A crucial text in the development of François Laruelle's oeuvre and an excellent starting point for understanding his broader project, *Philosophies of Difference* offers a theoretical and critical analysis of the philosophers of difference after Hegel and Nietzsche. Laruelle then uses this analysis to introduce a new theoretical practice of non-philosophical thought. Rather than presenting a narrative historical overview, Laruelle provides a series of rigorous critiques of the various interpretations of difference in Hegel, Nietzsche and Deleuze, Heidegger and Derrida. From Laruelle's innovative theoretical perspective, the forms of philosophical difference that emerge appear as variations upon a unique, highly abstract structure of philosophical decision, the self-posing and self-legitimizing essence of philosophy itself. Reconceived in terms of philosophical decision, the seemingly radical concept of philosophical difference is shown to configure rather the identity of philosophy as such, which thus becomes manifest as a contingent and no longer absolute form of thinking. The way is thereby opened for initiating a new form of thought, anticipated here with the development of a key notion of non-philosophy, the Vision-in-One.

Delay, Denial and Dilution

The Spanish missions of California have long been misrepresented as places of benign and peaceful coexistence between Franciscan friars and California Indians. In fact, the mission friars enslaved the California Indians and treated them with deliberate cruelty. "A Cross of Thorns" describes the dark and violent reality of Mission life. Beginning in 1769, California Indians were enticed into the missions, where they and their descendents were imprisoned for 60 years of forced labor and daily beatings. The chilling depictions of colonial cruelty in "A Cross of Thorns" are based on little known church and Spanish government archives and letters written by the founder of California's mission, Friar Junipero Serra (who advocated the whipping of Mission Indians as a standard policy), and published first-hand accounts of 18th and 19th century travelers. Tracing the history of Spanish colonization in California from its origins in Spain's 18th century economic crisis to the legacy of racism and brutality that continues today, "A Cross of Thorns" is one of the most thought-provoking books ever written on California history.

Perfectly blending a vast historical scope with intensely individual viewpoints, this stirring collection of stories brings a man-on-the-ground perspective to a huge range of military history, with stories of a quarter-century of war from nearly every corner of the earth, including Europe; the Pacific; mainland Asia; a tense confrontation in Guantanamo Bay during the Cuban Missile Crisis; POW camps in Germany, Japan, and California; and the San Joaquin Valley home front from the 1940s through the 1960s. These 72 highly individualized narratives of combat, military service, and the personal sacrifices of war--penned by ordinary San Joaquin Valley residents and buttressed with more than 100 personal photographs--bring commentaries from soldiers, sailors, airmen, marines, nurses, ambulance drivers, and civilians. In simple, direct, and authentic language, with stories both horrific and touching, "Stories of Service: Volume 2" perfectly illustrates the personal side of war.

Gil Gamesh is the only pitcher who ever tried to kill the umpire, and John Baal, The Babe Ruth of the Big House, never hit a home run sober. But you've never heard of them -- or of the Ruppert Mundys, the only homeless big-league ball team in American history -- because of the communist plot and the capitalist scandal that expunged the entire Patriot League from baseball memory. Philip Roth's richly imagined satiric narrative, *The Great American Novel*, turns baseball's status as national pastime and myth into an unfettered farce featuring heroism and perfidy, lively wordplay and a cast of characters that includes the House Un-American Activities Committee.

"I shot him in the left temple; the gun dropped from his hands; he quivered one instant, and Andy McGinnis climbed the Golden Stairs." This was Chris Evans speaking. Evans, the killer, train robber and fugitive, was describing the famous 1892 shootout at Young's cabin when he and his partner John Sontag ambushed and killed two members of a posse that was pursuing them. In *California Desperadoes*, Evans and seven other early outlaws tell their own raw stories--tales of holdups, shootouts and desperate flights from the law. Witness the cruel confessions of the ruthless gang of California bandits who murdered a whole family, men, women and children, in the opening days of the Gold Rush. Stand on the gallows with the notorious Jim Stuart as he is hanged by San Francisco vigilantes determined to retake their city from hordes of Australian convicts, robbers and killers. The ill-starred adventures of Tom Bell, Tiburcio Vasquez and Charles Dorsey will hold you spellbound as the outlaws themselves take you along the

