a pragmatic framework for how managers can overcome it. With practical advice for using the framework and in-depth examples of how the best companies manage their people's time, talent, and energy with as much discipline as they do their financial capital, this book shows managers how to create a virtuous circle of high performance.

It's all about putting other people first. ” — from the foreword by John Maxwell We've all seen the negative impact of self-serving leaders in every sector of our society. Not infrequently, they end up bringing down their entire organization. But there is another way: servant leadership. Servant leaders lead by serving their people, not by exalting themselves. This collection features forty-four renowned servant leadership experts and practitioners—prominent business executives, bestselling authors, and respected spiritual leaders—who offer advice and tools for implementing this proven, but for some still radical, leadership model. Edited by legendary business author and lifelong servant leader Ken Blanchard and his longtime editor Renee Broadwell, this is the most comprehensive and wide-ranging guide ever published for what is, in every sense, a better way to lead.

## Minute Motivators for Leaders

"Lead Yourself First makes a compelling argument for the integral relationship between solitude and leadership." --The Wall Street Journal Throughout history, leaders have used solitude as a matter of course. Martin Luther King found moral courage while sitting alone at his kitchen table one night during the Montgomery bus boycott. Jane Goodall used her intuition in the jungles of central Africa while learning how to approach chimps. Solitude is a state of mind, a space where you can focus on your own thoughts without distraction, with a power to bring mind and soul together in clear-eyed conviction. But these days, handheld devices and other media leave us awash with the thoughts of others. We are losing solitude without even realizing it. To find solitude today, a leader must make a conscious effort. This book explains why the effort is worthwhile and how to make it. Through gripping historical accounts and firsthand interviews with a wide range of contemporary leaders, Raymond Kethledge (a federal court of appeals judge) and Michael Erwin (a West Pointer and three-tour combat veteran) show how solitude can enhance clarity, spur creativity, sustain emotional balance, and generate the moral courage necessary to overcome adversity and criticism. Anyone who leads anyone--including oneself--can benefit from solitude. With a foreword by Jim Collins (author of the bestseller *Good to Great*), *Lead Yourself First* is a rallying cry to reclaim solitude--and all the benefits, both practical and sublime, that come with it.

## Find Your Why

Featuring an introduction by President Jimmy Carter The Home Depot cofounder and owner of the NFL's Atlanta Falcons and MLS's Atlanta United shares a vision and a roadmap for values-based business. Arthur M. Blank believes that for good companies, purpose and profit can-and should-go hand in hand. And he should know. Together with cofounder Bernie Marcus, Blank built The Home Depot from an idea and a dream to a \$50 billion-dollar company, the leading home improvement retailer in the world. And even while opening a new store every 42 hours, they never lost sight of their commitment to care for their people and communities. In fact, in 2001, The Home Depot was voted America's most socially responsible company. Blank left The Home Depot that same year with a burning question: Could the values and culture that made that company great be replicated? Good Company takes readers inside the story of how he did just that-turning around a struggling NFL team, rebooting a near-bankrupt retail chain, building a brand-new stadium, revitalizing a blighted neighborhood, launching a startup soccer club, and more. "When good companies put the

wellbeing of their customers, their associates, and their communities first, financial success will follow," Blank writes. "The entrepreneurs and business leaders of today and tomorrow have an extraordinary opportunity: to prove that through upholding values we can create value-for the company, for the customer, and for the community."

### Servant Leadership in Action

" The highly anticipated follow-up to the acclaimed bestseller *Start With Why* Simon Sinek's mission is to help people wake up every day inspired to go to work and return home every night fulfilled by their work. His first book, *Start With Why*, offered the essential starting point, explaining the power of focusing on *WHY* we do what we do, before getting into the details of *WHAT* and *HOW*. *Start With Why* became an instant classic, with a loyal following among Fortune 500 companies, entrepreneurs, nonprofits, governments, and the highest levels of the U.S. Military. Now Sinek is back to reveal the next step in creating happier and healthier organizations. He helps us understand, in simple terms, the biology of trust and cooperation and why they're essential to our success and fulfillment. Organizations that create environments in which trust and cooperation thrive vastly out perform their competition. And, not coincidentally, their employees love working there. But "truly human" cultures don't just happen; they are intentionally created by great leaders. Leaders who, in hard times, would sooner sacrifice their numbers to protect their people, rather than sacrifice people to protect their numbers, are rewarded with deeply loyal teams that consistently contribute their best efforts, ideas and passion. As he did in *Start With Why*, Sinek illustrates his points with fascinating true stories from many fields. He implores us to act sooner rather than later, because our stressful jobs are literally killing us. And he offers surprisingly simple steps for building a truly human organization"--

## Communication Toolkit for Introverts

Our common belief in business is that the heart has no place in workplace management. In fact, most of us were taught that the heart acts like Kryptonite in leadership: it inherently undermines a managers effectiveness and lowers productivity and profitability. In this stunning and groundbreaking work, however, engagement expert, Mark C. Crowley, provides irrefutable proof that we were wrong. Crowley begins by showing us how traditional leadership practices are failing. Across the globe, employee engagement and job satisfaction scores have fallen to crisis levels. According to astonishing research from Gallup, 70% of the US workforce is now disengaged. It once was that a job and a paycheck kept workers satisfied and productive. Today, pay barely makes the list of what inspires people to put their hearts into their work and contribute to their highest capacity. Right before our eyes, human beings have evolved in what they need and want in exchange for work. 21st Century employees are seeking to find purpose, meaning and feelings of significance. What drives their engagement is feeling valued, respected, developed and cared for. Crowleys profound insight draws upon recent medical science discoveries which prove its the heart, and not the mind, that drives human motivation and achievement. Theres nothing soft about Lead From The Heart. It represents the future of workplace management and a roadmap to driving uncommon engagement, productivity and profitability.
