## The Man from the Egg

In this book, Andrew Hind investigates elusive beasts from across Canada, coast to coast, relating the folklore themselves, the types of evidence the monster leaves in its wake, and eyewitness accounts: \*the towering Sasquatch of the Pacific Coast, and Yellowtop, a sub-species of Bigfoot from northern Ontario's silverfields and which, if recent eyewitnesses are to be believed, may be migrating south into cottage country \*Kempfenfelt Kelly, a long-necked saurian forgotten by time that inhabits Lake Simcoe that may be related to the more famous Nessie \*It's said that a shunka warakin, the terror of the prairies, can bite off a dog's head with a single bite, disembowel a horse with one slash of its teeth, and raze a homestead overnight, leaving over blood and bones in its wake. \*The Quallupilluk, the Inuit hag that steals babies and drags them into the freezing waters, a haglike boogeyman of the Arctic \*The flittering night time horror of monstrous-sized bats, reported from all over North America and into Canada. Does science support the possibility of such huge chiptera? \*the elusive Eastern cougar, whose spine-chilling cries have been heard under the cover of darkness in Ontario, Quebec and the Maritimes despite being officially extinct here \*What lurks within the cold dark depths of crescent lake in Newfoundland? The identity of Cressie remains a mystery to this day \*The eyes of the Adlet burn with savage fury as this white-haired wolfman stalks the legends and wilds of northern Canada. \*the Waheela, a savage terror said to be a cross between wolf and bear that ravages the hinterlands of the North-West Territories. Is the waheela a relic population of the prehistoric Amphicyonid as cryptozoologists believe?

"Since the 19th century rediscovery of the Gilgamesh epic, we have known that the Bible imports narratives from outside of Israelite culture, refiguring them for its own audience. Only more recently, however, has come the realization that Greek culture is also a prominent source of biblical narratives. *Greek Myth and the Bible* argues that classical mythological literature and the biblical texts were composed in a dialogic relationship. Louden examines a variety of Greek myths from a range of sources, analyzing parallels between biblical episodes and Hesiod, Euripides, Argonautic myth, selections from Ovid's *Metamorphoses*, and Homeric epic. This fascinating volume offers a starting point for debate and discussion of these cultural and literary exchanges and adaptations in the wider Mediterranean world, and will be an invaluable resource to students of the Hebrew Bible and the influence of Greek myth"--
