Waking the Tiger

SET IN THE MEDITERRANEAN WORLD OF BIBLICAL TIMES, *PLIGHT OF THE LIONS* begins one night when Akiva, a young runaway, inadvertently stumbles into the rabbi Yeshua on the night he is arrested on the Mount of Olives. The chance encounter changes his life forever. Years later the streets of Rome are filled with political betrayal, murder and unrest under Nero. Across the Great Sea Jerusalem is on the brink of chaos under Roman rule. Its citizens are doing all that they can to prepare for certain doom. It is amid this world that Tessius Trulius, a Roman boy, and Farrenthias Theophilus, a Greek boy, arrive at Clivus. Hidden deep in the mountains of Armenia, Clivus is occupied by priests who study and translate sacred scrolls that they have gathered throughout the world. Trulius and Farrenthias spend most of their youth at Clivus, and although very different in character, they form a friendship that bonds them for life. Eventually, they must leave Clivus. Trulius sets

out in search of his father who has been wrongly convicted of murder. At first, Farrenthias accompanies Trulius and then goes his separate way on a quest to search for Akiva and discover what Akiva uncovered and wrote about the life of Yeshua. Follow their lives and the lives of the other men and women who make up Plight of the Lions!

The Lion and the Bird

- The stunning fourth book in the Remembering Wildlife charity series - The aim of the creators is to make the most beautiful photographic book ever seen on a species and to use that to raise awareness of the plight facing that animal and also funds to protect it - Features images generously donated by many of the world's top wildlife photographers (including six overall winners of Wildlife Photographer of the Year) - All profits from the sale of this book will be donated to projects working to protect lions in Africa The history of lions has been entwined with mankind for millions of years and they are surely the most celebrated of all animals. But, thanks to that same mankind who professes to revere them, their numbers have declined by half in the last quarter of a century alone. Wild lions are now just found in sub-Saharan Africa and a small pocket in India, with only around 20,000 left. The rapid reduction in the number of lions is one of the least-known stories in conservation, because their slaughter often happens out of sight. This book aims to open the eyes of the world to their plight before it's too late. Remembering Lions is the fourth book in the Remembering Wildlife fundraising series, which has so far raised more than USD \$800,000 for conservation. The aim of the creators is to make the most beautiful book ever seen on a species and use that to raise awareness of the plight facing that animal and funds to protect it. Each book is full of images generously donated by many of the world's top wildlife photographers. All profits from the sale of this book will be donated to projects working to protect lions in Africa.

Three Floors Up

The compelling and timely new novel by the author of One Night, Markovitch Dr Eitan Green is a good man. He saves lives. Then, speeding along a deserted moonlit road in his SUV after an exhausting hospital shift, he hits someone. Seeing that the man, an

African migrant, is beyond help, he flees the scene. It is a decision that changes everything. Because the dead man's wife knows what happened. And when she knocks at Eitan's door the next day, tall and beautiful, holding his wallet, he discovers that her price is not money. It is something else entirely, something that will shatter Eitan's safe existence and take him into a world of secrets and lies he could never have anticipated. *Waking Lions* is a gripping, suspenseful and morally devastating drama of guilt and survival, shame and desire. It looks at the darkness inside all of us to ask: what would we do? What are any of us capable of? Ayelet Gundar-Goshen was born in Israel in 1982 and holds an MA in Clinical Psychology from Tel Aviv University. Waking Lions

To the casual observer, the Antarctic ice may look like a lifeless world of white with nothing but sky and frozen matter for months. At an average elevation of 12,000 feet, the visual monotony could seem underwhelming. To the contrary, Antarctica's ice sheet is a powerful entity, alive and dynamic. It is up to 3 million years old; its mass is constantly and unperceptively moving, finally calving to the sea. Deep in the heart of the continent, it is the variations in cloud cover or the details of the terrain that provide Antarctica's

unique photographic opportunity. The only features are ones left by the wind on the ice or the clouds in the sky. In contrast to the interior desert, the coast teems with life, indigenous and resilient to the harshest winters. It is the dominion of whales, birds, penguins, and seals, which evolved, until recently, outside of human contact. "My research there gave me a deeper perspective of the subtle variations taking place at the hands of climate change," says Copeland. "The images I bring back tell the story of a changing environment that spells the oncoming redrawing of the world's map, and all that it implicates."

"A writer tries to answer a set of interview questions sent to him by a website. At first, they stick to the standard fare: Did you always know you would be a writer? How autobiographical are your books? Have you written any stories you would never publish? Usually his answers in these situations are measured, calculated,

cautious. But this time, when his heart is about to break and his life is about to crumble, he finds he cannot tell anything but the truth. The naked, funny, sad, scandalous, politically incorrect truth. Every question the writer tackles opens a door to a hidden room of his life. And each of his answers reveals that at the heart of every truth, there is a lie--and vice versa"--Provided by publisher.

The Challenge Before You Is a Bold One: To Accept the Wild, Daring Adventure of Becoming a Man We want to be self-sufficient. Find our own direction as we pursue our dreams. Know it all and never ask for help. Isn't this how most guys approach manhood? On our own, pretending we are doing better than we really are? But sooner or later the thrill of independence gets lost in the fog of isolation. It's time to take the pressure off. We were never meant to figure life out on our own. This book was born out of a series of weekly phone calls between Sam Eldredge, a young writer in his twenties, and his dad, best-selling author John Eldredge. Join the conversation as a father and son talk about pursuing beauty, dealing with money, getting married, chasing dreams, knowing something real with God, and how to find a life you can call your own. Killing Lions is more than fatherly advice. It is an invitation into a journey: either to be the son who receives

fathering or the father who learns what must be spoken. Most important, these conversations speak to a searching generation: “You are not alone. Its not all up to you. You are going to find your way.”

