Latin America and the First World War

This is a history of military psychiatry in the twentieth century. Both absorbing historical narrative and intellectual detective story, it weaves literary, medical, and military lore to give us a fascinating history of war neuroses and their treatment, from the World Wars through Vietnam and up to the Gulf War.

War and Citizenship

DK Eyewitness World War 1 is an exciting and informative guide to the Great War that centred on Europe between 1914-1918. Stunning real-life photographs, illustrating the people, places and stories, offer a unique "eyewitness" view of the conflict dubbed the 'war to end all wars'. From disaster to

victory, show your child what life was like as a soldier and how they survived in the muddy trenches. They'll also discover all about the world-changing events that led to the start of the conflict. Great for projects or just for fun, make sure your child learns everything they need to know about World War I. Find out more and download amazing clipart images at www.dk.com/clipart.

The Red Army and the Second World War

This second volume in the landmark series about WWII begins with the Allied invasion of Europe and ends with atomic bombs on Hiroshima and Nagasaki. Here are some of the war's most dramatic moments: the use of V-weapons by the Nazis to maximize civilian casualties; D-Day and the battle for Normandy; the Battle of the Bulge, which broke Axis power in the West; and the brutal race to Berlin that finally extinguished the Third Reich.

Paris Fashion and World War Two

Published to commemorate the 70th anniversary of World War II, this completely new account of one of the deadliest conflicts in history opens with the buildup of hostility leading up to the war and concludes with the war's impact on modern history. 1,200 photos.

The Thirty Years War

Discusses the events that lead to World War I.

The First World War

With more than 1,700 cross-referenced entries covering every aspect of World War II, the events and developments of the era, and myriad related subjects as well as a documents volume, this is the most comprehensive reference work available on the war. • Provides a clear understanding of the causes of World War II, reaching back to World War I and the role of the Western democracies in its origin • Examines home front developments in major countries during the war, such as race and gender relations in the United States • Recognizes the important roles played by women in the war and describes how the United States mobilized its economy and citizenry for total war • Discusses the Holocaust and establishes responsibility for this genocide • Details the changing attitudes toward the war as expressed in film and literature

A People's History of the United States

Uncover the remarkable story of the American Revolution! Who were the Redcoats, and what was the Boston Tea Party? Explore key events like the British surrender at Yorktown, and the writing of the Declaration of Independence. Written in association with the esteemed Smithsonian Institution, this beautiful visual reference ebook will transport you back in time and onto the front lines of the American Revolution. Take chronological steps through the

American Revolution, starting with the first stirrings of colonial resistance. Learn about important events and key moments of the war that gave birth to the American republic. Meet the most memorable people from the period, from George Washington to Benedict Arnold, and explore first-person accounts by soldiers and civilians. This history ebook for children grade 7 and up gives you a complete overview of the most fascinating events during the war. This visual reference ebook also details the politics of the war and the different parts of society impacted by the events. Learn about the treatment of prisoners and the revolution's implications for women, Native Americans, and African-Americans. Dive in and explore the parts of the American Revolution you haven't yet discovered.

Mapping the Road to American Independence The American Revolution is the most significant event in American history. Without it, there would not be the United States of America. More than 240 years after the signing of the Declaration of Independence, this educational ebook demonstrates why this historical period is still so important today. Journey through the most significant events and battles: - From Resistance to Rebellion - Before 1775 - The Start of the War - 1775 - Birth of a Nation - 1776 - The Struggle for Mastery - 1777 - A Widening War - 1778 - Conflict Spreads - 1779 - The Continuing Struggle - 1780 - America Victorious - 1781-83 - Aftermath: A Stronger Nation

The American Revolution

Recent bestsellers by Niall Ferguson and John Keegan have created tremendous popular interest in World War I. In America's Great War prominent historian Robert H. Zieger examines the causes, prosecution, and legacy of this bloody conflict from a frequently overlooked perspective, that of American involvement. This is the first book to illuminate both America's dramatic influence on the war and the war's considerable impact upon our nation. Zieger's engaging narrative provides vivid descriptions of the famous battles and diplomatic maneuvering, while also chronicling America's rise to prominence within the postwar world. On the domestic front, Zieger details how the war forever altered American politics and society by creating the National Security State, generating powerful new instruments of social control, bringing about innovative labor and social welfare programs, and redefining civil liberties and race relations. America's Great War promises to become the definitive history of America and World War I.

