Occupational Employment Patterns in Women's Intercollegiate Athletics

The ACC's first 50 years tells the story of the Atlantic Coast Conference from its inception until 2002. The story will show the people and the politics behind the creation of one of the nation's most successful collegiate sports leagues. The athletes and coaches who have been so successful weave a thread throughout the book, but so will the ongoing tension between academics and athletics that has been a part of this conference from the beginning. And the book will also take a look at the impact our society and its struggles have had on the conference and athletics, such as the integration of the 1960s and 1970s and the effect of the African-American athlete on college sports and the ACC

Sidestepping the inflated egos and scandal that have infiltrated many men's sports, college female softball players exhibit power and grace on the field as well as camaraderie, high achievement and vulnerability off the field. This balance not only makes the game compelling to watch, but it also elevates women's softball as an aspirational model for other sports. Focusing on the 2018 season, this book explores gender performance and sexuality in softball, how the influx of money from the sport's growth has reshaped expectations of success, and traditional media coverage of women's sports.

Congressional Record

Mississippi University for Women was a pioneer in the Southeast Region as well as the State of Mississippi in encouraging, promoting, and sponsoring intercollegiate athletics for women. The programs were always of the highest quality and conducted with integrity. The students and coaches involved were dedicated and committed to their respective sport. Loss of the Physical Education Assembly Building, destroyed by a tornado in 2002, and the subsequent decision (2003) by the university to cease participation in intercollegiate athletics prompted the writing of this book. Physical resources and historical records had been destroyed. Concern that the knowledge of this program would be lost along with its significance to the university alumnae, and womens sport history, challenged five retired Health and Kinesiology faculty members to write this book. They knew that their collective knowledge and experiences were invaluable in recording a century of athletic competition at the W. These women promoted the educational model of sport believing that the opportunity to participate in sports brings both value and pleasure to the quality of life.

Triumphant wins, gut-wrenching losses, last-second shots, underdogs, competition, and loyalty—it's fun to be a fan. But when a football player takes a hit to the head after yet another study has warned of the dangers of CTE, or when a team whose mascot was born in an era of racism and bigotry takes the field, or when a relief pitcher accused of domestic violence saves the game, how is one to cheer? Welcome to the club for sports fans who care too much. In *Loving Sports When They Don't Love You Back*, acclaimed sports writers Jessica Luther and Kavitha A. Davidson tackle the most pressing issues in sports, why they matter, and how we can do better. For the authors, "sticking to sports" is not an option—not when our taxes are paying for the stadiums, and college athletes aren't getting paid at all. But simply quitting a favorite team won't change corrupt and deplorable practices, and the root causes of many of these problems are endemic in our wider society. An essential read for modern fans, *Loving Sports When They Don't Love You Back* challenges the status quo and explores how we might begin to reconcile our conscience with our fandom.
