### Witches Calendar 2021

AN AUSPICIOUS DEBUT EXAMINING THE CULTURE OF HAIR FROM THE RONA JAFFE FOUNDATION AWARD-WINNING CARTOONIST Hot Comb offers a poignant glimpse into Black women's lives and coming of age stories as seen across a crowded, ammonia-scented hair salon while ladies gossip and bond over the burn. The titular story "Hot Comb" is about a young girl's first perm—a doomed ploy to look cool and to stop seeming "too white" in the all-black neighborhood her family has just moved to. In "Virgin Hair" taunts of "tender-headed" sting as much as the perm itself. It's a scenario that repeats fifteen years later as an adult when, tired of

the maintenance, Flowers shaves her head only to be hurled new put-downs. The story “ My Lil Sister Lena ” traces the stress resulting from being the only black player on a white softball team. Her hair is the team curio, an object to touched, a subject to be discussed and debated at the will of her teammates, leading Lena to develop an anxiety disorder of pulling her own hair out. Among the series of cultural touchpoints that make you both laugh and cry, Flowers recreates classic magazine ads idealizing women ’ s needs for hair relaxers and product. “ Change your hair form to fit your life form ” and “ Kinks and Koils Forever ” call customers from the page. Realizations about race, class, and the imperfections of identity swirl through Flowers ’ stories and ads, which are by turns sweet, insightful, and heartbreaking. Flowers began drawing comics while earning her PhD, and her early mastery of sequential storytelling is nothing short of sublime. Hot Comb is a propitious display of talent from a new cartoonist who has already made her mark.

## Hot Comb

An exploration of the historical origins of the “ witches ’ ointment ” and medieval hallucinogenic drug practices based on the earliest sources • Details how early modern theologians demonized psychedelic folk magic into “ witches ’ ointments ” • Shares dozens of psychoactive formulas and recipes gleaned from rare manuscripts from university collections all over the world as well as the practices and magical incantations necessary for their preparation • Examines the practices of medieval witches like Matteuccia di Francisco, who used hallucinogenic drugs in her love potions and herbal preparations In the medieval period preparations with hallucinogenic herbs were part of the practice of veneficium, or poison magic. This collection of magical arts used poisons, herbs, and rituals to bewitch, heal, prophesy, infect, and murder. In the form of psyche-magical ointments, poison magic could trigger powerful hallucinations and surrealistic dreams that enabled direct experience of the Divine. Smearred on the skin, these entheogenic ointments were said to enable witches to commune with various local goddesses, bastardized by the Church as trips to the Sabbat--clandestine meetings with Satan to learn magic and participate in demonic orgies. Examining trial records and the pharmacopoeia of witches, alchemists, folk healers, and heretics of the 15th century, Thomas Hatsis details how a range of ideas from folk drugs to ecclesiastical fears over medicine women merged to form the classical “ witch ” stereotype and what history has called the “ witches ’ ointment. ” He shares dozens of psychoactive formulas and recipes gleaned from rare manuscripts from university collections from all over the world as well as the practices and magical incantations necessary for their preparation. He explores the connections between witches ’ ointments and spells for shape shifting, spirit travel, and bewitching magic. He examines the practices of some Renaissance magicians, who inhaled powerful drugs to communicate with spirits, and of Italian folk-witches, such as Matteuccia di Francisco, who used hallucinogenic drugs in her love potions and herbal preparations, and Finicella, who used drug ointments to imagine herself

transformed into a cat. Exploring the untold history of the witches' ointment and medieval hallucinogen use, Hatsis reveals how the Church transformed folk drug practices, specifically entheogenic ones, into satanic experiences.

### The Witches' Almanac: Issue 38, Spring 2019 to Spring 2020

Harness the transformative power of night dreams, half-awake dreams, and daydreams for healing, manifestation, and insight • Examines the types of dreams we have and how to remember and interpret them • Offers techniques for using night dreams and liminal dreams to improve our health and well-being and for manifesting our dreams in reality • Provides techniques for using daydreams for healing, insight, and creativity • Explains how dream techniques can be used to influence the behavior of people, things, and nature in the waking world Dreams can change our lives in profound and tangible ways. In this guide to mastering the art of dreaming, Serge Kahili King, Ph.D., explores techniques to harness the power of dreams for healing, transformation, and changing your experience of reality. Drawing on his analysis of more than 5,000 of his own dreams as well as those of students and clients from his almost 50 years of clinical work, King examines the types of

night dreams we have, how to remember them better, how to make use of them to improve our health and well-being, and how to interpret them. He explores how dreams are understood in neuroscience and psychology, in Native American and Aboriginal cultures, in indigenous Senoi dream theory, and in India, Tibet, Hawaii, and Africa as well as ancient Egypt, Greece, and China. He examines the power of liminal dreams--those experienced in the half-awake state before or after sleep--for manifestation and self-understanding. He offers techniques for enhancing the dream experience for both night dreams and liminal dreams, along with practical methods to induce lucid (conscious) dreaming and to create healing thoughtforms. King then explores daydreams in depth, including fantasy, guided imagery, meditation, visions, and remote viewing and provides techniques for using daydreams for healing, insight, and creativity. He divides daydreaming into two categories, defining "active daydreaming" as the scripted dream in which you envision a goal happening and "passive daydreaming" as allowing ideas and memories to arise spontaneously from the depths of the mind. Reflecting on how dreamlike our daily experience is, King shows that each of us can use dreams as tools for seeing the world differently and influencing the behavior of people, things, and nature.

Llewellyn's 2021 Sabbats Almanac

History is not made by kings, politicians, or a few rich individuals—it is made by all of us. From the temples of ancient Egypt to spacecraft orbiting Earth, workers and

ordinary people everywhere have walked out, sat down, risen up, and fought back against exploitation, discrimination, colonization, and oppression. Working Class History presents a distinct selection of people's history through hundreds of "on this day in history" anniversaries that are as diverse and international as the working class itself. Women, young people, people of color, workers, migrants, indigenous people, LGBTQ people, disabled people, older people, the unemployed, home workers, and every other part of the working class have organized and taken action that has shaped our world, and improvements in living and working conditions have been won only by years of violent conflict and sacrifice. These everyday acts of resistance and rebellion highlight just some of those who have struggled for a better world and provide lessons and inspiration for those of us fighting in the present. Going day by day, this book paints a picture of how and why the world came to be as it is, how some have tried to change it, and the lengths to which the rich and powerful have gone to maintain and increase their wealth and influence.
