Tilly The White-Liver Woman

87-year-old Aruban Isaac Chin observes and writes--stories of the Caribbean. About Tilly, plus John-

John (as in "Three Days in the Life of John-John"), plus a panoply of characters, of all colors and persuasions.

Anne and Tilly

Since their invention by Westerners in the 18th century, social movements became vehicles of popular politics across the world. Tilly provides rich insights into the origins of contemporary movement practices, social movements & democratisation, & likely futures.

Social Movements, 1768-2004

Why? is a book about the explanations we give and how we give them--a fascinating look at the way the reasons we offer every day are dictated by, and help constitute, social relationships. Written in an easy-to-read style by distinguished social historian Charles Tilly, the book explores the manner in which people claim, establish, negotiate, repair, rework, or terminate relations with others through the reasons they give. Tilly examines a number of different types of reason giving. For example, he shows how an air traffic controller would explain the near miss of two aircraft in several different ways, depending upon the intended audience: for an acquaintance at a cocktail party, he might shrug it off by saying "This happens all the time," or offer a chatty, colloquial rendition of what transpired; for a colleague at work, he would venture a longer, more technical explanation, and for a formal report for his division head he would provide an exhaustive, detailed account. Tilly demonstrates

that reasons fall into four different categories: Convention: "I'm sorry I spilled my coffee; I'm such a klutz." Narratives: "My friend betrayed me because she was jealous of my sister." Technical cause-effect accounts: "A short circuit in the ignition system caused the engine rotors to fail." Codes or workplace jargon: "We can't turn over the records. We're bound by statute 369." Tilly illustrates his topic by showing how a variety of people gave reasons for the 9/11 attacks. He also demonstrates how those who work with one sort of reason frequently convert it into another sort. For example, a doctor might understand an illness using the technical language of biochemistry, but explain it to his patient, who knows nothing of biochemistry, by using conventions and stories. Replete with sparkling anecdotes about everyday social experiences (including the author's own), *Why?* makes the case for stories as one of the great human inventions.

Tilly Takes A Try

"Tilly is not an ordinary goose. She takes her baths in apple juice. She wears a pancake as a hat. She tries to ride the farmer's cat." But the barnyard animals complain that she's too silly. When she stops entertaining her friends with her antics, the farm becomes a quiet and unhappy place. David Slonim's acrylic, pencil, and ballpoint pen illustrations add to the hilarity in this story about a one-of-a-kind silly goose.

Tilly the Goat Princess

Meet Princess Chantilly Lace, better known as Tilly. She has quite a personality! She may be a bit prissy, but the other goats -- and her owner -- enjoy the fun and femininity she adds to the herd. If you ever see a goat traipsing around with pink hooves and pearls, it just might be Tilly!

The Battle Abbey Roll

“Trees are sanctuaries. Whoever knows how to speak to them, whoever knows how to listen to them, can learn the truth. They do not preach learning and precepts, they preach undeterred by particulars, the ancient law of life.” —Hermann Hesse

Tilly’s Tree begins with the birth of a baby girl. To honor her life and teach her to connect with all living things, Grandpa planted a tree. —Excerpt from Tilly’s Tree

Tilly and her tree grow through life together as Grandpa teaches Tilly to have compassion for all living things. One day, Tilly arrives home to find her Mom waiting to share the sad news that Grandpa passed on. Together, they find comfort under Tilly’s tree. After a reflective summer under her tree, Tilly is awakened to the connections between all living things and to her own greater purpose, just as Grandpa had intended. Tilly grows up to become an arborist in a forest where she cares for many trees. She meets a special person in the forest that shares her connection to all living things. They marry under Tilly’s tree. Moments before her ceremony: She closed her eyes and saw herself as a child there. She heard Grandpa’s voice in the rustling leaves and felt his gentle kiss through the breeze on her cheek. Tilly heard her own laughter swirling through the branches above. She remembered the hours of quiet and

stillness and those miraculous moments when she was awakened with an understanding that she was a part of everything that existed in the world. Tilly's heart opened wide from all the love and sacred gifts that had been shared under her special tree.

—Excerpt from Tilly's Tree Sometime later, Tilly gives birth to a baby girl, and the story comes full circle to repeat this family's tradition of honoring the birth of a child.

Read Book Tilly

Identities, Boundaries and Social Ties offers a distinctive, coherent account of social processes and individuals' connections to their larger social and political worlds. It is novel in demonstrating the connections between inequality and de-democratization, between identities and social inequality, and between citizenship and identities. The book treats interpersonal transactions as the basic elements of larger social processes. Tilly shows how personal interactions compound into identities, create and transform social boundaries, and accumulate into durable social ties. He also shows how individual and group dispositions result from interpersonal transactions. Resisting the focus on deliberated individual action, the book repeatedly gives attention to incremental effects, indirect effects, environmental effects, feedback, mistakes, repairs, and unanticipated consequences. Social life is complicated. But, the book shows, it becomes comprehensible once you know how to look at it.