The Great War

Demonstrates how states at war redrew the boundaries between members and non-members, thus redefining belonging and the path to citizenship.

History of Britain and Ireland

Argues that religion was not the catalyst to the Thirty Years War, but one element in a mix of political, social, and dynastic forces that fed the conflict that ultimately transformed the map of the modern world.

Eyewitness to World War II

Offering exhaustive coverage, detailed analyses, and the latest historical interpretations of events, this expansive, five-volume encyclopedia is the most comprehensive and detailed reference source on the First World War available today.

World War I

Focusing on the decisive engagements of World War I, the author explores the immense challenges faced by the commanders on all sides, looking at the changing weapons and tactics and offering his own assessment on what brought about the war's outcome.

World War II: The Definitive Encyclopedia and Document Collection [5 volumes]

This is the sixth volume in the comprehensive and authoritative series, Germany and the Second World War. It deals with the extension of a European into a global war in the period from 1941 to 1943. It focuses on the politics, strategy, and operations of the belligerent powers as Germany lost the initiative to the Allies, and it represents, both in content and in composition, the climax and turning points of the war. Series description This is the sixth in the magisterial ten-volume Germany and the Second World War series. The six volumes so far published in German take the story to 1943, and have achieved international acclaim as a major contribution to historical study. Under the auspices of the Militärgeschichtliches Forschungsamt [Research Institute for Military History], a team of renowned historians has combined a full synthesis of existing material with the latest research to produce what will be the definitive history of the Second World War from the German point of view. The comprehensive analysis, based on detailed scholarly research, is underpinned by a full apparatus of maps, diagrams, and tables. Intensively researched and documented, Germany and the Second World War is an undertaking of unparalleled scope and authority. It will prove indispensable to all historians of the twentieth century.

Germany and the Second World War

Contents: Vol.1. To arms.

World War II Map by Map

Among the many histories of fighting men and women in World War II, little has been written about the thousands of homosexuals who found themselves

fighting two wars--one for their country, the other for their own survival as targets of a military policy that sought their discharge as "undesirables." To write this long overdue chapter of American history, Allan Bérubé spent ten years interviewing gay and lesbian veterans, unearthed hundreds of wartime letters between gay GIs, and obtained thousands of pages of newly declassified government documents. While some gay and lesbian soldiers collapsed under the fear of being arrested, interrogated, discharged, and publicly humiliated, many drew strength from deep wartime friendships. Relying on their own secret culture of slang, body language, and "camp" to find each other and build spontaneous communities, they learned, both on and off the battlefield, to be proud of their contribution and of who they were.--From publisher description.

World War I

Military history is now a best-selling publishing category, and in recent years there has been a spate of enormously successful books, films and television programmes devoted to it. The First World War in Photographs showcases 400 of the best images from the Imperial War Museum's superb photographic archive, many never before published. Written by leading military historian Richard Holmes, the book presents the photographs in year-by-year chapters, covering all the great battles of the war and every theatre of operations. Dramatic, hard hitting and intensely moving, this book is a unique visual testament to the many millions of men and women who lost their lives in the war.

World War I

One of the most important questions of human existence is what drives nations to war—especially massive, system-threatening war. Much military history focuses on the who, when, and where of war; in this riveting book, Dale C. Copeland brings attention to bear on why governments make decisions that lead to, sustain, and intensify conflicts. Copeland presents detailed historical narratives of several twentieth-century cases, including World War I, World War II, and the Cold War. He highlights instigating factors that transcend individual personalities, styles of government, geography, and historical context to reveal remarkable consistency across several major wars usually considered dissimilar. The result is a series of challenges to established interpretive positions and provocative new readings of the causes of conflict. Classical realists and neorealists claim that dominant powers initiate war. Hegemonic stability realists believe that wars are most often started by rising states. Copeland offers an approach stronger in explanatory power and predictive capacity than these three brands of realism: he examines not only the power resources but the shifting power differentials of states. He specifies more precisely the conditions under which state decline leads to conflict, drawing empirical support from the critical cases of the twentieth century as well as major wars spanning from ancient Greece to the Napoleonic Wars.