Heroes Among Us reminds us all of the courage and dignity it takes to stand up for oneself and those around us. By chronicling such bravery, John Quiñones captures America's can-do spirit and shows that through the slightest good deed, each one of us harbors a hero within. Texas native and veteran ABC journalist John Quiñones has traveled the world and the country reporting on hundreds of stories during his illustrious career. Long ago he realized that the stories he was most attracted to had one thing in common—a shared focus on the goodness inherent in ordinary Americans. According to John, truly heroic individuals are people who make difficult choices, even in the face of danger, without giving in to fear. They don't expect fame or money for their efforts—they're just doing the right thing. They are compassionate and courageous, and our world would be a far worse place without them. They rarely get the recognition they deserve. Heroes Among Us means to change that. Along with reporting the many stories of heroes he's met, John also shares his own touching personal narrative of his rise from humble roots as the son of a laborer and a house cleaner to his life as a network anchor. His is one of the most American of stories. Heroes Among Us, in its stories of selflessness, strength and bravery, offers inspiration, ultimately challenging each of us to learn from the great deeds of our neighbors and, in turn, to follow in that same heroic spirit. This is a book to cherish, one whose wisdom will be felt for years to come.

This book, written for a general audience, features the outstanding achievements of eleven women scientists. Their scientific accomplishments are even more remarkable when one considers the many obstacles they had to overcome. While these women played an important role in Noble Prize winning projects and similar endeavors, they were often not fully credited for their crucial part in such discoveries. It is interesting to note that Lise Meitner, one of the women in this book, was nominated fourteen times for the Nobel Prize; she was passed over fourteen times! Their inspiration lives, however, serve as excellent role models for young women. Unfortunately, the lives and accomplishments of these courageous women are not that well-known today.

Ernie Davis, #44 at Syracuse University, was the first African American to win the Heisman Trophy, then recruited to the Cleveland Browns, and expected to be a running back playing in the backfield with another great African American athlete, Jim Brown. He died of acute leukemia before he could play a game in the NFL. In spite of his youth and incomplete athletic history, Ernie remained an inspiration in the hearts of everyone who met him, knew him or had seen him play. It was not for his fabulous athletic performances or his exceptional abilities that he is remembered and venerated, but for his loving nature, humility, fairness, honesty and goodness that he took a place in the hearts of everyone in his generation. How did Ernie become such a man, and touch the hearts of all in so few years, making them rethink their prejudices once and for all? This edition contains many pictures of Ernie plus a tribute to #44 President Obama.

The history of a community is preserved in three ways—through oral narratives, the written word, and visual images. Of these three, it is the visual images that provide the greatest impact. Photographs bring a sense of immediacy to the viewer. Suddenly, the past is alive—people can be seen on the streets of a city going about their lives. They may be dressed differently, the streets may not be paved, horses may be seen instead of cars. Photographs allow us to preserve, in a sense, the historical architecture of our community. Buildings, long since gone, appear to us in photographs. Their architectural details can be appreciated once more. For the few moments we view them, they exist again. A photograph may show the site the building occupied on a particular block, helping the historian to recreate a neighborhood or section of a city's historic downtown. Photographs can help to document costumes, events, and even some of the social mores of a period in history. The photographer plays an important role in

capturing the essence of a city. The arrival of photographer Claude C. "Pop" Laval in Fresno in 1911, marked the beginning of a commercial photography career that would span fifty-five years. During this time "Pop" Laval took pictures of mountains, crops, businesses, streetcars, presidents, streetscapes, and ordinary people. Although his photos of Fresno comprised the largest part of his work, he also covered other Valley communities from Stockton to Bakersfield. At the time of his death, in 1966, he left a body of photographic work that is priceless. He left a photographic record of Fresno that covered the years of Fresno's greatest growth. The Laval photographs have given the people of Fresno and the Valley an opportunity to view their historic community. —From the foreword to *Early Valley Treasures*, by Catherine Morison Rehart, author of *The Valley's Legends & Legacies*

Discovering a long-buried 1878 treaty with an obscure Indian tribe, the Hawk, a.k.a. Their outraged opposition will be no less than the CIA, the Pentagon, and the White House. And this is the biggest hurdle a small business owner will face in growing the business. Common difficulties include finding a good fit for the growing enterprise; matching skill level with affordability; employee "management by abdication" issues; and the nightmare of compliance with regard to tax payment and reporting requirements. This book will provide a step-by-step guide to finding and keeping the right people. It provides suggestions on structuring the job, advertising and interviewing, creating job descriptions, and reviewing and rewarding team members.
