A comprehensive and highly practical study of the art of growing flowers, *Mastering the Art of Flower Gardening* presents expert tips on growing both annuals and biennials (including native and heirloom species) alongside 300+ lush photographs. This gorgeously illustrated book by Matt Mattus is based on decades of first-hand experience in his own garden—every variety or cultivar presented is one that he has personally tested and grown. Mattus sets you up for success by first providing everything you need to know about starting seeds, soil, sowing, hardening off, transplanting, plugs, growing on, cutting, and saving seed. Then you'll find tips for growing over 100 different annuals from seed and 12 types of spring and summer bulbs—all based on his hands-on experience, going beyond the information available on the seed packet. Every one of the hundreds of stunning photographs is taken personally by Mattus from the flowers growing on his own farm in Massachusetts. Just a small selection of the annuals covered: aster, cornflower, chrysanthemum, impatiens, larkspur, California poppy, delphiniums, sunflowers, morning glory, kiss-me-over-the-garden-gate, salvia, and zinnia. The bulbs are allium, anemone, ranunculus, fritillaria, freesia, tulips, lily of the valley, true lilies, canna, calla, gladiolus, and dahlia. In short, there is nothing ordinary about this book—it is unlike any other cut flower book you will find anywhere.

In *The Inviting Garden*, Allen Lacy speaks for the great number of dedicated and committed gardeners who share his passion for green and growing things and who take pleasure in all the rich satisfactions that the personal garden offers its makers. He also invites the beginner to take the plunge--to set forth on the lifelong journey that is the gardener's way of life. Gardening, Lacy explains with great eloquence and good humor, is much more than a hobby. It delights all the senses, each in its turn. It offers virtually less intellectual stimulation. It has a profound spiritual dimension, as a basis for the lifelong friendships that bind people together in the common and shared pursuit of making the earth flourish with beauty. Its joys are unlimited, for they engage its practitioners as whole persons, not partial beings. With the kind of tantalizing prose that makes you want to reach for a trowel, Allen Lacy gives us a deeply thoughtful
