Harvard University Bulletin

A deep understanding of prime numbers is one of the great challenges in mathematics. In this new edition, fundamental theorems, challenging open problems, and the most recent computational records are presented in a language without secrets. The impressive wealth of material and references will make this book a favorite companion and a source of inspiration to all readers. Paulo Ribenboim is Professor Emeritus at Queen's University in Canada, Fellow of the Royal Society of Canada, and recipient of the George Pólya Award of the Mathematical Association of America. He is the author of 13 books and more than 150 research articles. From the reviews of the First Edition: Number Theory and mathematics as a whole will benefit from having such an accessible book exposing advanced material. There is no question that this book will succeed in exciting many new people to the beauty and fascination of prime numbers, and will probably bring more young people to research in these areas. (Andrew Granville, Zentralblatt)

Cursed to Feel

This is a book for all my fellow 20 something's who are trying to understand the weird concept that is life, love, adulting and all the rest. For those that think too much, feel too much and just want to express how they feel. My words are from the heart, and dictate a timeline of emotions that I hope you relate too. Enjoy, and don't forget it's ok to feel! xx

The Little Book of Bigger Primes

You know Mark Twain, creator of the long-beloved characters Huck Finn and Tom Sawyer, but have you heard what he said about Jane Austen? The Little Book of Zingers will feature the greatest comebacks and one-liners of all time, uttered by the iconic men and women we know and love (or love to hate)! Every generation sees its fair share of geniuses: men and women who possess boundless intellect and are capable of incredible insight. Søren Kierkegaard was such a man. Widely considered the father of existential philosophy, Kierkegaard uttered such profundities as: "If I am capable of grasping God objectively, I do not believe, but precisely because I cannot do this I must believe." But on one truly momentous occasion, Kierkegaard made one confident and succinct statement that shook the earth: "My opponent is a glob of snot." Kierkegaard spoke of Hans Martensen, an academic with whom he'd had a fair share of disagreements. The two often went toe-to-toe in scholarly debate, but with this dynamite zinger, Kierkegaard ended all further discussion. After all, who expects to be called a glob of snot? There's no coming back from that. The Little Book of Zingers will explore the rich depths of crushingly hilarious salt-in-the-wound one-liners you've never heard that'll make you gasp at their audacity. From the Age of Enlightenment to the Roaring Twenties to the boogie-down seventies, The Little Book of Zingers will take readers on a journey through some of history's greatest burns, spoken by the men and women who shaped the world.

Uganda Be Kidding Me

A Sappho of Green Springs

A compulsively readable debut with a narrator you just can't trust, perfect for fans of Natasha Preston. As a child, Cassidy Pratt accidentally started a fire that killed her neighbor. At least, that's what she's been told. She can't remember anything from that day. She's pretty sure she didn't mean to do it. She's a victim too. But her town's bullies, particularly the cruel and beautiful Melody Davenport, have never let her live it down. In Melody's eyes, Cassidy is a murderer and always will be. When Cassidy overhears what sounded like an abduction and Melody goes missing, Cassidy knows she should go to the cops, but She recently joked about how much she'd like to get rid of Melody. She even planned out the perfect way to do it. It's up to Cassidy to figure out what really happened, because if she comes forward without a suspect, she knows people will point fingers at her. Again. And she can't let that happen. But the truth behind Melody's disappearance will set the whole town ablaze.

The Journal of the Ex Libris Society

"My tendency to make up stories and lie compulsively for the sake of my own amusement takes up a good portion of my day and provides me with a peace of mind not easily attainable in this economic climate."--Chelsea Handler, from Chapter 10 of Chelsea Chelsea Bang Bang It's no lie: Chelsea Handler loves to smoke out "dumbassness," the condition people suffer from that allows them to fall prey to her brand of complete and utter nonsense. Friends, family, co-workers--they've all been tricked by Chelsea into believing stories of total foolishness and into behaving like total fools. Luckily, they've lived to tell the tales and, for the very first time, write about them.