World War I

1960. President Eisenhower was focused on Laos, a tiny Southeast Asian nation. Washington feared the country would fall to communism, triggering a domino effect in the rest of Southeast Asia. In January 1961, Eisenhower approved the CIA's Operation Momentum, a plan to create a proxy army of ethnic Hmong to fight communist forces in Laos. Kurlantzick shows how the brutal war lasted nearly two decades, killed one-tenth of Laos's total population, and

changed the nature of the CIA forever.

A World Undone

A major new account of the Soviet Union at war which charts the development, successes and failures of the Red Army.

The Origins of Major War

The Seven Years War was a global contest between the two superpowers of eighteenth century Europe, France and Britain. Winston Churchill called it “the first World War”. Neither side could afford to lose advantage in any part of the world, and the decisive battles of the war ranged from Fort Duquesne in what is now Pittsburgh to Minorca in the Mediterranean, from Bengal to Quèbec. By its end British power in North America and India had been consolidated and the foundations of Empire laid, yet at the time both sides saw it primarily as a struggle for security, power and influence within Europe. In this eagerly awaited study, Daniel Baugh, the world’s leading authority on eighteenth century maritime history looks at the war as it unfolded from the failure of Anglo-French negotiations over the Ohio territories in 1784 through the official declaration of war in 1756 to the treaty of Paris which formally ended hostilities between England and France in 1763. At each stage he examines the processes of decision-making on each side for what they can show us about the capabilities and efficiency of the two national governments and looks at what was involved not just in the military engagements themselves but in the complexities of sustaining campaigns so far from home. With its panoramic scope and use of telling detail this definitive account will be essential reading for anyone with an interest in military history or the history of eighteenth century Europe.

The Economics of World War I

This unique volume offers a definitive new history of European economies at war from 1914 to 1918. It studies how European economies mobilised for war, how existing economic institutions stood up under the strain, how economic development influenced outcomes and how wartime experience influenced post-war economic growth. Leading international experts provide the first systematic comparison of economies at war between 1914 and 1918 based on the best available data for Britain, Germany, France, Russia, the USA, Italy, Turkey, Austria-Hungary and the Netherlands. The editors' overview draws some stark lessons about the role of economic development, the importance of markets and the damage done by nationalism and protectionism. A companion volume to the acclaimed *The Economics of World War II*, this is a major contribution to our understanding of total war.

World War I: The Definitive Encyclopedia and Document Collection [5 volumes]

In Time of War

California's participation in World War I served as a powerful catalyst for the making of modern California. It generated significant economic and legal changes and united people in common humanitarian goals, but also caused dissension and distrust as wartime restrictions on civil liberties pitted neighbors against each other and the government.

World War II

Follow the epic 5,000-year story of warfare - from the earliest battles to the War on Terror with War - with this guided tour of every major conflict. Combining a clear and compelling historical narrative with a wealth of fascinating eyewitness accounts and photography throughout, this is the ultimate guide to the history of military conflict, from the armies of §ancient Egypt to the rise of Isis in Syria and Iraq, and the ongoing Yemeni civil war. Lavishly illustrated with paintings, photographs, artefacts, and maps, this book offers a uniquely detailed and visually rich view of all major aspects of human conflict. Whether on the bloody battlefields of the ancient world or in the modern era of drones and laser-guided missiles, this is the complete story of the wars that have shaped our world.

The Oxford Illustrated History of the First World War

From the Roman conquest of 43 CE to the Norman conquest of 1066, and from the Elizabethan age to the Iraq and Afghan wars of the 21st century, DK's History of Britain and Ireland traces the key events that have shaped Great Britain and Ireland from earliest times to the present day.

California at War

World War One was one of the bloodiest wars in modern history. At its end, it had claimed over seventeen million lives. It led to the collapse of nations, the abdication of monarchies and ended empires. Entire divisions of men perished in the pursuit of mere miles of uninhabitable wasteland—towns were pulverized and millions displaced. It became a horrendous war of attrition, each side competing to kill as many of their foe as possible. Inside you will read about ? 1914 - Blood Is Spilled ? 1915 - The Dawn Of The Industrialized War ? 1916 - Unrelenting Bloodshed ? 1917 - Revolution, Revelation and Catastrophe ? 1918 - The Great War At An End It became the first industrialized war in history and introduced revolutionary technology into the fray. The Airplane, the Tank and the Machine Gun first saw action collectively during the conflict. It was also the first war in which poison gas was used to choke young men out of their trenches. This book is a timeline account of the important events that shaped the First World War. It details the events and causes that led the world to war. This book covers the milestone moments, important battles, and how the outcome changed the world forever.

