For readers of Jon Krakauer and Douglas Preston, the critically acclaimed author and journalist Jon Billman's fascinating, in-depth look at people who vanish in the wilderness without a trace and those eccentric, determined characters who try to find them. These are the stories that defy conventional logic. The proverbial vanished without a trace incidences, which happen a lot more (and a lot closer to your backyard) than almost anyone thinks. These are the missing whose situations are the hardest on loved ones left behind. The cases that are an embarrassment for park superintendents, rangers and law enforcement charged with Search & Rescue. The ones that baffle the volunteers who comb the mountains, woods and badlands. The stories that should give you pause every time you venture outdoors. Through Jacob Gray's disappearance in Olympic National Park, and his father Randy Gray who left his life to search for him, we will learn about what happens when someone goes missing. Braided around the core will be the stories of the characters who fill the vacuum created by a vanished human being. We'll meet eccentric bloodhound-handler Duff and R.C., his flagship purebred, who began trailing with the family dog after his brother vanished in the San Gabriel Mountains. And there's Michael Neiger North America's foremost backcountry Search & Rescue expert and self-described "bushman" obsessed with missing persons. And top researcher of persons missing on public wildlands Ex-San Jose, California detective David Paulides who is also one of the world's foremost Bigfoot researchers. It's a tricky thing to write about missing persons because the story is the absence of someone. A void. The person at the heart of the story is thinner than a smoke ring, invisible as someone else's memory. The bones you dig up are most often metaphorical. While much of the book will embrace memory and faulty memory -- history -- The Cold Vanish is at its core a story of now and tomorrow. Someone will vanish in the wild tomorrow. These are the people who will go looking.

Two FBI Agents missing in action. A relentless investigator driven by a sense of justice. Can Agent Karen Clark unravel the mystery? This is a murder mystery that grows into a much larger tale of intrigue and suspense. The story takes place in North-western Montana, Big Sky country. This part of America is renowned for its wide-open spaces and modest way of life. Most people live close to the land. Some of the key characters in this story are cattle ranchers. Modern cattle ranching is tough and demanding work, and knowledge of finance and modern methods is a key component. This difficult work creates tough individuals. Most of the people in this part of the country have libertarian leanings. Many on the left call that conservative, as if conservative thought is something evil. It is not. It is about respect for themselves and caring about the people around them. The basic ideas of conservative or libertarian thought is that of individual freedom, rights, responsibilities, and desires. Each to live their own life however they choose. From that toughness comes a fear of failing, and an unwillingness to accept defeat. That's what happens to the Kimble Ranch, when financial failures and mismanagement drive the ranch close to financial disaster, and to one brother, it seems like there is only one way out. When two FBI field agents go missing in the area, Agent Karen Clark is assigned to the case. Circumstances force her to resort to the most basic levels of investigation, in order to get any help in solving this case. Does her strategy result in success? During the first half of this century, motion pictures were often considered disposable once their circulations were over. The recycling of used film and the use of components for war efforts contributed to the loss of many movies, as did the unstable nature of the nitrate film itself. The loss of extant works has created gaps in the national cinematic history of the United States and most European countries. Eighty percent of all Western-made films produced before World War I are considered lost, while 15 percent of the films made from 1930 to 1950 are also missing. Here are descriptions of nearly 1,000 of the lost American and European films produced between 1900 and 1950, featuring the talents of the still famous as well as the now obscure. The films are arranged by country and reveal the remarkably prolific early filmmaking in countries like the Netherlands and Sweden. Each entry includes production information, cast, synopsis, history, and insights from reviews when available. Photographs from these films provide glimpses of what once was. An extensive index is included.

The Cold Vanish

An Idyl of Work

Dating from the early decades of the third century C.E., the Ainkurunuru is believed to be the world's earliest anthology of classical Tamil love poetry. Commissioned by a Cera-dynasty king and composed by five masterful poets, the anthology illustrates the five landscapes of reciprocal love: jealous quarreling, anxious waiting and lamentation, clandestine love before marriage, elopement and love in separation, and patient waiting after marriage. Despite its centrality to literary and intellectual traditions, the Ainkurunuru remains relatively unknown beyond specialists. Martha Ann Selby, well-known translator of classical Indian poetry and literature, takes the bold step of opening this anthology to all readers, presenting crystalline translations of 500 poems dense with natural imagery and early examples of South Indian culture. Because of their form's short length, the anthology's five authors rely on double entendre and sophisticated techniques of suggestion, giving their poems an almost haikulike feel. Groups of verse center on one unique figure, in some cases an object or an animal, in others a line of direct address or a specific conversation or situation. Selby introduces each section with a biographical sketch of the poet and the conventions at work within the landscape. She then incorporates notes explaining shifting contexts. Excerpt: He has gone off all by himself beyond the wastes where tigers used to prowl and the toothbrush trees grow tall, their trunks parched, on the flinty mountains, while the lovely folds of your loins, wide as a chariot's seat, vanish as your circlet worked from gold grows far too large for you.

### Hillbillyland

The stereotypical hillbilly figure in popular culture provokes a range of responses, from bemused affection for Ma and Pa Kettle to outright fear of the mountain men in *Deliverance*. In *Hillbillyland*, J. W. Williamson investigates why hillbilly images are so pervasive in our culture and what purposes they serve. He has mined more than 800 movies, from early nickelodeon one-reelers to contemporary films such as *Thelma and Louise* and *Raising Arizona*, for representations of hillbillies in their recurring roles as symbolic 'cultural others.' Williamson's hillbillies live not only in the hills of the South but anywhere on the rough edge of society. And they are not just men; women can be hillbillies, too. According to Williamson, mainstream America responds to hillbillies because they embody our fears and hopes and a romantic vision of the past. They are clowns, children, free spirits, or wild people through whom we live vicariously while being reassured about our own standing in society.

Each Day with Jesus

The Zimbabwean writer, Dambudzo Marechera, was regarded by some as mad and by others as a genius. Today, ten years after his death, his international reputation continues to grow not only as one of the most innovative writers Africa has produced but as an important voice in twentieth-century literature. This new book is the first collection of critical essays devoted entirely to Marechera. Flora Veit-Wild and Anthony Chennells have brought together the work of scholars from Zimbabwe, South Africa, Italy, Nigeria, Germany and England to show the complexity and variety of responses which Marechera's writing evokes. Although he was impatient at the label African Writer, finding it prescriptive and constraining, Marechera engaged with Africa in everything which he wrote. He raged at the racism of the Rhodesia into which he was born and the arrogance, corruption and self-serving cultural nationalism of so many of Africa's post-independence governments: several essays draw attention to the political dimensions of his work. Above all, essay after essay demonstrate how Marechera's was an art directed towards the healing of society and individuals, both in Africa and throughout the world.