A Cast for Fortune

Wherever Chelsea Handler travels, one thing is certain: she always ends up in the land of the ridiculous. Now, in this uproarious collection, she sneaks her sharp wit through airport security and delivers her most absurd and hilarious stories ever. On safari in Africa, it's anyone's guess as to what's more dangerous: the wildlife or Chelsea. But whether she's fumbling the seduction of a guide by not knowing where tigers live (Asia, duh) or wearing a bathrobe into the bush because her clothes stopped fitting seven margaritas ago, she's always game for the next misadventure. The situation gets down and dirty as she defiles a kayak in the Bahamas, and outright sweaty as she escapes from a German hospital on crutches. When things get truly scary, like finding herself stuck next to a passenger with bad breath, she knows she can rely on her family to make matters even worse. Thank goodness she has the devoted Chunk by her side-except for the time she loses him in Telluride. Complete with answers to the most frequently asked traveler's questions, hot travel trips, and travel etiquette, none of which should be believed, UGANDA BE KIDDING ME has Chelsea taking on the world, one laugh-out-loud incident at a time.

Hillary Rodham Clinton and her daughter, Chelsea, share the stories of the gutsy women who have inspired them—women with the courage to stand up to the status quo, ask hard questions, and get the job done. She couldn't have been more than seven or eight years old. "Go ahead, ask your question," her father urged, nudging her forward. She smiled shyly and said, "You're my hero. Who's yours?" Many

people—especially girls—have asked us that same question over the years. It’s one of our favorite topics. HILLARY: Growing up, I knew hardly any women who worked outside the home. So I looked to my mother, my teachers, and the pages of Life magazine for inspiration. After learning that Amelia Earhart kept a scrapbook with newspaper articles about successful women in male-dominated jobs, I started a scrapbook of my own. Long after I stopped clipping articles, I continued to seek out stories of women who seemed to be redefining what was possible. CHELSEA: This book is the continuation of a conversation the two of us have been having since I was little. For me, too, my mom was a hero; so were my grandmothers. My early teachers were also women. But I grew up in a world very different from theirs. My pediatrician was a woman, and so was the first mayor of Little Rock who I remember from my childhood. Most of my close friends’ moms worked outside the home as nurses, doctors, teachers, professors, and in business. And women were going into space and breaking records here on Earth. Ensuring the rights and opportunities of women and girls remains a big piece of the unfinished business of the twenty-first century. While there’s a lot of work to do, we know that throughout history and around the globe women have overcome the toughest resistance imaginable to win victories that have made progress possible for all of us. That is the achievement of each of the women in this book. So how did they do it? The answers are as unique as the women themselves. Civil rights activist Dorothy Height, LGBTQ trailblazer Edie Windsor, and swimmer Diana Nyad kept pushing forward, no matter what. Writers like Rachel Carson and Chimamanda Ngozi Adichie named something no one had dared talk about before. Historian Mary Beard used wit to open doors that were once closed, and Wangari Maathai, who sparked a movement to plant trees, understood the power of role modeling. Harriet Tubman and Malala Yousafzai looked fear in the face and persevered. Nearly every single one of these women was fiercely optimistic—they had faith that their actions could make a difference. And they were right. To us, they are all gutsy women—leaders with the courage to stand up to the status quo, ask hard questions, and get the job done. So in the moments when the long haul seems awfully long, we hope you will draw strength from these stories. We do. Because if history shows one thing, it’s that the world needs gutsy women.

The Little Book of Campaign Etiquette

A story of social change and the evolution of a neighbourhood, full of human interest and the richness and sadness of the passing of time - I loved the irrepressible character who combined the skills of barrister, chef and advertising genius, and the poor first owner with her aesthetic aspirations and her artwork - the kind of history we imagine for our houses (but not so fully), assembled from small relics and suggestions. - Margaret Drabble In a vivid blend of history and fiction, Clare Hastings tells the story of a house in London's Little Chelsea - the house in which she lives - and its inhabitants, from 1871, when it was 'topped out', to the 1920s. Detailed in the census records and other sources, these very real residents - ranging from bodice-makers by way of booksellers (and a bigamist) to that glamorous, though unemployed, Irish barrister - are all now long gone, but their footsteps are etched into the floorboards at Finborough Road, and into the imagination of the author. In these pages, Clare Hastings's warmth, humour and compelling storytelling bring them back to life.