The First World War

Trace the epic history of World War 2 across the globe with more than 70 detailed maps. In this stunning visual history book, custom maps tell the story of

the Second World War from the rise of the Axis powers to the dropping of the atom bomb on Hiroshima and Nagasaki. Each map is rich with detail and graphics, helping you to chart the progress of key events of World War II on land, sea, and air, such as the Dunkirk evacuation, the attack on Pearl Harbor, the D-Day landings, and the siege of Stalingrad. Historical maps from both Allied and Axis countries also offer unique insights into the events. There are timelines to help you follow the story as it unfolds, while narrative overviews explain the social, economic, political, and technical developments at the time. Fascinating, large-scale pictures introduce topics such as the Holocaust, blitzkrieg, kamikaze warfare, and code-breaking. Written by a team of historians in consultation with Richard Overy, *World War II Map by Map* examines how the deadliest conflict in history changed the face of our world. It is perfect for students, general readers, and military history enthusiasts.

The Second World Wars

“A stunning achievement of research and storytelling” that weaves together all the major fronts of the Great War (Publishers Weekly). It was to be the war to end all wars, and it began at 11:15 on the morning of June 28, 1914, in an outpost of the Austro-Hungarian Empire called Sarajevo. It would end officially almost five years later. Unofficially, it has never ended: the horrors we live with today were born in the First World War. The Great War left millions of civilians and soldiers maimed or dead. It also left behind new technologies of death: tanks, planes, and submarines; reliable rapid-fire machine guns and field artillery; poison gas and chemical warfare. It introduced U-boat packs and strategic bombing, unrestricted war on civilians and mistreatment of prisoners. Most of all, the war changed our world. In its wake, empires toppled, monarchies fell, whole populations lost their national identities as political systems and geographic boundaries were realigned. Instabilities were institutionalized, enmities enshrined. And the social order shifted seismically. Manners, mores, codes of behavior; literature and the arts; education and class distinctions—all underwent a vast sea change. And in all these ways, the twentieth century can be said to have been born on the morning of June 28, 1914. “One of the first books that anyone should read in beginning to try to understand this war and this century.” —The New York Times Book Review

Coming Out Under Fire

This volume examines the origins and early years of the Cold War in the first comprehensive historical reexamination of the period. A team of leading scholars shows how the conflict evolved from the geopolitical, ideological, economic and sociopolitical environments of the two world wars and interwar period.

A War of Nerves

A definitive account of World War II by America's preeminent military historian World War II was the most lethal conflict in human history. Never before had a war been fought on so many diverse landscapes and in so many different ways, from rocket attacks in London to jungle fighting in Burma to armor strikes in Libya. *The Second World Wars* examines how combat unfolded in the air, at sea, and on land to show how distinct conflicts among disparate combatants coalesced into one interconnected global war. An authoritative new history of astonishing breadth, *The Second World Wars* offers a stunning

reinterpretation of history's deadliest conflict.

The Global Seven Years War 1754-1763

Using a broad variety of textual and visual sources, Latin America and the First World War goes beyond traditional diplomatic history and analyzes the global dimension of the history of the Great War. Filling a significant gap in transnational histories of the war, Stefan Rinke addresses political, social, and economic aspects as well as the cultural impact of the war on Latin America and vice versa. Rinke's meticulous research is based on sources from the nineteen independent states of the entire subcontinent and promises to be the most comprehensive examination to date of Latin America before, during, and immediately after the war.

A Great Place to Have a War

A narrative of the First World War examines the brutal conflict that transformed the face of Europe, paved the way for the Soviet Union and Hitler, and had long lasting repercussions.

War the Definitive Visual History

In this Second Edition of this radical social history of America from Columbus to the present, Howard Zinn includes substantial coverage of the Carter, Reagan and Bush years and an Afterword on the Clinton presidency. Its commitment and vigorous style mean it will be compelling reading for undergraduate and post-graduate students and scholars in American social history and American studies, as well as the general reader.