LONGLISTED FOR THE 2017 BAILEYS WOMEN'S PRIZE FOR FICTION Ginger is in her forties and a recovering alcoholic when she meets and marries Paul. When it becomes clear it's too late for her to have a baby of her own, she tries to persuade him to consider adoption, but he already has a child from a previous marriage and is ten years older than her, so doesn't share her longing to be a parent at any cost. As a compromise, they sign up to an organisation that sends poor inner-city kids to stay with country families for a few weeks in the summer, and so one hot July day eleven year old Velveteen Vargas, a Dominican girl from one of Brooklyn's toughest neighbourhoods, arrives in their lives, and Ginger is instantly besotted. Bemused by her gentle middle-aged hosts, but deeply intuitive in the way of clever children, Velvet quickly senses the longing behind Ginger's rapturous attention. While Velvet returns her affection, she finds the intensity of it bewildering. Velvet's own passions are more excited by the stables nearby, where she discovers she has a natural talent for riding and a deep affinity with the damaged horses cared for there. But when Ginger begins to entertain fantasies of adopting her, things start to get complicated for everyone involved. This is a heartbreakingly honest and profoundly moving portrait of the nearly unbridgeable gaps between people, and the way we long for fairytale endings despite knowing that they don't exist.

Each poem has a vivid story to tell – of family quirks, the perils of dating, the grip of religion or sexual awakening – stories that are, by turn, emotionally insightful, politically conscious, wise, funny and outrageous. Long reveals herself as a razor-sharp and original voice on the issues of sexual politics and cultural inheritance that polarize our current moment. But it's her refreshing commitment to the power of the individual poem that will leave the reader turning each page in eager anticipation: here is an immediate, wide-awake poetry that entertains royally, without sacrificing a note of its urgency or remarkable skill.

Beautiful. -Recommended by Tân, City Lights Books A man drives his truck up to a cliff's edge. Unable to go any further, he opens the back door of his truck and a flock of birds flies out, but, as the man soon discovers, a small timid bird remains. Surprised and delighted, the man acts kindly towards the bird and an intimacy develops. After lunch, the man tries to show the bird that he should fly off and join his friends. The man's comic attempt at flight deepens the encounter between these two very different creatures. Soon the bird flies off and the man drives away, but in a surprise twist the bird and his friends return, and in a starkly lyrical moment we see them all experience something entirely new. The Handbook of Incarceration in Popular Culture will be an essential reference point, providing international coverage and thematic richness. The chapters examine the real and imagined spaces of the prison and, perhaps more importantly, dwell in the uncertain space between them. The modern fixation with 'seeing inside' prison from the outside has prompted a proliferation of media visions of incarceration, from high-minded and worthy to voyeuristic and unrealistic. In this handbook, the editors bring together a huge breadth of disparate issues including women in prison, the view from 'inside', prisons as a source of entertainment, the real worlds of prison, and issues of race and gender. The handbook will inform students and lecturers of media, film, popular culture, gender, and cultural studies, as well as scholars of criminology and justice.

Leveled Books (K-8)

Was there a meaningful stellar sign over Bethlehem? What did it look like to someone looking up at the night sky? Was the star a visual guide or a simply sign? Did wise men really come from the East seeking Israel's Messiah sometime after the birth of Jesus? The biblical account of the wise men and the star that announced the coming of the Messiah of Israel has inspired and puzzled people for two millennia. Important aspects of Babylonian astronomy seem to be involved in understanding the star's appearing. But in addition, *The Lion Led the Way* also explores the men and events from a profoundly Jewish perspective. The traditional Jewish names of stars and planets, Jewish symbols, as well as Jewish dates, all seem to be keys to unlocking the mystery of the famous star. The star of Bethlehem was not the brightest of the heavenly lights, nor was it the most spectacular starry manifestation of all time. However, it was part of the most meaningful set of celestial events in human history. The God of Israel is surprising. His ways are not our ways; his thoughts are not our thoughts. The star gives us a concrete example of God's intervention in the universe. Who were the biblical Magi? Various wise men were important in the history of the vast region to the east of Judaea. Zoroastrian, Babylonian, Greek and even Jewish wise men all played a role there in several successive empires. A possible Jewish connection with the story of the biblical wise men has been long neglected. The Magi who arrived in Bethlehem seem to have been influenced by Judaism. They apparently understood at least part of the meaning of Daniel's

sixth-century BC prophecy concerning the 70 “sevens.” The prophecy has to do with time. The Babylonian astronomers were uniquely qualified to perceive the connection between time and the heavens. Based on their knowledge and the ancient biblical texts, they saw how the “sevens” were related to the birth of the Messiah. The Magi were seeking God’s kingdom centered on the Messiah, the Righteous One. Jesus, who was born in Bethlehem, is still making himself known. His ways are as mysterious as ever, and his humility is unsurpassed. The third edition of *The Lion Led the Way* contains about 45 pages of new material. Book website: www.star-of-bethlehem.info
