Everything You Need to Know to Start Working With Magical Herbs Today The world of plant life holds limitless possibilities for any Witch willing to learn its secrets. While the trees, shrubs, flowers and "weeds" we see all around us may seem ordinary to the novice, they are actually very potent tools of magic. The inherent magical power of herbs comes directly from the source of all creation, and it has the potential to transform our lives. For Wiccans, herbal magic keeps us literally in touch with the energies of the Earth, along with the Sun, the rain, the wind, and every living thing that sustains the cycle of life and death in all of its forms. When used wisely, herbs can help us create what we desire, in matters of love, health, wealth, and more. Of course, working with herbs is a tradition much older than any known form of Wicca or other Witchcraft. Since the beginning of human history, healers, shamans, and other medicine people have understood the nutritional, medicinal, and magical properties of herbs. Now, Lisa Chamberlain brings this knowledge to modern Wiccans, Witches, and others who are interested in practicing this diverse form of natural magic. Whether you're well-practiced in other forms of magic but are just discovering herbs, or new to magic altogether, Herbal Magic provides an excellent place to begin your magical journey. Many books on magical herbs contain extensive lists of ingredients that may be expensive, difficult to find, or both. Unless you already have a well-stocked herb pantry, trying to decide where to start can be overwhelming. In addition, some books provide spells that call for just a pinch of a rare herb you have to order online, which can be rather inefficient-especially if the herb only

If you want to start your journey in Wiccan beliefs and discover the power of magical herbs, then keep reading Welcome to the world of Wiccan witchcraft! As a new witch or a practicing witch that is new to herbal magic, you are about to embark on a journey to natural discovery and unimaginable power. After all, nature was around far longer than humans, and it possesses a power that we can "tap" into, with the only limitation being your imagination. Witchcraft has been around for centuries, and Wicca is a subset or religion based on this ancient practice. Unlike common misconceptions of witches, Wiccan witches are "white" or "good" witches. History and media have done a fantastic, albeit false, image of a witch. When you think of this term, you may imagine being an old woman, with a wart on her nose, stirring a bubbling and smoking black pot with a twitching broom in the background. Some of the symbolism in the movies and television shows is relevant to witchcraft, it is not entirely an accurate portrayal of what it is like to be a Wiccan witch. Do you recognize the witch-terms "eye of newt" or "dead man's toes?" Well, those are the items you will see listed in a witch's spell, but do you know what those really are? Herbs! The spells that you may have heard in movies or television, or just whispered on the playground as a child, are mostly founded in herbalism. And more precisely, they are based on working with nature to harness the power and bring about positive influence. If this intrigues you and you want to learn more about herbal magic than it is time to read on! Some of the highlights of this book include; An introduction to what it is like to be a real Wiccan witch in modern times. A review