America's Great War

In 1939, fashion became an economic and symbolic sphere of great importance in France. Invasive textile legislation, rationing and threats from German and American couturiers were pushing the design and trade of Parisian style to its limits. It is widely accepted that French fashion was severely curtailed as a result, isolated from former foreign clients and deposed of its crown as global queen of fashion. This pioneering book offers a different story. Arguing that Paris retained its hold on the international haute couture industry right throughout WWII, eminent dress historians and curators come together to show that, amid political, economic and cultural traumas, Paris fashion remained very much alive under the Nazi occupation – and on an international level. Bringing exciting perspectives to challenge a familiar story and introducing new overseas trade links out of occupied France, this book takes us from the salons of renowned couturiers such as Edward Molyneux and Robert Piguet, French Vogue and Le Jardin des Modes and luxury Lyon silk factories, to Rio de Janeiro, Denmark and Switzerland, and the great American department stores of New York. Also comparing extravagant Paris occupation styles to austerity fashions of the UK and USA, parallel industrial and design developments highlight the unresolvable tension between luxury fashion and the everyday realities of wartime life. Showing that Paris strove to maintain world dominance as leader of couture through fashion journalism, photography and exported

fashion forecasting, Paris Fashion and World War Two makes a significant contribution to the cultural history of fashion.

World War Two

From World War II to the war in Iraq, periods of international conflict seem like unique moments in U.S. political history—but when it comes to public opinion, they are not. To make this groundbreaking revelation, *In Time of War* explodes conventional wisdom about American reactions to World War II, as well as the more recent conflicts in Korea, Vietnam, the Gulf, Afghanistan, and Iraq. Adam Berinsky argues that public response to these crises has been shaped less by their defining characteristics—such as what they cost in lives and resources—than by the same political interests and group affiliations that influence our ideas about domestic issues. With the help of World War II-era survey data that had gone virtually untouched for the past sixty years, Berinsky begins by disproving the myth of “the good war” that Americans all fell in line to support after the Japanese bombed Pearl Harbor. The attack, he reveals, did not significantly alter public opinion but merely punctuated interventionist sentiment that had already risen in response to the ways that political leaders at home had framed the fighting abroad. Weaving his findings into the first general theory of the factors that shape American wartime opinion, Berinsky also sheds new light on our reactions to other crises. He shows, for example, that our attitudes toward restricted civil liberties during Vietnam and after 9/11 stemmed from the same kinds of judgments we make during times of peace. With Iraq and Afghanistan now competing for attention with urgent issues within the United States, *In Time of War* offers a timely reminder of the full extent to which foreign and domestic politics profoundly influence—and ultimately illuminate—each other.

The First World War in Photographs

The First World War, now a century ago, still shapes the world in which we live, and its legacy lives on, in poetry, in prose, in collective memory and political culture. By the time the war ended in 1918, millions lay dead. Three major empires lay shattered by defeat, those of Germany, Austria-Hungary, and the Ottomans. A fourth, Russia, was in the throes of a revolution that helped define the rest of the twentieth century. The *Oxford History of the First World War* brings together in one volume many of the most distinguished historians of the conflict, in an account that matches the scale of the events. From its causes to its consequences, from the Western Front to the Eastern, from the strategy of the politicians to the tactics of the generals, they chart the course of the war and assess its profound political and human consequences. Chapters on economic mobilization, the impact on women, the role of propaganda, and the rise of socialism establish the wider context of the fighting at sea and in the air, and which ranged on land from the trenches of Flanders to the mountains of the Balkans and the deserts of the Middle East. First published for the 90th anniversary of the 1918 Armistice, this highly illustrated revised edition contains significant new material to mark the 100th anniversary of the war's outbreak.

World War I

The definitive visual history of the people, politics and events of World War I *World War I: The Definitive Visual Guide* is a fascinating portrait of a world at war, vividly portraying the conflicts of the Great War on land, sea and in the skies. This history book will tell you everything you ever wanted to know

about the First World War. You will uncover the details of the Great War's titanic battles such as Gallipoli, the Somme and Verdun that left an indelible mark on the collective memories of countries and that claimed a generation of young men. Discover how local fears and hatreds escalated into one vast conflict that was fought out to the bitter end. Find out about key battles, political and economic forces, individual leaders and technological advances that influenced the course of the First World War.
